Kessler here, I'm driving to Arizona border for five days with a few friends , July 19 is our departure date, going to patrol cartel mule paths that lead into Arizona , leading a small team to recon the area and set up , we're expecting to make contact and be engaged by heavily armed cartel escorts trucking dope into Arizona, Feel free to join if you want , but be prepared to get contacted by heavily armed cartel members with automatic weapons , & possible grenades , if the Feds would protect the boarder we wouldn't have to! These thugs crossing affects every state not just Arizona, so I suggest those who live in az come to the front lines and assist in stopping the traffickers, murderers, rapest from entering ! Instead of bitching about it on social media

George Sprankle The spotters on the mountains will see you, long before you see any smugglers.....They will call them and let them know your 20....So that they can set in ambush.....be aware of that, Chief!
