March 5, 1994

The following information is my response to a five page "letter" which was hand delivered to Dr. Greg Dixon, American Coalition of Unregistered Churches in February, 1993, just prior to my scheduled speaking engagement at the Coalition in Indianapolis, Indiana. The result was the cancellation of the engagement.

I have included a copy of the "letter" as was received. It has been transcribed to increase legibility in the second section. The two may be compared so as to understand that there is no intent of deception on my part. The text of Ms. Thompson's letter is in this type, *my responses to her letter are in this type.*

The flag shown above, and used in my letterhead since October, 1992, when I opened the Don't Tread On Me, Common Law Service Center, is the Gadsden County, circa 1773. It was not unusual for the colonies to use a coiled rattlesnake in their flags. Some, today, think that evil connotations are represented by the snake. In fact the rattlesnake was used to signify the attitude of the colonists. The rattlesnake is a relatively harmless reptile when left alone. However when trodden upon it has been known to strike swiftly and fatally at it's aggressor. I have seen the patriot movement standing as a rattlesnake against the encroachments of a tyrannical government. The time is swiftly coming when we will be required to strike, or suffer destruction.

Since April, 1993, when Linda Thompson, BAR attorney from Indianapolis, Indiana first began attacking what I had accomplished in Waco and began suggesting that I was a "government snitch", I sat idly by. I asked many talk show hosts, who had both her and me on as guests, if she would be willing to appear with me. She always managed to find an excuse to avoid allowing YOU, the PATRIOT COMMUNITY, to hear both sides. Finally, on September 1, 1993, we aired together on the Lou Epton Show in Las Vegas, Nevada. The results of that "debate" are known to many.

Let it be understood that I have, many times, said that "the Big Lie" has done much to draw attention to the events in Waco. I have never attacked the video, only the information contained within which was known to be inconsistent with fact. The video has brought a significant focus on the tragedy, however it is imperative that We, the patriots of the United States of America can, and will, expose fraudulent information when it comes before us. This is our obligation, if our intent is sincere. We cannot win if we cannot win with TRUTH !

I had chosen not to speak out against Linda, or any other person, for I felt that any judgement of the motivation of any patriot, without hard evidence, should be left to each individual. After all each of us may have his very life at stake somewhere in this battle yet to come.

Ms. Thompson's actions regarding the above mentioned "letter" are the final straw. I have no proof of who she is, nor of what her motivation may be. I have previously presented some facts, situations and circumstances via fax networking. I have information that has not been made public before, and I have tapes of public, and private meetings. It is time to lay the evidence before YOU, the PATRIOT COMMUNITY, for your judgement.

The following information package is rather large. As interested patriots you will find the time spent reading it both educational and enlightening. I trust that after you have reviewed this information it will be passed on so that ALL will be made public.

Thank You,

A handwritten signature in black ink, appearing to read "J. B. D. L." with a stylized flourish at the end.

On April 27, 1993, I received a message from a fellow named David Treibs that said, "You might be interested to know Gary Hunt gave us a box of the book from Kirby Ferris titled "A Mountain of Lies, the apprehension and arrest of Idaho's Randy Weaver."

*I have never heard of David Treibs except in this and other fictitious accounts by Linda Thompson (LT) of this incident. In one such commentary (AEN BBS - "TRAITOR.ZIP 9-19-93") she indicates that the message was from David Treibs to Guy Putnam, not to LT.*

To which I responded that the box of books had been sent two months earlier to Gary Hunt who had promised Kirby Ferris that he would distribute them to the News Media[sic] at Waco.

*Two months earlier would have meant that the books were sent prior to the raid on February 28, 1993. Kirby Ferris contacted me in early March regarding distributing the books. It took him a couple of weeks to effect delivery of only ONE box of books, at which time I began distributing them. The delivery is confirmed by the AEN TRAITOR.ZIP file. The books were all distributed in Waco, to the press, with the exception of those given to Branch Davidians in jail, and out. Dewey Millay assisted me in the distribution. Kirby called at one point and indicated that he felt that I should distribute them rapidly. I explained that I was not going to stand in front of the press conferences hawking books, I would get them out by my method which consisted of carrying three or four into the press conferences and giving them to those that asked about them or that I could engage in conversation. I felt that the books were more likely to be read if they were requested, rather than just handed out and lost among the abundance of flyers and pamphlets that were being distributed at the press conferences. Most of the media present at the conferences received a copy of the book. [See Exhibit A]*

Before receiving that message the week of March 19, 1993, I had spoken to Kirby Ferris and he had mentioned to me that he was really puzzled why his books had not been distributed to the news media.

Hunt hadn't distributed the books to the media during the Waco siege. Instead, by the message above, we learned that after the Branch Davidians were burned to the ground and the media had long left Waco Hunt had simply delivered all the books in one lump, to David Treibs.

Well, I have several first-hand experiences with Gary Hunt and it is my sincere belief that he is a paid government informant, an "agent provocateur." The job of an agent provocateur is to infiltrate "patriot" organizations, gather information about the membership, and to generally cause division and confusion, and discredit the leaders or the group itself. Hunt is an excellent study and object lesson in these techniques primarily because he is inept enough that he exposes what he does.

I have nothing to gain by discrediting him, other than hopefully to keep others from getting into trouble by associating with him, so I hope you will trust my motivations. In the light of whether my opinion is "sour grapes," consider that, to my knowledge, Hunt has never done anything productive and has made his name solely by either copying what others do, bootlegging others' works, or going on the radio to denounce those poor saps who have been suckered in by his claims of being a "patriot." Know a tree by its fruits.

His pattern, in Waco, was to associate with any and every group and try to get as much information about them as possible then copy this information as his own, releasing it through the "patriot fax network," to gain credibility. Later, he would then release totally bogus information as one of the groups' members to make the group look really stupid, or, having established an inroad with a particular group, he would try to lead them into trouble with the police. He always had "very" inside information that proved to be true - too true, because no one else could get that information, such as the number of the BATF inside compound headquarters at Waco FBI inside compound headquarters at Waco the fax numbers to both, etc, as well as knowing a "back road" into the compound.

Most astonishingly, on the day of the Waco fire he told Greg Sali at the Constitutional Foundational Association (CFA) in Waco that the night before, the BATF had gone in and shot some of the people. Now, weeks later, the autopsies are showing that many of the Branch Davidians were shot.

*The first time that I ever mentioned that any of the Davidians may have been shot on*

*April 19th was weeks later when we received reports from Jaime Castillo that he had seen James Riddle outside during the fire. We knew that James Riddle had been shot and his body burned by the fire. This raised the question of what had happened to James. Since that time we have reason to believe, though not provable, that others were also shot as they attempted to leave. This information came from one of the Davidians, who cannot be named at this time, who escaped on April 19. His story had been relayed to at least two other people, Dewey Millay and Ron Cole.*

He was the first and only person outside of Indiana who I met who had heard of the "CDR" (Counsel[sic] on Domestic Relations) which I believe, through other information and contacts with that group, to be a government information-gathering service. His association with it and "pushing" it only further confirms my suspicions.

*The Council on Domestic Relations (CDR) was operating as early as November, 1992. There was a story about CDR published in the first edition of the Outpost of Freedom [See Exhibit B]. I had received a tape of one of their Saturday telephone conference calls which discussed many issues relevant to the Patriot Community. Among those was the subject of COSMOS. This subject eventually led to the breaking up of CDR into two factions. In January, 1993, I was a guest on the Saturday conference regarding the newspaper, Outpost of Freedom, that I was preparing for publication. I was also a guest when I decided to go to Waco and CDR encouraged the listeners to go and support the peaceful efforts to find a solution. I also spoke on the conference call during the siege to update people as to what was occurring. I was interim director of CDR for Florida until I decided not to affiliate with any organization during the siege, and since. I am still in touch with many of those who were/are a part of CDR. I judge them to be fine and caring patriots. If any are government agents, which is always a possibility, they cover their tracks quite well. I choose not to judge anyone until tangible proof is submitted. [See Exhibit C]*

Miscellaneous background: His paper, "Outpost of Freedom" has only had two editions, ever, both in late 1992. In those he published stories from Mark Phillips, who patriots here have consistently informed me is a government agent and I have now obtained

documentation linking Phillips with British Secret Service and the CIA. When I learned Phillips could be an agent and that Hunt was working with him, I asked him what he knew of Mark Phillips and he responded that he was a great guy, he worked with him a lot, etc. When I mentioned that patriots had said Phillips was an agent, Gary then back-pedalled in a big way, trying to act like he hardly knew the guy and that he didn't vouch for his stories in his paper.

*The documentation Linda suggests that she has is exactly what is needed to help all patriots understand who is good and who is bad. This should be brought forward so ALL can evaluate the evidence. Without evidence, any accusation is a reflection on the accuser rather than the accused.*

*It might be interesting to note that LT has, in AEN TRAITOR.ZIP, indicated that her "CIA source also tells me that Phillips is a known agent." She has confirmed, on the Chuck Harder Show [February 7, 1994], having a former CIA source.*

*In the first edition of Outpost of Freedom newspaper [February 3, 1993] I published an article by Mark Phillips entitled "OPERATION MONARCH". Prior to publishing the article I spoke with Mr. Phillips on numerous occasions. I reviewed the references he provided and I and others investigated the information at the local library. Our conclusion was that there was a foundation of truth in the article. Being one who has always desired to NOT present information that was incorrect, and being unable to verify ALL of the information, I included the following disclaimer at the beginning of the article, "[Note: The following article was written by Mark Phillips, who provided it to OUTPOST OF FREEDOM. OPF has spoken with the author on and has determined that this information is of the type that should be presented for consideration by those interested. This information is of a nature as to cause the conscientious reader to wonder. OPF is convinced that the author is sincere and suggests that the subject matter appears to have, at least, a foundation in truth. An open discussion of this topic is in order, and letters to PUBLIC FORUM will provide the proper framework for readers input. Editor]." I have always endeavored to qualify information of which I am not certain, and continue to do so when faxing Outpost of Freedom releases.*

An observation made by a radio personality is that Hunt seems to like to publish all the names and addresses of patriot groups in his newspaper, too.

*Many patriot organizations have struggled to get the word out about their existence. It took years for me to find what organizations existed and what types of situations they dealt with or what information they provided. The Outpost of Freedom published names, addresses and, when available, phone numbers for 107 organizations that were supportive of patriotic goals. Of those only twelve had provided a short narrative of their purpose by the second edition. Not one, and all were provided copies of both papers, requested removal from the list. This was offered as a service. Let's just think -how long would it take for the government to find out about a patriot organization? How long would it take for a patriot to find out about a patriot organization? The list was provided as a service to the patriot, not to the government.*

A radio personality in New Orleans, Louisiana, told me that Gary Hunt bad-mouthed Bo Gritz and was asked to be on a show to back up his contentions and didn't show up. (I believe this was solely to cause controversy which would have the effect of promoting Gritz, actually I am not a Bo Gritz fan either, but more on that in another letter). He was on a radio show in Florida in May, 1993, and I pointedly accused him of being an agent, citing many of the things that follow in this article and he didn't deny it, not once. Since then, he's had time to come up with a cover story and now apparently contacts radio stations, trying to get on them to "debate" me. I have no intention of giving him any glory or allowing him to obtain any more publicity at the expense of patriots by giving him a public forum.

*In AEN TRAITOR.ZIP, LT indicated that both Tom Valentine and Tom Donahue had stated that I had "badmouthed" Bo Gritz. I have spoken to Tom Valentine only one time, and that was very early during the siege. This was confirmed recently when LT appeared on the Valentine show and Tom indicated that I had been a guest just the one time. In personal conversation with Tom Donahue I expressed concern about Gritz, but I have never made accusations about him being a bad guy or operative. A friend in Florida, Grant McEwan, had been scheduled to go on the Donahue show a few months ago. I was in Florida at the time and was aware of the scheduled debate and when I heard that Grant had not called in I called his office. I was told that he was busy in*

*a meeting and passed that information on to Donahue. Since that time I have spoken on Bo's radio show on two or three occasions.*

*In May, 1993, when I went to Jacksonville to appear on a radio show and speak to a group of patriots. During the radio show there was a caller who made many accusations in a rapid fire question format (Is it true that you are a government agent?, etc.) and then hung up the phone. Being unprepared, since my efforts had done nothing to suggest that anyone would make this accusation, I simply responded, "I guess she didn't want an answer." We then went to the next caller. Later, at the meeting at which I spoke, Tom Donahue confirmed that it had been LT. This was the first notice that I had of allegations that I was a government agent. Regarding LT's unwillingness to appear on the radio with me, this was finally overcome. Lou Epton had LT and myself on his September 3, 1993 show. Of course LT did not know that I would be on with her, but it was the first, and only time that the audience has been allowed to "know the tree by it's fruit." It was also apparent why LT has refused to allow you to decide, rather to tell you what to decide. [See Exhibit D 1-4]*

Now, in the meantime, my PERSONAL experiences with Hunt have led me to conclude that he is an operative.

