Thanks bro! That fuck hunt is a rat fuck brother! If I were you I would walk I He will do anything he can to hurt the movement ! He's a cockroach

Jesse Mathewson 8:42pm
Just as a side note, these convos are routinely monitored - I would be happy to teach others how to use 4000+ bit ciphers relatively easy. Once you start you'll wonder why you don't do it all the time
Oh and, last rat I spoke with ended up in a coma...that was 20 years ago and he's still there...

Steve Peterson 9:04pm
Would like to learn how to use ciphers

Larry Kyle 9:45pm
Can a phone use ciphers? Not up on phone tech lol

Larry Kyle 8:53pm
Plaster his info all over FB

Mike Frye 7:29, 9:27pm
So I take it Gary is out. ok, I'm alright with that. I have the oathenforcers.org web page secured.

Jesse Mathewson 7:29, 9:52pm
Yes phones are actually easy to use that way, you know Mike we can talk at fj - I wouldn't mind doing an 8 hrs seminar showing how to use tor/ crypto/ virtual os/ etc basically make you less open to others. There are a thousand ways to avoid them. And I have used most of em for over 15 years now.
We can discuss in detail. It would be my treat, (travel only) gas is expensive. Lol but I would rather others know how then not @ I can also show you how to track and find anyone. Been doing that for a few years too. Did high end collections for a time, trained surveillance counter surveillance and now as civilian non employed I use the knowledge to a great benefit 😊

Jesse Mathewson 7:29, 9:53pm
Closed ranks though, I don't enjoy showing others things if I think they may use it against me. Not that I am too worried lol

Jesse Mathewson 12:16pm
Huzzah cops gary, hope you and the federal bureau of Ignorant order followers get this

Gary Hunt 1:03pm
The problem with this country is the cops that know they are right, regardless of any evidence to the contrary. That is often defined as psychotic. But, hey, the courts in Connecticut ruled that people can be barred from law enforcement if their IQ is over 110.
You have my sympathy, Jesse.

Mark Kessler 6:51pm
Gary hunt takes it up the ass ! That eat fuck ! He is a huge problem within the patriot movement ! Another one spreading disinformation for his handlers to slow the patriot movement to a crawl ! Every single group across the country needs to black list thus cockroach so he can not hurt the movement anymore

Gary Hunt 12:54pm

One thing that I have, demonstrably, is maturity. You seem to be quite lacking in such.
So, you have suggested that I have hurt the movement. Can you provide an example, provable, that I have? Have I created division, as you have? Have you gone to the link I provided to see if there is evidence to the contrary of what you have judged to be truth?

Mark Kessler 8:36pm
Hahaha u really go above and beyond to declare ur innocents ! Just goes to show ur guilt ! Get lost you scumbag rat

Gary Hunt 9:02pm
When you read the following, understand that when he says "dickhead", he means Mark Kessler.
"Oath Keep Frazier: Dickhead came to Sierra Vista Az and went into a town hall meeting and pissed the local sheriff off and this sheriff flew to my pause looking for him and then I talked to the head of BP who was also looking for Dickhead and so he effectively undermined what I've been doing for 2 months. He fucked up what relations I had with BP. He's a provocateur and a SCUMBAG."

Gary Hunt 9:02pm

Mark Kessler 9:10pm

hahahaha
did parris tell you how he wanted to jump the fence . and ambush INNOCENT mexican ranchers . ??? how he wanted to get as many people their to follow him over the fence and start killing innocent people ???
did he leave that part out mr Gary hunt you rat fuck ? im sure he told you that part correct ? and im sure you went to your handler and report it immediately !
when I refer to you people I refer to GARY the RAT HUNT!

Gary Hunt 9:21pm
I did not try to take an old article, written in 1995, and make it appear to be proof of anything, I did, however, quote and gave the circumstances, justifying the quote from a man who has spent months or years on the border, about some little man who spent three days and is now such an expert that he has undermined the relationship developed by Frazier between Frazier and BPS.
I am not calling names or making accusations, I am reporting what one of the real patriots at the border had to say about a law enforcement officer (EX, for cause) who thinks that he is king of the hill, but can't even find the hill.
Now, you have made accusations against Frazier, I'm sure that you have a cell phone and camera. Bring the evidence forward. You should, after 15 years, know how that works.
