Kris,

No desire to distract was intended. The name came up in the meeting, so I simply provided the only legitimate (not hearsay) evidence that supports what was said.

We all hear a lot of name calling, and some of us participate in the same activity. Does it bode well for us to resort to such a tactic? Or, should we be above that and if any such comment come from OMD, that it be supported by facts?

The distraction is what I endeavored to expose by posting something that is presented in the only acceptable means of keeping clean hands.

Unfortunately, it seems that scurrilous remarks, one from your elected chairman, are indicative of the necessity of controlled media presentations. The example I just mentioned was on Facebook, and from my source, is an accurate presentation that was made by Mr. Kessler:

"Mark Kessler

it has come to my attention that a so called patriot, more like a informant has been telling patriots to stand down regarding Texas border, this person has been telling people to stand down for over twenty years, most recently prior to the border situation , this turd was telling people to stand down regarding the clive bundy ranch incident , well let me state this RICK LIGHT unlike you who pushes the agenda of the corrupt powers to be ! I work for my country, countrymen, and constitution, and I along with supporters and crew members will be running the border in TEXAS because its my duty and constitutional right to protect my country , unlike you MR LIGHT you area disgrace to our country , the patriot movement & militias nation wide! their SHALL BE NO STAND DOWN ORDER ! as for you RICK LIGHT ! YOU SIR ARE NOTHING MORE THEN AN INFILTRATING SHIT BAG TRAITOR"

If OMD is to garner the respect that it deserves, it needs to avoid such public displays. The future of OMD is wholly dependent upon how it represents itself.

If you missed it, there has already been an effort to demonize OMA (Operation Mutual Aid), which can be read about at ["No bended knee for me" - the Persecution of Robert Beecher](#)

I just received a phone call from Mark Kessler. He stated that he did not want to receive any more emails from the list and that he was no longer "a part of OMD".

I am only the messenger, and the Advisory Board will have to determine whether he has resigned, or not.

I will remove him from the mail list, as he requested.

This email is being sent to him, via the list, to confirm that it is the last email that he will receive through the list.

I would suggest that some member of the Advisory Board contact him and ask for a written resignation, for the Board to accept at their next meeting.

Based upon your call to me last week, I responded to the list and contacted the Vice-Chairman. At present, your resignation is the first item on the agenda. I intend to let Cary James take the meeting. When that first item comes up, the matter can be resolved.

Ryan distanced himself from a decision on the matter. That left me to deal with it, as I have. I removed you from the mail list, at your request. I also have emails from you to me, which id the Board requests, I will forward to the Board.

The matter is now in the hands of the Board, as it is their job, not mine, to make any decision as to the outcome of your role in OMD. It is now out of my hands, though my personal feeling is that such behavior, and calling childish a work of hundreds of hours supported by EVIDENCE, and also supporting (proving) your conclusion about Rick Light, is not becoming an officer, let along, a member, of the OMD Advisory Board.

Sincerely,

Gary Hunt

Gentlemen,

Resolve it in the meeting. Knock off this email conversation and talk about it tonight. There is plenty of time to relate your opinions. Gary, you know well that we all have some correction to make in how we deal with the issues, outside influences, and each other. If you thought things would just fall into place and move forward exactly along the lines of what we all desire, then you haven't taken into account numerous character traits, personalities, and differences of understanding. Not to mention, when have you known the Creator to just let us achieve our desires without first having merited their award? If a man admits a fault, makes an apology and presents his desire to move forward, what righteous ground do we stand on to deny him that opportunity. We are not so far into this that ANY of the kinks are worked out. You must allow that time.

Respectfully, Your most faithful and humble servant,
Ryan Payne

This is the guy involved with omd? This alone is grounds for immediate termination! I knew their was something up with this piece of shit

John Doe #4 has been positively identified by the Intelligence Service as Gary Hunt. He has never been questioned by any law enforcement agency. Gary Hunt was also involved with the [Waco Massacre](#) in 1993. Gary Hunt is an informant for the Bureau of Alcohol Tobacco and Firearms (BATF). Gary Hunt masquerades as an American Patriot. The ethnic and religious background of Gary Hunt is not known at this time.

John Doe #6 remains unidentified at this time. We have a video tape of John Doe #6 in the company of Gary Hunt (John Doe #4) walking away from the Alfred P. Murrah Federal Building within 10 minutes after the bombs detonated. Both men in the video tape are carrying transmitters in their hands.

Gary, For what it's worth, anyone who can take that level of assault on his character and still remain professional is indeed worthy of my respect. Looking forward to working with you sir. Regards, Cary James