In March, 1993, my law partner and I had decided to go to Waco and file a petition for David Koresh, called a Petition for Writ of Mandamus, which is a court paper that asks the Court to order someone to do something they are by law, supposed to do. At the time the Court had denied attorneys access to David Koresh, and the FBI was refusing to allow anyone to have contact with the Branch Davidians. We were asking the Court to order the FBI to observe David Koresh's legal rights and to allow an attorney in to see him. Anyone can file such a petition on behalf of someone else as their "next friend" and that is what we had written and were intending to file.

*On March 14, 1993 I received a phone call from LT. She stated that she was an attorney from Indianapolis and had been a patriot for a long time. She had heard that I had the Power of Attorney (which was specific, not general) and wished to represent Koresh and me. She suggested that an injunction was the proper method of beginning the process of securing safe removal of those besieged people from Mt. Carmel Center. I explained that the FBI had*

*denied me access. I explained that I felt that there were some very important jurisdictional matters involved and she agreed to draft something up and get back with me. From the beginning I had indicated that I was looking for an attorney that would work with me since I have found that very few are fully cognizant of constitutional/jurisdictional issues. She called back and read me the injunction. I commented regarding jurisdiction and other matters, including that David could not be "represented" which would be an acquiescence to the courts jurisdiction (an issue still refuted by most attorneys). She faxed me confirmation of our agreement [See Exhibit D-3] the following day, March 15. It wasn't until she arrived in Waco, with her partner, John Baird, former FBI student, that I found she had changed the remedy to a mandamus. . [See Exhibit E 1-2 & F]*

Before we left Indianapolis for Waco I got a call from Larry Cozzi who said that Cy Minute[sic] (formerly associated with the Bo Gritz campaign) had said to get in touch with Gary Hunt, that he was a patriot staying in Waco and he would help us when we were down there. I called Hunt and he related a story about how he had Koresh's "power of attorney."

*Cy Minett was also heavily involved in CDR as a national director. Apparently Cy's relationship with CDR was either unnoticed or not significant.*

[A "power of attorney" has nothing to do with being an attorney in the sense of the word "lawyer". A "power of attorney" is a piece of paper that anyone can give to anyone else that, legally, allows the second person to be recognized by law as BEING the first person. In other words, if you give your power of attorney" to someone else, that person becomes you, to do anything you could usually do and anything they do, you have to honor. If they take out a loan in your name, you have to pay it, for instance. It does not, however, make the person "an attorney". It would give the person the right to HIRE an attorney for you, though]

*The Power of Attorney granted on March 9, 1993, was specific in that it was granted for me to represent Koresh in matters regarding the siege. Any implication beyond that, such as are suggested by LT, are not consistent with what was granted.. [See Exhibit G 1-3]*

Hunt said he got this authority when he called into Ron Ingleman's[sic] radio show, KGBS, in Waco, Texas, the morning that KGBS was talking to the Branch Davidians and the Branch Davidians were

answering questions by signaling with their satellite antenna, moving it for "yes" and not moving it for "no." He said that he called into the program and asked if he could have David Koresh's "power of attorney" and that the satellite signalled "yes." That's pretty iffy, but irrelevant to this matter.

*The validity of the Power of Attorney has been questioned by Tom Valentine, Montel Williams and LT. Others have not questioned it, including Melvin Belli, well know attorney, who sent a representative to Waco to work with me later on.. [See Exhibit F]*

We have recently learned that the government had blocked and jammed all broadcasts into the Branch Davidian house and the radio station could not have been broadcasting to the Branch Davidians. Branch Davidians also have told me they were never moving the satellite as a signal, either. Ron Ingleman[sic] got his job with KGBS radio right before Waco and made a name as a "patriot" by having people on his show who were sympathetic to the Branch Davidians. He claimed to have "lost" his job right after Waco but has spent his time since then attacking efforts to expose the government's corruption in Waco while appearing on radio claiming to be a patriot. While we were in Waco I saw a fellow I went to law school with who was a "broadcaster" for NBC. The FBI requires that its employees be law school graduates. Hmmm. Looks like we had a few other "advance team" members in Waco to me.

*LT suggests that she has knowledge of the blocking of radio broadcasts. This appears to me to be the type of privileged information she suggests that I have access to. She fails to note that it was not Ron who conveyed the message of the movement of the antenna, it was Ken Fawcett. [See Exhibit G 2-3]. She also suggests that all media "broadcasters" should have gone to law school. She implies that if Ron had not gone to law school, then he could not be a broadcaster, and if he had, he could also be an FBI agent. Rather self serving when she acknowledges that she is an attorney, as are her friends in media. I wonder how Tom Donahue, Chuck Harder, Bill Cooper and Lou Epton, et al, feel about this?*

Hunt wanted to be on the petition for David Koresh, so we added him to it. We did not file it acting as his employees or attorneys, as he now claims, because we were not filing in the capacity of attorneys, nor did we ever work for him or have any contract with him whatsoever. I filed as "next friend" to David Koresh which is a legal standing that lets someone file a petition for someone else who is unable to do so.

*I refer you to the fax transmission from LT*

*to me on March 15, 1993 [See Exhibit D 3], in which she agrees to "represent our mutual interest." She ends the "letter" by stating, "Please contact me immediately with the details we discussed." Now, does this sound like someone who was added on because they "just wanted to be on the petition?" Or, is this a recognition of the efforts exerted by me prior to her involvement. Also, the Mandamus was, obviously, prepared with myself and the Power of Attorney in mind. [See Exhibit E 1-2]*

When we got to Waco we learned that Hunt was living at the New Road Inn and continued to live there, to the tune of \$40 a day, and spending about \$20 a day at the Kinko[sic] copy center, putting out faxes on a network that only he and another person were members of, and money for meals, with no visible means of support and with no job track record, either. He claimed to be "in construction" in Florida before coming to Waco but also claimed to have no money. He also claimed to publish a paper, "The Outpost of Freedom" which I learned had only been published twice ever, and made him no money whatsoever. In other words, he had no "following" or "supporters" to provide support, yet he was able to live 51 days and churn out a lot of documents during the 51 days he stayed there.

*While I was in Waco I stayed at the New Road Inn, where the staff was very gracious, and supportive of our efforts. The rate was weekly and amounted to about \$15 per day, far less than the Holiday Inn where LT and John Baird stayed. Kinko's was the only nighttime location where faxes could be sent from and the cost was about \$2. If I could not find a ride I would have to pay the cab \$17 for the round trip. I went to Waco, leaving my Land Survey business behind [See Exhibit I], expecting to stay just a few days. There is no doubt that the costs of the stay exceeded what I had anticipated. By speaking on the radio, across the country, including the Bill Cooper show, I was able to solicit contributions from people who were supportive of our efforts. In fact, when a number of Davidians were staying in the Salvation Army Half Way House and indicated that the ATF/FBI had taken their Bibles, we had sufficient funds to replace all those that had not been returned (with less than cheap versions). It seems that FAITH in the cause for which I went to Waco was more than adequate to provide my subsistence.*

## PLANTED DISINFORMATION

Hunt claimed to have a "fax network" which I learned at the time (March 19, 1993), consisted of faxing things to one place in Florida, another in Nevada, and later, apparently to my office, too. In other words, the fax network was an advance set up by the feds to monitor patriot activity that was established by Hunt, along with Ken Vardon[sic] out of Las Vegas, to monitor "patriot" activity during Waco.

*Ken Vardon contacted me in March, 1993. He had received one of my first press releases and was interested in distributing TRUTH from Waco over his fax network, American Patriot Fax Network (APFN) . [See Exhibit J 1-3]. We agreed that I would produce at least one report per day concerning the events in Waco. I also faxed to Linda Lyon, in Florida, a friend who wrote LIBERATUS magazine, a patriot publication. She reproduced much of my work in her monthly publication. LT has continued to associate me as more than just another contributor to APFN. Ken Vardon faxed LT, on August 11, 1993, a cover and statement of the purpose and goals of APFN. It appears that LT is not willing to accept anything unless it is consistent with her views. I cannot argue with anyone's right to their own opinion.*

Hunt claimed to have no car, however, he was seen driving a white Ford truck with a camper top a few times and I believe the "no car" routine was mainly to claim a need to bum rides so as to always be tagging along with a patriot somewhere. In the meantime, since Waco he has been in several cities in Florida, doing radio programs live and last said he was going to Montana (where C.U.T. is believed to be the next target).

*When I went to Waco I had anticipated staying just a few days. I had made arrangements, since I was flying out, for Dewey Millay and Steve Roberts, two friends that I had been directed to by Cy Minett, for my transportation. After I began getting involved (i.e. Criminal complaint, Power of Attorney, arrest warrant, etc.) my friends felt that it would be better not only to be driven around, rather than risk arrest while driving, but to have someone with me nearly twenty four hours a day. I could not disagree. When LT first arrived in Waco, she and John Baird picked me up for dinner (the only dinner I had with them, on March 17). The next day, when Dewey gave me a ride to John and LT's motel and came up to the room to meet them, LT asked, sharply,*

*"Who the hell is that?" I explained, but due to her discomfort opted for her and John to drive in the future when we had appointments or meetings, it also seemed much more practical. This left me stranded a couple of times because of her failure to show for scheduled meetings. During the course of my first stay (March 6 through April 22) I never drove any vehicle for any reason. Not a "white Ford truck with a camper top" or a "Bronco" (as per TRAITOR.ZIP). Judging by her identification of me at an ATF funeral [Bill Cooper radio show], which I never attended, nor would I for peaceful purposes, and her failure to notice me in Orlando, until she was informed that I was present, this misidentification is easily understood.*

Anyway, when we got to Waco we filed the petition on a Friday and from that point on, Hunt wanted us to take him with us everywhere or, alternatively, to give him rides to various meetings. When we didn't oblige, he would be very insistent, then surly about it. On Saturday, my partner, Hunt, and I went out to dinner. We discussed why the Press[sic] had not filed a 1st Amendment challenge to being kept 3 miles away from the Mt. Carmel Center. I wanted to file a challenge to it. Since we have AEN news, John and I were legitimate AEN reporters, so I said I would go to the 3 mile press line, cross the line, get arrested, then we could file a challenge in court on it. John and Hunt both said it would be better if we had someone who wasn't an attorney waiting on the court to rule on a petition to do it and then Hunt volunteered. The plan was to go down to the press area, hand out press releases of what we were doing, Gary would cross the inside 3 mile roadblock line, get arrested, we'd bail him out, then we'd file a challenge of freedom of the press in Court, challenging his arrest. So we took our press passes and cameras and went down to the first roadblock (There were two sets of roadblocks, one at 5 miles for ordinary citizens and one inside at 3 miles for the press.)

*On Saturday, March 20, 1993, LT approached me with the idea of her and I entering the Center to see David Koresh, whom we both represented by virtue of his Power of Attorney to me and my subsequent specific power of attorney to her. As the plan was formulated both she and I would go into Mt. Carmel by going to Satellite City with press credentials of AEN, her network [Spross/Orlando video, LT talks, January 15, 1994]. We would enter by walking from there to the Center. It was felt that with a woman present there would be less risk. We went to*

*Kinko's and prepared a press release that said that she and I would be going in. While I was preparing AEN press credentials (I had made my own for Outpost of Freedom shortly after arriving) they put the finishing touches on the release. Then LT asked me to send the release out via APFN, excluding, however, to any government agencies. This request was passed on to Ken Vardon on a cover sheet attached to the release. Then it was time to go. We got in the car and began driving toward the FM 2491 checkpoint. As we were driving LT began suggesting that maybe it would be better to have an attorney out if I were to get arrested. John volunteered, however LT said that he did not have enough experience (little did I know at the time that LT had passed the BAR in Indiana just 9 months earlier). She finally decided that she would not be going in. I told her that I was reluctant to go alone and she continued to insist. I told her that I would go to Satellite City and see what it "felt" like before I made my final decision. When we arrived at Satellite City LT began passing out releases. One was given to a fellow that was very familiar with LT. She mentions him in her article (Intimidation from the Barrel of a Gun, SOF magazine, July, 1993) and even tells how he almost ran to the State Police with the release. Within five or ten minutes, two more cars of State Police arrived and stood at the next checkpoint, the last before Mt. Carmel Center, and stared directly at us. As visions of Mike Schroeder's dead body hanging limp over a fence for days passed through my mind, I decided on discretion rather than valor and told LT that I would NOT go in alone. We then left Satellite City. A narrative of the sequence of events referred to here is best defined by reviewing the story as it happened (See Exhibits K, L 1-3 & M).*

We had made up some press releases to hand out down in the press area when we got there, telling what we were going to do. Unbeknownst to us, though, when we made these up at Kinko's, Gary had sent faxes out to his "buddies" before we left. The press releases said what we would be doing. We discovered later that he had sent these faxes to the ATF command post, as well as the FBI command post headquarters. [This was CLUE #1].

We had no problems getting through the first 5 mile roadblock. The police even posed for pictures and trotted out the BATF "bomb dog" to pose for a few of the pictures.

We got down to the press 3-mile roadblock, handed out a few press releases and realized that the roadblock was suddenly being reinforced by a lot of police arriving in two police cars. Hunt announced he wouldn't cross the line, so we got in the car to go back to our hotels. Since we had handed out press passes we looked pretty stupid at that point. [This was CLUE #2].

On the way out of the 5 mile roadblock, we got stopped by the roadblock police, who demanded to see our press passes, taking them and our driver's licenses and my rent-a-car paperwork and told us to wait in the car while they ran our names through NCIC (the police computer with criminal information in it - the National Crime Information Center). As we waited, a camouflage-wearing ATF agent holding an MPK-5 sub-machine gun, with his finger on the trigger, pointed his machine gun at my partner's head, then at mine, then at my partner's head, then at mine, back and forth, for 20 minutes or more - but never at Gary. [This was CLUE #3]. I managed to take a picture of the ATF agent pointing the gun at us and when I did, he rushed around the car to my side to open the door, but I had locked it and rolled up the window. About that time, the State Trooper was back and the ATF agent backed off. I hid the film behind the glove box, inside the dashboard, by opening the glove box and throwing the film inside, behind the glove box, then slamming the glove box shut on it. We were ordered out of the car.

The ATF agent opened my car door immediately, even though I was saying "You do 'NOT' have permission to search my car," loudly and repeatedly. He said he didn't NEED my consent. He took my purse and dumped it on the car seat then went through it, then he saw Gary Hunt's camera in the back seat and took it out and immediately took the film out. Gary Hunt, who was standing next to me at the back of the car, yelled to the BATF agent, "That's the WRONG CAMERA, that's the WRONG FILM, you've got the WRONG CAMERA." [This was CLUE #4].

The ATF agent found my camera but it didn't have any film in it when he opened it and Hunt didn't know where I had hidden the film, so when the ATF agent said "Where's the film?" I just lied and said there never was any film. He then rooted through the car, under the seats, and even opening the glove box, but he never saw the film behind the glove box [and I have a nice enlarged, framed picture of him pointing the machine gun at us hanging in my office, small copies available on request].

*As we approached the FM 2491 checkpoint, we were stopped by the State Police and not allowed to proceed. As the State Police went to their tent to call the FBI, an ATF agent with MP-5 stood guard. He stood squarely facing the drivers door, and it appeared that he took the safety off. On numerous occasions he pointed*

*the gun at John in a threatening manner, only to return to a more at rest position until he swung the rifle around again. I turned on the micro-cassette recorder in my pocket just as the State Police returned [See Exhibit N 1-3 & O]. The transcription of that tape is attached hereto. It is apparent by that transcription that once my film had been exposed and my many pictures lost forever, that I stepped in to protect LT's film from confiscation by telling the agent that he had already destroyed the film. Copies of this tape can be made available for legitimate purposes. We were detained for about twenty minutes, total. Each was taken to the tent, LT first, then I went in, accompanied by LT. Then John went accompanied by LT. LT is fully aware that I refuse to answer any questions, and she commented positively that evening, about my actions during the interrogation. We then returned to Waco and our respective motels, Linda with her film and I with my tape recording.*

We had to wait on the FBI to get there to "question us" and then they let us go when we didn't cooperate much with their illegal "questioning" (seeing as how two of us were attorneys. . . .). But they refused to return our press passes (This story, along with the picture of the ATF agent pointing the machine gun recently appeared in the July issue of Soldier of Fortune Magazine, entitled "Intimidation at the Barrel of a Gun," story and photo by yours truly.)

Sunday, the next day, Hunt wanted to tag along with us again so we asked him, instead, to stay at our hotel (not the same one as his, but so he could use a phone there and charge it to us) and call people and set up a press conference. The FBI, CNN, and other press had been releasing stories saying that my partner and I had been "arrested and jailed for having false credentials" and we wanted to set the story straight. John (my partner) and I then went to do some reconnaissance and take photographs of various things of interest in the area. When we got back Hunt hadn't set up any press conference claiming he didn't know how. [That was, in retrospect, Clue #5]

*I was only in LT's room on one occasion, the day after she arrived in Waco when Dewey Millay had taken me there and she was offended that I would bring anyone with me. In a recorded conversation LT acknowledged that she was unable to provide the phone number of the "tent" at Satellite City where I was to call and announce "her" press conference. I told her that I had never called a press conference and I was inclined not to. I have never called*

*one prior to, or since Waco. LT is the type of person that seeks the recognition via press conferences. In fact, she arranged for an interview with an Indianapolis TV station on March 18, for her and me. Melvin Belli's attorney, Rick Morse, did the same [See Exhibit H]*

Monday, John and I called the Court and learned the judge hadn't so much as "looked" at the petition (which had been filed as an emergency petition, which ordinarily would get heard within 2 hours anyplace/time else). I decided to file a petition for writ of mandamus against the Judge with the Court of Appeals (which, for that circuit is located in Louisiana), asking the Appeals Court to force the Judge to rule or else to order the FBI to obey the law, etc. John and I filed that (by fax) with the Appeals Court. The beauty of it is that we then had to serve a copy on the judge in Waco, so we went over to the Courthouse to serve it on the judge and then to sit around the rest of the day, nagging the clerk to nag the judge or whatever it took to get him to rule.

We ran into Hunt at the Courthouse. He said he had "just got a check for \$500 and was going to contribute some money to our organization." [This was Clue #6 -- operatives "always" want to give you money to stay in good with you, plus Gary wouldn't reveal the source of this "check", nor how, when he claimed to be a sovereign citizen, he would be able to cash it at a bank].

When we told him we had filed with the Court of Appeals in Louisiana, instead of being glad that we were trying to get the Court to do something, he went BALLISTIC. He cussed me up one side and down the other, ranting and raving -- my impression was that his reaction was as if we had taken the case out of "his" (read: the government's) control and he was freaked. Whatever, his reaction was TRULY weird for someone who claimed to want to get Koresh relief. [This was Clue #7]. We didn't associate with him, period, after that.

*LT had failed to show for an early Monday appointment, so I went with friends to the federal courthouse in Waco. As was usual, I had to remove everything, including my belt buckle, to get past the metal detectors to gain entry. As I began refilling my pockets, John and LT came down the elevator and brushed by me, obviously in a hurry. I hurriedly, finished filling my pockets and chased after them. They allowed me to enter the car with them and then drove to the office of the U. S. Attorney to serve papers. I asked many questions, basically prying from them what they were doing. Finally, after the papers were served, I was allowed to look at the paperwork - there was no copy for me because*

*"our funds were short", meaning John and LT. I had endorsed a check, a contribution from a lady in Santa Monica, California, to a local merchant that would give me the money after the check had cleared. I offered, assuming still that we were "working together", to give John and LT some money, assuming, also, that they were out of cash and relying on their "plastic" to survive. Finally the story came out. They had filed with the Appellate Court, in New Orleans, Louisiana, a mandamus on Judge Smith to order him to answer the mandamus we had filed in the federal court in Waco the Friday before. Obviously irritated, LT began telling me that everything was in their hands and there was nothing of any concern to me. I became equally irritated and explained to LT that I had agreed to work with her because she had agreed that we would work together. I will try to explain the burden that I felt I had acquired as a result of receiving the Power of Attorney. It had been granted to me based upon David's faith in my willingness to accept the responsibility which came with it, as I perceive my moral obligation to use the Power of Attorney to exert any and every effort I was capable of in seeking a peaceful solution. Feeling this responsibility, I chose, from the beginning, not to turn over authority to a BAR attorney unless the effort were "brainstormed" by all involved, including the friends in Waco who had been so helpful to this point. The decision of LT's which was that it would go her way and only her way was contrary to any terms of acceptability in my mind, so I informed LT that our "contract" was terminated. She became even more upset at this point and presented some very good arguments as to why I should not file a withdrawal of mine and David's endorsement to the proceedings. I indicated that I would not withdraw them until I had secured another attorney to pick up the case so as to not create any additional jeopardy to those still at Mt. Carmel. This was, however, the last meeting between LT and me until April 3, 1993. I will add, at this point, that LT filed with the Appellate Court before Judge Smith had eight working hours to respond to the Petition for Writ of Mandamus. He answered the petition that day [See Exhibit P], however LT's filing with the Appellate Court had been*

*denied before Judge Smith had written his order denying the Mandamus. I am not condoning the denial by Judge Smith, I am, however, sure that reason must prevail and that Smith should have been allowed a reasonable period of time to answer the petition. Instead, in his answer, he even addressed the denial of the subsequent mandamus which had already been denied.*

That afternoon, though, Hunt, the person who "didn't know how to call a press conference" the day before, called a press conference to denounce John and I to the entire media assembled at Waco. [This was Clue #8].

*As indicated above, I have never called a press conference.*

It gets worse

Two weeks later, my husband, Al, and I went to Waco for the Militia Assembly. There were about 45 people from our assembly having lunch at the Dairy Queen when a "late arrival" to our assembly arrived in camouflage fatigues and wanted to "sign up." We let him sign up and kept eating lunch. In the meantime Hunt has also arrived, accompanied by a guy in civilian clothes we recognized as a BATF agent. [This was Clue #9].

Hunt comes over to my table like he's my long lost brother, sits down and sticks out his hand to shake hands, and says he wants me and "my group" to go with him and "his group" on a march into the compound, saying, "You know, by way of that 'secret back door into it I told you about.'" "His group" consisted of some of the bolder members of people I knew were actually people from the Libertarian Party, CFA, and some other groups that had volunteers working in Waco, about 20 people in all, all of whom, except Hunt and the BATF agent, I believe are patriotic and hardworking folks. I replied that if it were anybody but him asking, I'd do it in a heartbeat but I was certain he was leading them into a BATF ambush

I walked off and didn't talk to him anymore. The ATF agent in civilian clothes tried several times to talk me into going with them until I blew him off. A guy wearing a JPFO (Jews for the Preservation of Firearms Ownership) hat came in behind him. I talked to him for a few minutes and he said he was "CDR". Yippee. We had a fed infestation at that point. [These circumstances, collectively, were CLUE # 10]. None of the people from the Militia went with Hunt.

I warned three people from the other groups who had come by in the meantime not to go with Hunt and told them why, but some went anyway. The next day, talking to one of the leaders of the Texas Libertarian party, Katherine Megarty, who had been one of the people I had warned not to go with Hunt, she told me that she had gone anyway and that when they got to the "back road" into the compound, two black helicopters landed immediately and BATF agents,

pointing machine guns, jumped out and surrounded them. They let everyone go, but they were detained a long time first. In other words, an ambush. [This was Clue #11]. She also said that the guy who had come in with Hunt, the "late comer" to our assembly, had been one of the ATF agents who jumped out of the helicopter. I checked the guy's registration card and sure enough, he had provided only a pager phone number and a phoney address. [This was Clue #12]. As a result of this escapade several groups were trashed in the media (people whose members had gone with Hunt).

*Saturday morning, April 3, 1993, some people from San Antonio that I had been talking with on the phone arrived in Waco and picked me up at my room at the New Road Inn. The first "demonstration" not held at the convention center was getting under way at the FM 2491 checkpoint. It seemed that many were getting more upset over the events in Waco, and the effort was going to be brought to the ATF, State Police, Sheriff and others who provided "security" for what was described to me early as a "crime scene." I had avoided getting involved in the "sixties" style demonstration prior to this, but decided to go along that day. When we arrived at the triangle formed by Loop 340 and FM 2491 I ran into two people I had spent many hours with the preceding weeks, Robert Fox and Richard Donaldson, both of Dallas. We discussed what the possibilities would be if sufficient people should show up. It was beginning to appear to be the largest demonstration yet. Richard and I began discussing whether the initial plan, peaceful intervention, would work. By this time there were well over a hundred people, and they were still coming. We decided that the plan from March 7 would be a bit more "newsworthy" so we went back to the motel and picked up the flyers that had been prepared for the peaceful intervention that had been broadcast over many radio stations and conference calls during the first week of the siege. It did not occur then because less than twenty people were willing to take the risk that early on. As the current "plan" was formulated we decided that there would be no way of getting the hundred flyers out without the ATF/FBI getting a copy. It was decided that we would circulate and discuss the "objective" and then pass out the flyers at the last minute so as to minimize any warning to the ATF/FBI. Many people thought that it was*

*a good idea and agreed to go along. Richard then suggested that we go to the Dairy Queen and see if those who had joined LT and her "armed militia" might wish to join us. She describes that event pretty much as it happened. At the appointed time people got a flyer, jumped in their cars and drove the eight to ten miles to Frazier Lane. Along with our motorcade was an escort of State Police, ATF, Sheriff and Waco Police. When we arrived it was interesting to look at a car coming up the road and wonder which "type" they would be. Finally the flow stopped and we assumed that all who had planned on coming had arrived. Some of us spoke amongst ourselves of possibly "making a break" to go over the two miles of treed pasture land to Mt. Carmel Center, but eventually decided against it. After a while, as we saw that nearly all of the ATF agents, including those who arrived by helicopter, were standing in line about fifty yards inside of the fence, between us and Mt. Carmel Center. Larry Dodge, FIJA - Dallas, some of his friends and I decided that if we strung people out over the nearly one mile to the checkpoint down the road to the South of us it would force the ATF to string themselves out very thinly. We found who was willing to "make the walk" and began marching down the road at about fifty to seventy-five foot intervals. After a few minutes the ATF agents were beginning to spread out parallel with the road, and our line of march. As their separation became large enough, State Police and Sheriff's deputies jumped the fence to fill in the gaps. When the group arrived at the checkpoint down the road some constructive conversations ensued between demonstrators and government people. After a while the gathering broke up and people returned to their cars to leave. As we were leaving we found out why our group amounted to only about 70 to 80 people, the State Police had set up a road block and denied access to many who would have attended. This was the "ambush" made famous by LT. [See Exhibits Q, R, S & T 1-2]*

Hunt claimed that he had "gotten in good" with Rita Riddle, a Branch Davidian, whose sister-in-law and daughter escaped the fire. Hunt claimed to be pumping information from Riddle. Rita told Ken Fawcett that she was constantly threatened by government agents that her sister-in-law would be arrested if she didn't shut up (Rita had been appearing

on radio programs at the time). Sure enough, Ruth Riddle, Rita's sister-in-law, was later charged with conspiracy and murder. When Rita turned in a claim for her car to her insurance company (the car was destroyed by tanks at Mt. Carmel), Hunt tried to get her to indorse[sic] the insurance check to him.

*I don't know if "gotten in good" is an appropriate term, it would surely not be my choice. Ken Fawcett had introduced me to Rita Riddle in late March, shortly after she had been moved from jail to the Salvation Army Half Way House. We began speaking daily. In fact Rita was a source of information for much of what I learned about the Davidian's and the first three weeks of the siege. At the time, for her protection, I had promised not to disclose "my source" for this information [See Exhibit U, V, W & N-2, ¶5]. Obviously, since that time, this constraint and my obligation don't apply.*

*Rita had been charged when she first came out on March 21, but charges were dropped just a few days later. She was again charged with conspiracy to murder federal agents on April 19 at about 9:00 AM, and taken back to the McLennan County Jail. I had not heard from her all day and had heard rumors that she had been charged. We could not call in to the Half Way House. The calls had to be initiated by the "prisoners" themselves. Finally, at just after 5:00 PM, Rita placed a call to me with instructions to contact her family, and arrange to have her property removed from the Half Way House. We both felt that her talking so freely to me for the past few weeks, her outspokenness, and the fact that she had appeared on Bill Cooper's radio show, at my request, may have led to them trying to "quiet her up" during the final murderous assault. The charges were subsequently dropped, probably because it appeared that the State had to be able to "place" a gun in the hands of all those charged with the crime. Our friendship will last a lifetime. We shared much pain over those weeks in March and April, 1993. There is a rather interesting story about Rita's insurance claim. Rita was still in the Half Way House and we had spoken of trying to place a claim against the damages to the vehicle. Rita had asked me to go ahead so I called the insurance company. When they had "punched" in her name I was asked if it was the same red Honda. I said yes, and was asked what had happened to*

*the car. I said, "It was run over by a tank." The lady then asked, "Was Miss Riddle still in the car?", to which I replied, "No." She asked where Miss Riddle was at the time and I replied, "She was in church." The lady then asked if I was in Waco, Texas, to which I answered in the affirmative. The claim was paid, and I received the same compensation that I had received for everything I have done for any of the Davidians and their families, NOTHING, except the pleasure of helping friends!*

Interestingly, on the 9-1-1 tapes, recorded when the Branch Davidians called the Waco Police Department the day of the raid (the phone hook-up included Mt. Carmel, the Waco Police Department and the ATF undercover house across the street from Mt. Carmel.), a government agent, identified only as "Dino" is talking on the phone from the undercover ATF house and says, "Let me put my partner, Starlyne Riddle, on the phone," and a woman named Starlyne Riddle comes on the line and talks to Lt. Lynch, who is on the line, too. "Starlyne Riddle" sounds remarkably like Rita Riddle. And Rita Riddle voluntarily flew from Texas to North Carolina, meeting up with Hunt, in January of this year, as the other Branch Davidians were on trial. Rita has been free to travel and has made several trips.

*It is clear that "Dino" was NOT in the undercover house. In fact, he asks Lynch if he was in the undercover house. From the Waco P.D. time line for tape 6, side B; "12:26 - tape starts; 12:28 - Dino asks if Lynch is in the house across from the compound. Lynch clarifies his location (Dispatch Center at Waco PD) and confirms all conversations are on tape; 12:34 Discussion of Dino coming to Dispatch Center; 12:37 Steve (Schneider) wants to talk to Jim (A.T.F.) but there are problems with Jim's cellular phone. Lynch keeps Steve talking on the other line."*

*Regarding Rita being able to "travel", she had been restricted to the Western District (federal) of Texas during the entire time that she was "held" as a material witness, including while she was staying at the Brittany Hotel. There were a few occasions where she received permission from pre-trial services to visit with her daughter, Misty, who was one of the more severely burned victims of the government assault of April 19. On one occasion I sent a fax out through the network. The pre-trial people had told Rita that she could not visit*

*Misty at the burn center in Cincinnati, Ohio. The fax was a "fax campaign" (sending faxes from all over the country to a person or office) to encourage the government to let her see her daughter [See Exhibit X]. It was successful and Rita was allowed to visit for a couple of weeks. At the time of this writing Rita is in Cincinnati visiting with Misty as she goes through more treatment. I was in North Carolina a couple of weeks ago and called Rita, who was home with her family in Asheville, North Carolina. I had spoken to her about coming to Andrews, North Carolina to speak to a group of patriots. Unfortunately we were unable to make all of the arrangements for this to occur. Rita was held "prisoner" to some degree by the federal authorities in Texas from March, 1993, to January 1994. This accusation by LT is self serving and adds insult to injury to Rita Riddle, who has gone through so much.*

In May, when I was in Waco, I received a telephone call at the Brittney hotel[sic], and the caller asked me to pass on a message to one of the Branch Davidians in jail. I passed the message by phone to the Branch Davidian when he called the hotel a few minutes later. Not a half-hour later, Gary Hunt knew about the conversation and its contents - I learned this because Hunt relayed it to a third party who knows me and who told me about it immediately - but Hunt had not been at the jail nor talked to the Branch Davidian and could only have learned of the conversation by being privy to jail surveillance and recording.

*I am not quite sure what LT is speaking of in this regard. I have spoken with nearly every one of the Davidians, in jail and out. I have visited those both in and out of jail, and I have done whatever I could to help the families that are left without certain members as a result of the activities of the federal government. The ambiguity of this comment should cause anyone to wonder what the motivation is. I will say that after LT's article came out in SOF, I made copies to supply to those in jail. This was not an affirmation of the allegations, but my effort to hide nothing and remain above reproach.*

Hunt also has spent a great deal of time trying to get media coverage for himself by claiming to be an "expert" on Waco, though he did absolutely no research of his own whatsoever, stealing his information from patriot groups, and has made his name solely by using my coattails, calling stations claiming that he "knew me" in Waco and thus is competent to denounce me on radio - same old

tactics: Diversion, confusion, and deceit.

The Patriot Fax network[sic], which Hunt started, put out a message that was obviously intended to make Hunt appear credible after he was exposed as the traitor that he is, just before the Patriot Fax network[sic] claimed to be "going down" because it couldn't pay its \$3000 a month bill. The message was written by (surprise) Ken Varden[sic] and said that Hunt was being chased by the ATF. The message also said the ATF weren't such bad guys after all. Well, I immediately called ATF, and asked whether Hunt was wanted or not and was told that he wasn't wanted by ATF at all. But he apparently wants everyone to think so to "prove" he isn't an operative.

*I have since found that two other people I know in Las Vegas were approached by the ATF and questioned about me. Jim Vix and Gerri McLain, who I had met as a result of the Prodigy computer service bulletin boards. They were asked questions similar to those asked of Ken Vardon and also regarding tax matters. Prodigy users, beware! Both Ken and I published the name of the agent we spoke with. Linda seems to desire to keep private her "source" in the ATF. Finally, as was pointed out in both Ken's and my releases, the ATF was investigating me. It was not a matter of whether I was "wanted", or not [See Exhibits Y 1-2 & Z].*

Hunt is still travelling around, now with a woman companion named Linda Lyons[sic], neither of whom have any visible means of support or money. I saw them eating together at the Elite Cafe in Waco, Texas, in October, 1993, where the bill would run no less than \$35.00 for a meal.

*During the entire month of October I was in New York on the Onondaga Reservation, and also in Connecticut on the Paugeesukq Reservation. When I passed this information on to Linda Lyon, she insisted that the attached statement be included with any response I made [ See Exhibit AA].* Shortly afterwards, Hunt appeared at what he claims is the Paugussett (pronounced "Paw-GEE-set") Indian reservation in Connecticut in Colchester, Connecticut.

My information says that two brothers in Connecticut, whose mother was Indian and whose father was black, a few years ago changed their names to Indian names and declared their property a "Paugussett Indian Reservation." They also sued the State of Connecticut to declare the land belongs to the Paugussett Indians and by the suit, have tied up property all around Colchester, Connecticut

*As is my habit I go to the story, unless it involves someone I know well and trust, to find*

*what the facts are before I report it. The information that LT provides is as inaccurate as what was reported by much of the media, both in Connecticut and Waco [See Exhibits BB, CC, DD, EE, FF & GG]. Whether or not this Indian concern is a situation that involves the patriot community is to be determined by each of us, individually. Remember, the same document that protects us, protects the Indians and their treaty rights.*

*Regarding the validity of calling the Reservation a reservation, First we must understand that in the New England states the relationship of the state to an Indian tribe is predicated on documents that pre-date the Constitution. The Canandaigua Treaty, which was executed between the fledgling colonies and the Indians regarding their relationship [See Exhibit HH]. Further, .Connecticut Statutes recognize the Tribe as well as both the Colchester and Trumbull reservations within the legislation [See Exhibit II]. Who, then, is the true Chief of the tribe? [See Exhibits BB & FF]*

In the meantime, they began selling cigarettes from their house, and they claimed that they were not required to pay state sales tax on the cigarette sales based on federal law that says Indians on Indian reservations are exempt from paying sales tax.

The "Paugussett Indian Reservation" was never recognized by the federal government as a reservation. Additionally, the same group that had recently established a very profitable gambling casino on an Indiana[sic] Reservation (exempt from state and federal taxes), was attempting to do the same thing with the "Paugussett Indian Reservation."

The two brothers were repeatedly requested to pay the state tax on their cigarette sales and the state sent them notices, finally, in the fall, the State police[sic] arrived at the property to collect the state tax owed on the cigarettes. There was, until now, no federal involvement.

But Hunt is an advance man for the feds. And he did the same things when he arrived in Connecticut that he did in Waco - he set up a "fax network" and tried to weasel into the confidences of honest and hardworking people. He copied one woman's writings and faxed them out under his own name, using her name on his letterhead - both to discredit her and to enhance his credibility. Again, stealing what other people write to claim he is doing "research."

In one fax he sent out, he says "they asked me for my i.d. and I showed them my infamous press pass from Kinkos in Waco." He's referring to the press pass he used the night he was with us in Waco, related above. But if you read closely, you'll notice those press passes were seized by the FBI. John's

pass and my pass were not returned to us, but Hunt has his press pass back.

*On March 25, 1993, I reported of my efforts to re-enter the press conferences. I had been denied access, since March 21, as a result of the AEN credentials the evening before. I had those credentials taken from me as indicated above. My "Outpost of Freedom" credentials had "passed muster" the week before, after I demonstrated that there was a newspaper named Outpost of Freedom [See Exhibits A, W & JJ 1-3].*

*As a result of the denial of access, Bill Cooper offered to assist. He sent me CAJI credentials which were, although Bill intervened in an attempt to obtain access, also denied. These credentials were returned to Bill via US mail to the address from which I received them. In a subsequent conversation Bill said that I should NOT have mailed them to that address and gave me a different address to use in the future. Trouble is that he was a bit late and they had been mailed on the date promised.*

Hunt also asked for and received press identification as a member of the Citizens Allied for Joint Intelligence, CAJI, famous author of the book "Behold a Pale Horse," and radio personality, Bill Cooper's group. Hunt refused to return the credentials when Bill Cooper learned his identity and demanded the return of the credentials. Cooper has offered a \$50 reward for the return of the stolen credentials.

Shortly after Hunt arrived at the "Paugussett Indian Reservation," black helicopters arrived for the first time, including a Huey, which indicates Army involvement, as well as FEMA (Federal Emergency Management Agency) and OCDETF (Department of the Treasury (just like ATF) - Organized Crime/Drug Enforcement Task Force).

*LT's knowledge of what occurred in Connecticut astounds me. I spent over two months on the reservation, most recently just a few weeks ago. In that entire time neither I nor any of the Indians have any reason to believe that there was any federal involvement. The report of the "Huey" was based upon my report of August, 19, 1993. The "Huey" appeared to have "State Police" markings, as was reported. To suggest that only the federal government has "Hueys" is absurd. The helicopters we saw were NOT black. Some were dark blue, some were black and white, some were other colors. Many flew over during the course of my stay. The report attached is well the known "picnic" fax.*

*This fax was sent out under the circumstances described, and with the full knowledge and support of Chief Moonface Bear [See Exhibits KK & LL].*

Hunt then put out a fax calling for people to come to a "picnic" and bring their guns — a transparent "call to arms."

*This "picnic" fax was not a "transparent call to arms", it was a notice to everyone following the story that people, with or without guns, would be welcome if the need arose. It invited anyone who had nothing better to do to come to Connecticut and bring their guns, if they wanted to. There was no "martial law" or any other factor that would have made one guilty of a crime for having a rifle in their car. Connecticut law is still in effect, and some of the frequent visitors to the reservation brought their guns with them when they came to visit. The only "call to arms" I am aware of was the one called by LT during the Waco siege. Copies of LT's "call to arms" and my response are attached. My response is without date because I had received a call regarding her call to arms. Having not seen it, and not sure whether it were true or not, I prepared my letter and sent it to Ken Vardon to hold until it was confirmed that LT's "call to arms" did exist. The fax was sent out as soon as I received a copy of hers [See Exhibits R & S]. Understand, as you read these reports, what the circumstances were in Waco and in Connecticut when these were written. Note that LT's "call to arms" indicates that the "arms" are to be "USED." This is not the proper term for inspection of arms. "Displayed" would be more appropriate. (Do attorneys make these little word mistakes by accident???)*

Interestingly, the "Paugussett[sic] Indian Reservation" is one of several "cults" that are mentioned in the ATF final report of Waco as groups the ATF is "watching." Hunt arrived at the Paugussett Indian Reservation before the State Police arrived there and before the ATF report was published. So how did he know they were targets?

*Has anyone with a copy of the Report found the information indicated? Our copy of the report seems to have omitted it. If you find it, please send me a copy.*

Patriots, the feds are looking for an opportunity to provoke a riot and declare Martial law. They are creating this opportunity before our eyes, and "Chief Moon Face[sic] Bear" and his people, while they may have no legitimate claim to a "reservation" are nothing

but pawns that will be sacrificed to accomplish this goal.

*Chief Moonface Bear, Paugeesukq Tribal Chief, would be willing to talk to anyone regarding these matters. He can be reached at (203) 537-3951 or via fax at (203) 537-6658.*

Recent update:

In January, 1994, I spoke to a group of about 350 people in Orlando, Florida, at a meeting sponsored by Operation Freedom and Charlie Spross.

*Just before Christmas I arrived back in Florida, after many months on the road, to spend some time with my children. Almost as soon as I arrived I was informed that LT would be speaking on January 15, 1994, sponsored by Charlie Spross, Operation Freedom [Spross/Orlando video, LT talks, January 15, 1994]. I had obtained the C.O.P.S. (California Organization for Public Safety) video which clearly shows that there is NO flame throwing tank being used on the Mt. Carmel Center. I contacted Mr. Spross to provide him a copy of the video so that he could determine whether he wanted to allow the presentation of someone who, based upon conversations with Ken Fawcett, had been provided the same footage the C.O.P.S. video shows and was fully aware of the implications of making claims that it was a flame throwing tank. Mr. Spross said that he would be glad to have a copy of the video, but that he would not view it until January 16, after LT had spoken. I then arranged for hand delivery of the video along with other information. Many of my friends had encouraged me to go to the talk and challenge the information that LT has been presenting. They have seen the evidence and are convinced that what I say is true. I explained to them that it was Mr. Spross' show and that I would do nothing to undermine it, but, that I would go because I was curious as to what would be said. We had all anticipated that her new video would be out, but were not disappointed when she showed the video that Ken Fawcett had spoken to me about showing one of his children placing flowers on T-shirt Hill. I had decided that I would not like to be accused of "hiding" secretly in the crowd, so I sat toward the rear, inside aisle, where the lights were clearly on me. I even moved my chair slightly into the aisle so that I would be plainly visible to the speaker. Stealth is not my method, nor am I ashamed of what I do.*

*I was surprised during the first part of the talk up to the break, that LT did not notice me sitting there. She was able to spot me carrying an ATF coffin (of course I was four inches, or more, shorter and my hair had less gray in it). LT has indicated that there was some yelling, so she called a break. For those of you who have seen the video of this Orlando presentation, January 15, 1994, there is no commotion before the break. Someone did ask if she were going to show "Waco, the Big Lie" and indicated that the flyer they had received said that it would be shown. After the break, she suggested that this was a government agent causing the disturbance.*

*During the break I went outside to have a cigarette and was out there for the entire break. I noticed no "silver Chrysler with a lot of antennas", as was described in the video, or a "grey truck", as described in this letter, nor did I see anyone taking photographs or any excitement that would have indicated that this was occurring. I may have missed something, for I was busy talking with friends and people I had just been introduced to. We returned for the second part of the talk. It was apparent, as soon as she began talking, that somehow she had finally learned that I was there. It appears, in reviewing the video, that she may have realized this shortly before she called a break. As she began to point her finger at me, I STOOD UP. She claims in the letter that she didn't point me out. I suggest you view the video. At this point people were talking about lynching and hanging, one called me a bastard. I stood back up, pointed my finger at him and stated, "You'd better withhold your judgement until you hear both sides of any argument," whereupon LT accused me of inciting the crowd, then suggested to the crowd that "we will beat you to a bloody pulp!" Then she tried to find the policeman, who had gone outside. Later on, while talking about Waco, she said, "I wish I had been armed because he [indicating me] would not be here tonight!" This was followed by a hearty round of applause. Now, who is the provocateur?*

*Interestingly, LT, who accuses me of collecting names and addresses, admitted to the audience of having a mailing list of over 100,000 names. She also gave a phone number*

*where YOU can sign up for "ready defense force" or sign up your militia. I hope that YOU will not take her up on these offers. I will state, unequivocally, I never called anybody any names during the entire talk. I cannot say that of others attending.*

*I have said before, and I will say again, "We must learn to think for ourselves. We must learn to evaluate the evidence. We must learn to listen and question." [See Exhibit MM]*

At that meeting, Hunt showed up with four buddies. We spotted them immediately and assumed they were there to provoke a confrontation while I was speaking. They didn't disappoint us. One of the group began shouting loudly at me. I called a "break" and the fellow was told to ask for a refund and leave quietly (he was complaining loudly that we showed one of the new Waco tapes, "Forgive Us, We didn't Know," instead of "Waco, the Big Lie." They had come there to attack the film, "Waco, the Big Lie," using a tape forgery that we have exposed in "Waco II, the Big Lie Continues."

During the break members of the audience came up to tell me that people in a grey truck were driving through the parking lot photographing license plates. This sort of harassment tactic had never occurred anywhere before that I have spoken (at this point, more than 100 places), except where we had previously seen Hunt (at the militia assembly, for instance).

After the break, I thought I would talk to audience about government informants, "agent provocateurs," and I relayed a lot of the information that is contained in this file that you are reading now, except that I didn't point Hunt out and I didn't name him by name

As I was talking about these things, I did say, "And that fellow is here tonight and he is here to provoke a confrontation." At which point, several people called out, "Point him out."

I Didn't get a chance to point him out or name him by name - Hunt STOOD UP. And he then pointed a finger at one of the people in the audience and called him an "asshole."

Guess he forgot about the other four fingers pointing back at himself.

Many of my friends have wondered why I have waited so long to respond (strike back) at Linda Thompson regarding the accusations that she has made over the past 10 months. I can only say that we have an enemy, (the Money Merchants) and we have a goal (restoration of the Constitution for the United States of America), and that any energy exerted on any other objective is a waste of energy. I have seen many patriots tied up in court, battling the IRS, testing Commercial Liens, Status and many more. Each has taken upon himself to pursue a goal of accomplishment that improves and enhances our relationship with "government." These are goals that I was pursuing when I opened the "DONT TREAD ON ME" Common Law Service Center back in 1989. This was the culmination of nearly ten years of doing battle with the "government." It began in 1981 when the IRS gave me a taste of Big Brother's "service" to it's subjects. The publishing of the "Outpost of Freedom" newspaper was a goal that I had worked on for over a year, and when achieved, was fulfillment of a desire to establish a newspaper that would be directed at the broad spectrum of the Patriot (understanding the enemy and the goal) Community. I was hoping to reach across the broad spectrum of people from Aryan Nations and John Birch Society to help find a common element and pursue it to attainment. After that goal was reached I felt that all other problems (abortion, education, taxes, defense, etc.) would easily resolve themselves. This is the faith that I have in the Constitutional Republic known as the United States of America.

As a result of publishing the paper, I received a call on February 28 bringin my attention to what was happening in Waco, Texas. These events, I felt, would become significant in American history. Little did I realize at the time how significant these events and their aftermath would be on my own life. On April 22, I returned to try and pull the pieces of my business back together. I devoted nearly every hour of every day for the next few weeks catching up, restoring relations with my clients and piecing my life back together. I still thought that I would just settle back, print the paper and continue my business, but something kept creeping into my thoughts. In early May I was asked to Jacksonville, Florida to be guest on a radio show and speak to a group of patriots. This lead me into a new sense of feelings, and understanding, when Linda Thompson came on the radio as a call in, and barraged me with accusations. Something clicked and I realized that I had developed a talent for going to a story, investigating it with a different eye than I could find in establishment press, and even become involved in the story as a participant.

When I returned to Waco to see some of the many friends I had made there, I found that Rita Riddle had been having problems getting permission to see her daughter, Misty. This became an opportunity to "test" something that had been tried to a lesser degree during the siege, a fax campaign. We conducted a campaign to get Rita permission to see her daughter, and we found that there was a lot of power behind those little machines called faxes. Rita was granted permission to see Misty in Cincinnati.

I was also wondering what had prompted Linda Thompson to act as she had. We had a falling out back on March 22, but I have had fallings out with people before, and always managed to work with them again. I wondered what could be the motivation and realized that the network-faxing concept had come to Waco as a result of the efforts, and hard work, of Ken Vardon, but, that I had played an instrumental role in putting Ken's concept to the test. Could it be that, since we had found a way to overcome the control of the press by the government, there was an attack being made against this very viable alternative to the daily newspaper? It seemed to me, then, that Linda was attacking this system, and I could conclude only that the government would be inclined to cause this sort of damage to the patriot community.

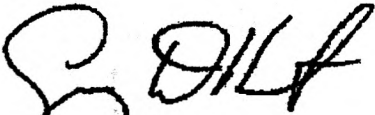

A few weeks ago I was in Rockville, Maryland, and was shown a document which indicates that in 1973, officials of the Internal Revenue Service met in Los Angeles, California to discuss their change in

strategy regarding the "Tax Rebellion Movement" [See Exhibit NN]. In that memo the IRS, with the assistance of the then BATF, decided to infiltrate the movement and go after the leaders. Twenty years ago a federal agency determined that infiltration and character assassination would be the tools of the trade. If we were to replace "tax rebels" in that memo with "patriots" and to replace "IRS" with "FBI" we might be able to clearly see what we should be anticipating in the patriot movement today.

After reviewing the Spross/ Orlando video again, I was reminded of something that occurred to me back on January 15. Linda Thompson claims to have a "mailing list" of over 100,000. She directs the listeners to call (317) 728-5200 if they are patriots. So, I called the number [a transcript of the initial voice message, the Ready Response [5] dialogue and the Militia [6] dialogue is attached as Exhibit OO]. Just a few days later I was watching television and saw an advertisement for AT&T voice telephone cards. "Murphy Brown" ran her card through the slot in the pay phone and said, "Call home." The phone then dialed her home number. Voice recognition is a reality and can be used against us. You will note on the transcript of the message system that you are prompted to enter information by voice. Ironically, she does not ask for a name to be entered. This surprised me until I gave the tactics of Ms. Thompson a little thought. She has stated that she is "not collecting names", but then the ATF raided an address in Waco - not a name. Just think, one hundred thousand people have left their voice print in the message computer.

So, now the time has come to respond to these accusations. My response is as documented as any of the work that I do. My purpose is to expose truth, not to expose lies. In this matter, however, it may have the effect of doing the opposite.

Sincerely,

A handwritten signature in black ink, appearing to read "G. D. Hunt". The signature is stylized with a large, looped "G" and a more fluid, cursive "D. Hunt".

FROM: GARY HUNT AT THE OUTPOST OF FREEDOM IN WACO, TEXAS  
DATE: MARCH 26, 1993 PHONE: (817) 662-2442 ext 223

ANYONE WHO HAPPENS TO BE READING THIS REPORT FROM WACO IS PROOF OF THE EXISTENCE, AND LEGITIMACY, OF THE OUTPOST OF FREEDOM AS A VIABLE SOURCE OF NEWS AND INFORMATION. THIS, APPARENTLY, IS OF NO CONSEQUENCE TO THE SELF-SERVING NEEDS OF MR. CARLOS HERNANDES OF THE FBI, WHO HAS DETERMINED THAT THIS REPORTER DOES NOT REPRESENT A "LEGITIMATE PRESS".

AS I TOLD YOU ON THE 24TH OF MARCH, THE FBI PROMISED TO GET BACK WITH ME, I SUPPOSE, HOWEVER, THAT THEY JUST WANTED MY PHONE NUMBER, BECAUSE NO EFFORT WAS MADE TO CONTACT ME, AS THEY SAID THEY WOULD. BEING USED TO HEARING COMMENTS FROM THE FBI THAT ARE AS VALID AS THE COMMENTS MADE BY THE BIGGEST LIAR IN THE NEIGHBORHOOD WHEN YOU WERE A KID, HAS PREPARED ME FOR DEALING WITH THIS PAID BY US DECEIVERS. HONESTLY, I HAVE HEARD MORE TRUTH IN A POKER GAME THAN FROM THE FBI, BOTH IN AND OUT OF THE CONFERENCE.

TO REFRESH YOUR MEMORY, I HAD GONE TO THE PRESS AREA AT MOUNT CARMEL CHURCH COMPLEX WITH THE FOUNDER OF ASSOCIATED ELECTRONIC NEWS (AEN) ON SATURDAY. AS WE WERE LEAVING THE FBI INFORMED US THAT WE HAD 'FALSIFIED PRESS CREDENTIALS' WHICH THEY KEPT. BEING THEIR UNDER AGREEMENT WITH AEN APPARENTLY DEMEANS THE CREDIBILITY OF THESE RELEASES AND MY OWN NEWSPAPER, BECAUSE THAT IS THE REASON FOR DENYING ME ACCESS NOW. OR, IS THERE ANOTHER REASON?

IF ANYBODY CAN ESTABLISH THAT AEN IS A 'LEGITIMATE PRESS' ORGANIZATION I WOULD APPRECIATE SOME SUPPORTIVE DOCUMENTATION. IT APPEARS THAT THE FOUNDER, LINDA THOMPSON, HAS LEFT WACO, AND ME WITH ACCESS DENIED. WELL, WHAT WOULD YOU EXPECT FROM AN ATTORNEY?

ON THE BRIGHTER SIDE, I HAVE NOTICE THAT THERE ARE MORE QUESTIONS COMING OUT AT THE PRESS CONFERENCE WITH REAL CONTENT, NOT CAR COLORS. I NOTICED THAT A NUMBER OF THE MEMBERS OF THE PRESS HAVE HAD COPIES OF "A MOUNTAIN OF LIES", BY KIRBY FERRIS, IN THEIR HANDS AS THEY STROLLED AROUND THE CONVENTION CENTER. THIS BOOK GOES INTO SOME OF THE PROBLEMS CREATED BY THE GOVERNMENT'S ACTIONS AND SUBSEQUENT INVESTIGATION OF THE SITE IN IDAHO WHERE THE STAND-OFF WITH RANDY WEAVER RESULTED IN THE MURDER OF A 14 YEAR OLD BOY AND HIS MOTHER. THE TECHNIQUES USED THEN, AS WELL AS THE EFFORTS TO COVER UP, RAISE QUITE A NUMBER OF QUESTIONS INTO HOW OUR GOVERNMENT OPERATES THESE DAYS. PERHAPS LEWIS BEAM WAS CORRECT WHEN HE SUGGESTED THE BEGINNINGS OF A POLICE STATE, PERHAPS HIS COMMENT WAS BASED ON HINDSIGHT - AND WE ARE JUST NOW BEGINNING TO SEE WHAT IS REALLY HAPPENING TO OUR PRECIOUS COUNTRY.

MY OBSERVATION IS THAT THE FBI IS THE MOST DECEITFUL BUNCH OF PEOPLE I HAVE EVER MET. THERE IS NO SUBSTANCE TO ANYTHING I HAVE HEARD THEM UTTER SINCE MY ARRIVAL IN WACO [them utter since my arrival in Waco.] *EXHIBIT A*

Civil liberty, in all countries, hath been promoted by a free discussion of public measures, and the conduct of public men. The FREEDOM OF THE PRESS hath, in consequence thereof, been esteemed one of its safe guards. That freedom gives the right, at all times, to every citizen to lay his sentiments, in a decent manner, before the people. If he will take that trouble upon himself, whether they are in point or not, his countrymen are obliged to him for so doing; for, at least, they lead to an examination of the subject upon which he writes.

## Welcome! This is the first edition in of a new concept in Patriot Newspapers.

This being the first edition of OUTPOST OF FREEDOM, perhaps a little explanation of the purpose of the newspaper is in order. First, let us look at the name of the paper to begin to understand what it's purpose is. "Outpost" can be defined as a security position thrown out to protect from enemy surprise, or as an outlying or frontier settlement. This newspaper is intended to be both.

There is much news of what is happening around the country, and around the world, that is rarely available in the "establishment" press. There is other news around the country that is not of "significant" nature to warrant, at most, a paragraph on page nine of the local paper. The problem lies in the fact that this news has been deemed "unnecessary" and is therefore relegated to the trash can without any consideration as to whether there might be a segment of the population that would relish the idea of knowing what activities were going on around the country that were significant to the Patriot Movement.

We will provide news of a national and international nature that is taken from various news sources, but without the bias and isolation of events that one normally finds.

We will provide news, as reported by our readers, of events that may be of interest to other members of the Patriot community.

We will present news and articles from all aspects of the Patriot Movement, without prejudices against any organization, whether we agree with their philosophy, or not. We will only edit these articles, but not the news, in which a group, class, religion, heritage or race is treated as a whole and in a negative manner. We recognize that there are smaller groups, all voluntarily joined, that have objectives that are contrary to the best interest of this nation, and the posterity of the Founding Fathers. Those groups, when properly identified, may be described in any manner that the editors deem decent. Otherwise, all news and articles will be presented only in a positive manner.

Our purpose is to identify the common "enemy" that has sought, and is still seeking, to change our way of life from a Constitutional Republic to a nation of subjects, or members of an "international community". Every organization within the Patriot Movement has defined in their own terms who the "enemy" is. If we can come together with our efforts in defeating the "common enemy" and can put aside other differences until we can devote time to resolving those issues without taking away from the common objective, WE CAN PREVAIL.

We will not take advertisements except to the extent of Supporting Organizations in the Directory. And selective advertising would present an affiliation which is not our purpose. We choose to be affiliated with all Patriot organizations.

This newspaper is for the entire movement and will succeed only with the participation of all who might consider themselves Patriots in any sense. The sharing of ideas, as was so eloquently expressed by "John DeWitt" in his Essay III back in 1787 is the forum that we are trying to re-establish in this country. It is necessary that there be a forum in which all can express their "sentiments", so long as they be in a decent manner. For as a result we will establish the means of working together to return our Nation to the Greatness intended by our Founding Fathers.

# NEW KID ON THE BLOCK,

## AND GROWING FAST

On November 7, 1992 a number of patriots from around the country met to establish the Council on Domestic Relations (CDR) as the antithesis to the Council on Foreign Relations (CFR). Many of those founders were previous Bo Grift supporters who had come to realize that the problems within the system of government in Washington D.C. are in major need of repair, and that the outside influences such as CFR and the PAC's (political action committee's) were encouraging government to deny the rights, privileges, freedoms and liberties that our Founding Fathers had fought so valiantly to preserve for us. United States tax dollars are being used through AID (Agency for International Development) to advise internationally and send jobs overseas, thereby taking away American jobs. The CDR has committed to finding solutions to these problems that plague us all.

Since that fateful meeting in November, there have been an estimated 5,000 requests for membership information submitted to CDR from 41 states.

The applications are coming in daily and the word about CDR is spreading rapidly as a result of Conference Calls made on occasional Saturdays. Tapes of these calls are circulating about as rapidly as anything else in the Patriot Movement.

CDR is currently administered by seven interim national directors. Each state will have seven interim directors until such time as they have 150 state members. At that time the state organization will hold election within 120 days to establish the elected director. At the time that 26 states have elected their directors, the national organization will hold national elections to establish a representative leadership. This

means of funding from supporters of the organization, other than general membership.

4) Membership Teams - Will be composed of four sub-teams:  
a) Political Membership Team,  
b) Corporate Membership Team,  
c) Political Membership Team, and,  
d) Affiliate Membership Team

(Will encourage a working relationship with other patriot organizations whose goals are consistent with CDR and allow autonomy of each organization. This will encourage sharing of information and networking between organizations of similar interest.)

5) PREP (Public Relations, Education and Promotion) Team - Along with handling public relations this team will be directed at a conscientious effort to avoid having stigmas imposed by virtue of government and establishment mis-information campaigns. Subject brochures will be prepared and distributed by this Team

through the national and state organizations.

6) Watchdog Team - Will constantly review legislative, Congressional, court and police activities and report to organization with findings.

7) Indictment Team - Will be comprised of Common Law specialists who, upon recommendation of the Watchdog Team and directors, will prepare indictments against any government officials, or others, who have violated their oath of office or the rights of individuals.

Teams, where appropriate, will be organized within the state organizations as well. The concept will be developed as the organization grows and the design can be generated by the whole rather than just a few.

Membership liability recommendation of existing members only. You may contact the national organization at Council on Domestic Relations, PO Box 3362, Springfield, Illinois, C.F. 62705(C.F.)

There WAS another group (in fact, two, actually, a loose knit bunch of libertarian protestors and the CFA people ) and they were being led by the guy I previously identified as a confidential informant for the BATF (Gary Hunt, who publishes the "Outpost of Freedom" paper). He said he was going to lead them into the compound through a "back door" way he knew of.

He even had the gall to come over to our group and ask us to join. He sat right down at a table with me (along with a guy that Al and I both recognized as a BATF agent in civilian clothes!!) and invited us to go.

I told him if it were anyone but him asking, I'd go in a heartbeat, but because <in a loud voice> "I know you are a government informant, you .More..

couldn't PAY me to go with you - you are leading those people into an ambush, you S.O.B." We also warned everyone in our group not to go.

THE END OF THE STORY: The group marched into an ambush - Armed BATF agents, jumping out of helicopters at the "back door" road to the compound surrounded them.

Gary Hunt is a confidential informant for the government. Anything to do with him should be avoided like the plague.

I am also convinced that the "CDF" is comprised largely of government informants and employees. I will provide details on this as soon as I get a chance to type up all the info we've accumulated in the last 3-4 days - it's a LOT.

Gary:

I listened with great interest to the Lou Epton Show today (Sept. 1, 1993) on KLAS.

I took issue with the way Lou's guest, Linda Thompson, handled herself during her conversation with Lou, and then ultimately her conversation with you. She probably is an outstanding trial lawyer, but her interaction outside of that area, in my opinion, leaves much to be desired. I was offended by the way she cross-examined you, not giving you time to respond to anything.

I feel that she lost a great deal of credibility right at the beginning of her interview when she indicated that she had the original tapes from the "un-named TV station" and then refused to reveal what station sold them to her because the "Feds" would go direct to that station and confiscate the "originals". I thought from her previous statement that she had the originals.

She then dominated all conversations in which she was involved. She spoke over everyone that had anything they wanted to say. She treated you, Lou and all of us listening just like the media treats us. They talk and talk and say nothing. They pay lip service to what they profess to be the truth and refuse to see any side but their own. They question those who would tell the truth, and those who are patriots, and twist what is said to their own end. Ultimately, then, in Linda's case, it appears on the surface that her's is the only true story and that everyone else is either working for the government as an undercover operative or has been duped into following the operative, through carefully orchestrated stories and lies.

You mentioned a document/letter that you received from Linda Thompson requesting to work with you in Waco. To totally discredit her, I feel that the document should be widely circulated across the country. You don't write a letter, sign that letter and then deny having any knowledge of it on a radio show.

My final comment is directed to Linda Thompson. Bullying anyone does not make you right. Loud and obnoxious does not make you powerful or credible. There are too many people in this world who have someone that they HATE. Hate does not make a person strong or give them leadership qualities, that makes them a person to be pitied rather than believed. Hiding information makes you suspect. Dominating and controlling ultimately makes you weaker than the person or group that you try to overpower. I have reason to question your motives because you are an Attorney, and ascribe to their way of thinking. You have taken upon you a title of nobility which through our Constitution you may not have.

On September 1, 1993, Lou Epton, KLAV radio, Las Vegas, Nevada, had guest Linda Thompson on the show. Lou asked Linda a number of questions such as, was Peter Gent's body really damaged when removed by grappling hooks? Linda acknowledged, after certain facts were pointed out, that the government must have spread some mis-information, and that it was hard to sort out, that the information in her video may be in error.

Many other questions were asked in the course of the show with answers that were inconsistent with the truth, as it has been known for quite some time to those who will only spend the time to properly investigate the matter.

Lou also asked Linda if she would appear on the radio with Gary Hunt to resolve the issues that appear to divide the two, and much of the patriot movement. Linda declined, stating that she would not allow me to ride on her "coattails". Well, Lou had also invited me to be on the show. I chose to step in at this point and asked a variation of a question Lou had been unable to get an answer to earlier. The question was, "What brought you to Waco?" Linda came up with many reasons, so I pointedly asked her if she had come to Waco to represent myself and David Koresh, whose Power of Attorney I held. She denied this and suggested that I had begged to be allowed to join the lawsuit (Petition for Writ o Mandamus). I asked her if she remembered calling me and asking if she could represent us, and then conforming by letter. She denied the existence of any letter. (Letter in question attached as page 2).

Many other often asked questions were asked by Linda in a rapid fire, leading (misleading) courtroom staccato, leaving no opportunity to answer. Finally, after a rampage on name calling, Linda hung up on Lou, me and the callers waiting to ask her questions.

Copies of the tape are available, and are a must for all of those caught up in this devastating drama going on within the Patriot Community. Tapes can be purchased for \$8.00, (make checks payable to Diane Hammond), order September 1 show from:

A question has arisen as to who I am. Linda has determined that I am a government agent. I am not! However, to alleviate concern as to what my background is, I am also attaching a brief list of verifiable pertinent data (as Page 3). Any having questions may contact me at the number above (voice) or may fax me here at the Paugeesukq Reservation.

Dear Mr. Hunt:

As we discussed, I am indeed willing to represent our mutual interest and others at the location we discussed and I am honored to be asked to do so. The lines are drawn, it's time to step over them.

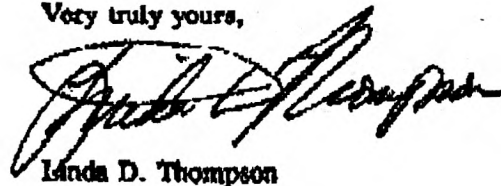

My proposal would be as follows:

(1) I fly down there tonight or tomorrow with the intent of obtaining injunctive relief (court order) to enter the compound; the basis would be that all members are presently under arrest (when a person is no longer free to leave by power of authorities, he is under arrest) and are therefore entitled to 5th Amendment Due Process and 6th Amendment right to counsel, particularly in light of the fact that the authorities continue to try to question him and Steve.

(2) That an action under 42 U.S.C. § 1983 be filed immediately, seeking injunctive relief to force the trespassers off the property, as well as a lawsuit against the trespassers for money damages on behalf of at least three members of the group by name and the rest as "others similarly situated", charging that all the members have been deprived of their 4th and 5th Amendment rights under color of law; by a conspiracy to interfere with their 2nd and 1st Amendment rights; unlawful use of force; and charging violations of the Posse Comitatus Act and anything else I can think of in the short time available to us.

Please contact me immediately with the details we discussed.

Very truly yours,

Linda D. Thompson

Recently the credibility of many of those in the Patriot community have come in question. Those that have know me for quite some time have suggested that providing information of my background would be beneficial. The following information is presented to introduce myself, and the pertinent portions of my background to public scrutiny. Information I will not make public are the names and address of my children and ex-wives. This information would not be of value in making any determination in regard to me.

I am currently an unemployed, homeless Vietnam Vet, by choice. I have chosen to give up my business to report truth from locations around the country where governmental tyranny warrants a means of reporting beyond the scope of establishment media. I have reported from Waco, Texas (entire siege) and am currently on the Golden Hill Paugeesukq Reservation in Colchester, Connecticut.

With the exception of the government employment shown above I am not now, nor have I ever been a government agent, operative, informant or employee, nor have I had any communication in which information about others was conveyed to any governmental agency.

I believe that we must learn to protect our neighbor, as we would expect our neighbor to protect us. A concept upon which this nation was founded, and to which it must return if it is to survive as intended by the founding fathers. Government, local, state and federal has usurped powers beyond their scope and the intent of the Founding Fathers. We must return to a Constitutional Republic, under God, as was intended in the Great Experiment.

AUTHORITY FOR ASSIGNMENT OF POWER OF ATTORNEY  
TO GARY D. HUNT

The following is the relevant portion of the transcript of the radio broadcast on radio station KGBS of Dallas on March 9, 1993, between the hours of 1000 and 1200 hrs. Conversation is between Ron Engleman, a talk show host, and Ken, an eye witness who was recording on videotape, the siege at the Branch Davidian Complex.

Ron: We have a gentleman down there right now who's name is Gary Hunt, and he is part of the group that served the Texas Rangers yesterday. He has been as far as the ATF and FBI and that is as far as he can get. He came down here from Florida because he felt compelled to because of what is going on down in Waco. He is the editor of a patriotic newspaper called the Outpost of Freedom and he is a party to a complaint which alleges jurisdictional problems associated with the siege and wants the Texas Rangers to take over. As I mentioned a little while ago the Texas Ranger that was in the office that he served the paper to the other day, or yesterday, was George Turner. After he served him he threw out the book, well not the book, but the complaint, which is about four inches thick of legal papers, he threw it out of his office. This gentleman Gary Hunt, has offered to meet with David Koresch inside the Branch Davidian facility and poses some questions of his own.

tape at :2600

Ron: Gary Hunt would like to go inside the complex there with the Branch Davidians and meet with someone. He need to know if his safety would be assured. Basically what he needs to know is if the Branch Davidians would like for him to come in there and negotiate a peaceful solution if one could be found...And I guess that basically would be the question. Would you like someone from the outside to come in... Someone that has never been associated or affiliated with law enforcement to go inside and help with negotiations and will you assure his safety if he does go inside...I guess that is basically the question that needs to be asked.

tape at :2830

Ron: I have a gentleman down there that is with [inaudible], his name is Gary Hunt. He is not on the air. He is in Waco right now and he you know basically what he wants to know is if the Branch Davidians would grant Gary hunt Power of Attorney to come in and represent them. As I understand it if they grant him a power of Attorney they can not keep Gary Hunt out of it or it would be very embarrassing and damaging in the event that they attempt to do that. So I guess it they do want to grant power of attorney to Gary hunt to come in and represent them there is only one way that I know of that they can let us know, because I stated just now, on channel 8, they claim no request to come from inside for medical help. But who knows, they probably got that information from the BATF or the FBI, and how do we know the FBI and BATF are telling the truth?

tape at :4030

Ken: The dish has moved, also one of the panel trailers with the 3/4 ton P.U. which has been in front of the place for the whole time has just been driven off...

Ron: The dish has definitely moved?

Ken: The dish has been moved again...

Ron: and so they...

Ken: for only the third time its moved in nine days and thats one of the things that ...

Ron: But it did in fact move.

Ken: Right.

Ron: It definitely moved.

Ken: It definitely moved...I didn't see it, but I know it is on the tape...I see that it has changed positions...it must have moved while we were talking.

Ron: Will the branch Davidians grant Gary Hunt Power of Attorney to come in and represent them?

Ken: It moved again and it is confirmed on my video tape that they did move it the second time...They moved the antenna signifying yes.

Ron: If they would grant a power of attorney to Gary Hunt to come in and represent them...They moved the antenna signifying yes...

Ken: Yes that is true...

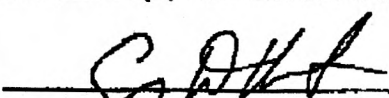

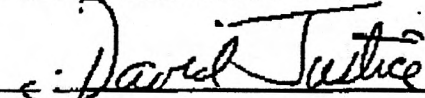

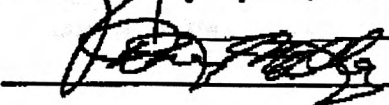

Ron: That they do want Gary Hunt...They are granting Gary Hunt a power of Attorney to go in and represent them...

Ken: Right, they moved the heck out of that dish...

Ron: They moved it back and forth...

Ken: Beyond any shadow of a doubt...

The above transcript was transcribed directly from a recording of the radio show . I certify under penalties of perjury that I have listened to the original broadcast and having compared it to this transcript, I find that this is a true and accurate document.

ON MARCH 9, 1993 THE BRANCH DAVIDIANS WERE ABLE TO COMMUNICATE OUT, THE ONLY TIME THEY HAVE BEEN ALLOWED THIS RIGHT SINCE THE SIEGE BEGAN. AT THAT TIME THEY CONVEYED LAWFUL POWER OF ATTORNEY TO GARY HUNT, OF FLORIDA. THIS WAS ACCOMPLISHED AFTER DAVID KORESH HEARD, AND RESPONDED TO, AN OFFER OF ASSISTANCE FROM MR. HUNT BY WAY OF THE RON INGLEMAN SHOW.

GARY HUNT HAS BEEN DENIED ACCESS BY GOVERNMENTAL ENTITIES DESPITE THE SPECIFIC REQUESTS OF PASTOR KORESH FOR ASSISTANCE. THE FEDERAL DISTRICT COURT, AS WELL AS THE FIFTH CIRCUIT COURT OF APPEALS, HAVE NOT DENIED THE VALIDITY OF THE POWER OF ATTORNEY, BUT HAVE DENIED ACCESS ON FRIVOLOUS GROUNDS.

THE GOVERNMENTAL ENTITIES HAVE PLACED AN ATTORNEY OF THEIR CHOICE IN A LEGAL REPRESENTATIVE CAPACITY TO MR. KORESH DESPITE HIS EXPRESS INTENT TO DEAL WITH MR. HUNT AND HIS LEGAL REPRESENTATIVE.

BOTH MR. HUNT AND JEAN HOLUB, DAVID KORESH'S GRANDMOTHER, HAVE RETAINED TRIAL LAWYER MELVIN BELLI TO INTERCEDE ON BEHALF OF MR. KORESH.

RICHARD A. MORSE, ASSOCIATE OF MR. BELLI, HAS ARRIVED IN WACO AND IS SEEKING ACCESS, ALONG WITH MR. HUNT, TO MR. KORESH, FOR PURPOSES OF A PEACEFUL RESOLUTION, AND LEGAL COUNSEL OF CHOICE. THEY ARE CURRENTLY AWAITING CONFIRMATION FROM MR. KORESH THAT HE IS READY TO BEGIN DISCUSSIONS TOWARD RESOLUTION. MR. KORESH'S INTENTIONS WERE MADE CLEAR WHEN HE DISPLAYED HIS FIRST MESSAGE OUT FROM THE COMPLEX, "GOD HELP US SEND IN THE PRESS."

MR. HUNT AND MR. MORSE ARE FORMALLY REQUESTING THAT THEY BE ALLOWED ACCESS TO MR. KORESH IF THAT INITIAL REQUEST IS RE-CONFIRMED.

MR. BELLI HAS OFFERED TO PERSONALLY REPRESENT MR. KORESH AT ANY AND ALL LEGAL PROCEEDINGS.

THE POWER OF ATTORNEY WAS PREVIOUSLY ASSIGNED TO INDIANAPOLIS ATTORNEY LINDA THOMPSON, BUT HAS BEEN REVOKED, AND ASSIGNED TO MR. MORSE AND MR. BELLI, DUE TO MS. THOMPSON'S CALL FOR VIOLENT INTERVENTION BY AN ARMED MILITIA.

MR. HUNT AND MR. MORSE WILL BE AVAILABLE TO ANSWER QUESTIONS AT THE CONCLUSION OF TODAY'S PRESS CONFERENCE.

## AMERICAN PATRIOTS FAX NETWORK (APFN)

### PURPOSE:

#### "FAX FOR FREEDOM"

AMERICAN PATRIOTS FAX NETWORK (HEREAFTER APFN) IS A CONCEIVED CONCEPT OF FOUNDER KENNETH L. YARDON, DBA YARDON COMMUNICATIONS COMPANY, RESUME AND REFERENCES UPON REQUEST.

THE SPECIFIC PURPOSE OF APFN IS TO LINK AMERICAN PATRIOTS (APFN ASSOCIATED MEMBERS) VIA FAX/MODEM COMMUNICATIONS IN VARIOUS MODES/HUBS. APFN MEMBERS RECEIVE FAX/MODEM INFORMATION FROM EACH OTHER AND RELAY THIS INFORMATION TO OTHER LOCAL AMERICAN PATRIOTS (APFN ASSOCIATES), LOCAL MEDIA AND LOCAL GOVERNMENT, LOCAL FAX NUMBERS IN GENERAL.

APFN MEMBERS BELIEVE IN THE CONSTITUTION OF THE UNITED STATES OF AMERICA

REALIZING "WE THE PEOPLE" ARE NOT GETTING INFORMATION "TRUTH" FROM PRESENT MEDIA RESOURCES, IE., TV, RADIO, NEWSPAPER'S, MAGAZINES ETC. A LINKING OF VARIOUS AMERICAN PATRIOTS VIA FAX HAS PROVEN TO BE EXTREMELY EFFECTIVE. MANY CASES OF PEOPLE AWARENESS HAS RESTRICTED POLICE, CITY, STATE AND IN SOME CASES FEDERAL REPRESENTATIVES FROM ENACTING POLICY THAT EFFECTS INDIVIDUAL RIGHTS, PAGE POWER "BY THE PEOPLE".

APFN DESIRES TO RECRUIT MEMBERS IN EVERY POPULATED AREA IN THE UNITED STATES OR FOR THAT MATTER WORLDWIDE FOR PATRIOTS OF THE EARTH WE ALL MUST SHARE. IN EFFECT A CAUSE OF THE RIGHT TO REMAIN FREE FROM GOVERNMENT INTERFERENCE INTO OUR PRIVATE LIVES.

MANY GRASS ROOT ORGANIZATIONS ARE FORMING ACROSS AMERICA, ALL WITH THE SAME MESSAGE "TAKE BACK AMERICA" - "TAKE BACK OUR STREETS" - "LET JUSTICE RING", DEMANDING CONSTITUTIONAL RIGHTS. TO PRESSURE OUR POLITICAL REPRESENTATIVES TO RE-ACT TO THE DEMANDS OF: "WE THE PEOPLE".

APFN IS INDEPENDENT OF ANY SPECIFIC ORGANIZATION HOWEVER WE ARE WILLING TO WORK WITH ANY GROUP THAT WILL, IN EFFECT, PROMOTE A WORLD OF HUMAN HARMONY AND "INDIVIDUALS RIGHTS", PAGE POWER "FOR THE PEOPLE"

### HISTORY:

RECENTLY A RESPECTED FRIEND SAID:

"THE FAX IS THE FREE PRESS OF TODAY, IS'N-IT?"

BEING IN ELECTRONIC COMMUNICATIONS SINCE GOING TO RADICMAN "A" SCHOOL IN THE NAVY IN EARLY 1961 TO TODAY. MY LIFE COURSE IS MESSAGING COMMUNICATIONS. AFTER THE NAVY IN 1971 I BROKERED TELETYPES FOR COMPUTER

FROM: GARY HUNT AT THE OUTPOST OF FREEDOM IN WACO, TEXAS  
DATE: MARCH 24, 1993

DID YOU EVER WONDER HOW AND WHY YOU ARE GETTING THIS INFORMATION FROM THE OUTPOST OF FREEDOM? I CAN TELL YOU THAT I FULLY EXPECTED THAT I WAS GOING TO HAVE TO WAIT UNTIL I GOT BACK TO FLORIDA BEFORE I WOULD BE ABLE TO GET THIS INFORMATION OUT TO A LARGE AUDIENCE, THOSE BEING THE SUBSCRIBERS AND RECIPIENTS OF COURTESY COPIES OF THE OUTPOST OF FREEDOM. HOWEVER IN THE PROCESS OF ATTEMPTING TO GET WHAT INFORMATION OUT THAT I COULD I RAN ACROSS A FELLOW NAMED KEN VARDON. KEN JUST RECENTLY (ABOUT THE TIME I BEGAN PUBLISHING OUTPOST OF FREEDOM) BEGAN A FAX NETWORK WHICH IS APPROPRIATELY NAMED AMERICAN PATRIOT FAX NETWORK. KEN FELT THAT THE INFORMATION WAS WORTHY OF BROAD DISSEMINATION AND OFFERED, WITHOUT CHARGE, TO DISTRIBUTE MY RELEASES TO ALL ON HIS LIST OF FAX MACHINES. HE ALSO HAS ALLOWED ME TO ADD ANY RECIPIENTS TO THIS LIST, AND IS WILLING TO PROVIDE ALL INFORMATION WE HAVE PUT OUT SINCE THE FIRST TRANSMISSION.

ALTHOUGH NEITHER KEN OR I WAS READY FOR THE AMOUNT OF INFORMATION WE WERE GOING TO BE PUTTING OUT AS A RESULT OF THE EVENTS HERE IN WACO, KEN HAS BEEN MORE THAN WILLING TO WORK ALL NIGHT LONG SENDING OUT HUNDREDS OF FAX TRANSMISSIONS TO PATRIOTS, MEDIA AND OTHERS. THOSE OTHERS INCLUDE THE FBI/BATF COMMAND CENTER HERE IN WACO.

NOW COMES THE BIG QUESTION, WHAT DOES IT COST TO ACCOMPLISH THIS AWESOME TASK? WHEN WE CONSIDER HOW BROAD AND FAR REACHING THIS NETWORK HAS BECOME IN THE PAST FEW WEEKS IT IS EASY TO UNDERSTAND THAT THERE MUST BE CONSIDERABLE EXPENSE IN JUST THE TRANSMISSION OF THE FAXES TO THOSE WITHIN THE FIRST LAYER OF THE NETWORK. KEN HAS BORN THIS COST WITHOUT COMPENSATION. THERE HAVE BEEN NO SUBSCRIBER OR TRANSMISSION COSTS ASSESSED TO MYSELF OR ANY OF THE RECIPIENTS OF THE TRANSMISSIONS.

WHEN WE CONSIDER THAT MANY HAVE CALLED ME DIRECTLY AND HAVE NEVER HEARD OF APFN, THAT OTHERS HAVE CALLED AND ARE DISTRIBUTING THE INFORMATION TO FROM DOZENS TO HUNDREDS OF OTHER MACHINES WE BEGIN TO REALIZE THAT WHAT WE HAVE CREATED IS ABSOLUTELY BEYOND COMPARISON TO NORMAL MEDIA COMMUNICATION.

TO KEEP THIS EFFORT ALIVE I WOULD ASK THAT EVERY RECIPIENT CONSIDER MAKING A CONTRIBUTION TO APFN AS SOON AS POSSIBLE. ANY AMOUNT WILL HELP KEEP THIS NEW AND WONDERFUL MEANS OF COMMUNICATION OPEN.

THANK YOU, GARY D. HUNT

FROM: GARY HUNT AT THE OUTPOST OF FREEDOM IN WACO, TEXAS  
DATE: MARCH 22, 1993

ON MARCH 14, 1993 I WAS CONTACTED BY LINDA D. THOMPSON OF INDIANAPOLIS, INDIANA WITH REGARD TO THE REPRESENTATION OF DAVID KORESH AND MYSELF IN FILING WITH THE FEDERAL AND STATE COURTS IN AN EFFORT TO PROVIDE THE CONSTITUTIONAL PROTECTIONS THAT ARE THE INHERENT RIGHTS OF DAVID KORESH AND THE OTHERS BEING DETAINED IN THEIR OWN HOME AT THE MOUNT CARMEL CHURCH COMPLEX NEAR WACO, TEXAS. IT WAS UNDERSTOOD AT THE TIME THAT WE WOULD BE WORKING TOGETHER IN AN EFFORT TO FIND A RESOLUTION TO THE PROBLEM THAT HAD CAUSED HER TO CONTACT ME ON THAT DATE.

ON FRIDAY, MARCH 19, AN EMERGENCY PETITION FOR WRIT OF HABEAS CORPUS WAS FILED IN THE FEDERAL DISTRICT COURT. THIS PETITION WAS REVIEWED AND AGREED TO BY ALL CONCERNED.

ON SATURDAY, MARCH 20, LINDA THOMPSON PREPARED A PRESS RELEASE WHICH WAS THEN SENT THROUGH THE AMERICAN PATRIOT FAX NETWORK TO THOUSANDS OF RECEIVING FAX MACHINES INDICATING THAT I WAS GOING TO ENTER THE COMPLEX, AT NIGHT. I BELIEVE NOW THAT THIS WAS AN EFFORT THAT WAS PLANNED BY THOMPSON TO ASSURE MY ARREST AND ALLOW HER TO PURSUE LEGAL REMEDY FOR MYSELF AND KORESH WITH ALL DECISIONS BEING MADE BY THOMPSON, REGARDLESS OF OUR AGREEMENT TO WORK TOGETHER IN THIS MATTER.

SINCE THOMPSON'S ARRIVAL SHE HAS FAILED TO MEET AT SCHEDULED TIMES ON VIRTUALLY EVERY OCCASION SHOWING A COMPLETE LACK OF RESPECT FOR OUR RELATIONSHIP AND FOR MY TIME. I AM CONVINCED THAT THE ACTIONS OF MS. THOMPSON ARE SELF SERVING AND NOT IN THE BEST INTEREST OF DAVID KORESH OR MYSELF. CERTAIN "AGREEMENTS" THAT WE HAD WHEN WE ENTERED INTO THIS RELATIONSHIP HAVE BEEN COMPLETELY IGNORED IN SUBSEQUENT FILINGS BY MS. THOMPSON, AND ARE NOT, IN MY HUMBLE OPINION, IN THE BEST INTEREST OF DAVID KORESH AND THOSE HELD HOSTAGE INSIDE THE COMPLEX BY FEDERAL AUTHORITIES.

AS A RESULT OF THE ABOVE, DAVID KORESH AND I ARE IN NEED OF COMPETENT LEGAL ASSISTANCE FROM AN ATTORNEY OR COUNSELOR WHO IS WILLING TO WORK WITH, RATHER THAN TAKE CONTROL OF, THE PREPARATION OF AND CONDUCTING OF THE NECESSARY LEGAL REMEDIES AND ACTIONS TO ASSURE THAT JUSTICE AND THE SAFETY OF THOSE IN THE CHURCH COMPLEX PREVAIL.

ANY INTERESTED PARTY PLEASE CONTACT ME AT (817) 662-2442, ROOM 223.

DATE: MARCH 21, 1993

THE EMERGENCY PETITION FOR WRIT OF HABEAS CORPUS WHICH WAS FILED FRIDAY WILL BE HEARD ON MONDAY. THE COUNSELORS, WHO ARE MEMBERS OF THE INDIANA BAR BUT WILL NOT BE ACTING IN THE CAPACITY OF THE BAR, WHO ARE ASSISTING WITH THE REPRESENTATION OF PASTOR KORESH, AND HAVE PREPARED THE PETITION, ARE LINDA THOMPSON AND JOHN BAIRD. LINDA IS ALSO THE FOUNDER OF ASSOCIATED ELECTRONIC NEWS (AEN). I WILL BE SUBMITTING REPORTS THROUGH THEIR NETWORK AND WAS ISSUED A PRESS PASS BY AEN.

SATURDAY EVENING THE THREE OF US WENT TO THE PRESS AREA NEAR THE CHURCH COMPLEX. IT WAS THE FIRST VISIT FOR ALL OF US. APPARENTLY WE WERE PRECEDED BY A REPORT THAT I WOULD BE ENTERING THE COMPLEX TO MEET WITH PASTOR KORESH. OUR PURPOSE, HOWEVER, WAS TO VISIT THE PRESS AREA AND UNDERSTAND THE OPERATION OF THE MEDIA IN THEIR OBSERVATION OF THE SITE.

WE HAD NO PROBLEM ENTRY THE AREA THROUGH THE CHECKPOINT AT 340 LOOP AND FM 2491. WE STOPPED AND SHOWED OUR PRESS CREDENTIALS, SPOKE WITH THE STATE TROOPERS AND ATF PERSONNEL WHO WERE GUARDING THE CHECKPOINT AND EVEN WERE GIVEN THE OPPORTUNITY OF SEEING THE EXPLOSIVE SNIFFING DOG THAT IS KEPT AT THAT LOCATION. AFTER A CASUAL TEN MINUTE STOP WE PROCEEDED INTO THE PRESS AREA WHERE WE SPENT PERHAPS ONE HALF HOUR OBSERVING. WHEN THEN GOT INTO OUR CAR TO RETURN TO WACO.

AS WE APPROACHED THE CHECKPOINT WE WERE MOTIONED TO A STOP BY THE STATE TROOPERS AND ATF PERSONNEL. WE WERE TOLD TO SHOW OUR PASSES AND IDENTIFICATION, AND THEN TOLD THAT WE WERE TO BE DETAINED AT THIS LOCATION TO BE INTERROGATED BY THE FBI. WE WERE THEN TOLD TO EXIT THE CAR AND SUBMIT TO A FRISK FOR WEAPONS. PRIOR TO OUR EXITING THE CAR LINDA BRAVELY TOOK A FLASH PICTURE OF A BATF TROOPER WHO JUST HAPPENED TO BE POINTING AN MP-5 RIFLE AT US WITH HIS FINGER SECURELY ON THE TRIGGER, AND THE SAFETY OFF.

AFTER WE EXITED THE BATF REMOVED MY CAMERA FROM THE BACK SEAT OF THE CAR AND COMMENCED TO REMOVE AND EXPOSE THE FILM TO THE BRIGHT LIGHTS THAT LIT THE AREA. LITTLE DID HE KNOW THAT HE GOT THE WRONG ROLL OF FILM AND THAT WE HAVE A BEAUTIFUL PICTURE OF THE EVENT. AN UNLAWFUL SEARCH WAS MADE OF THE VEHICLE, AND WE WERE DETAINED WHILE THE OFFICERS INVOLVED INSISTED THAT WE WERE NOT UNDER ARREST, NOR WOULD THEY EXPLAIN THE DETENTION.

EVENUALLY THE FBI, AGENTS CALLAHAN AND CABALLO, ARRIVED AND WE

1 OF 3

*EXHIBIT L-1*

WERE TAKEN, ONE AT A TIME, TO BE INTERROGATED. COUNSEL THOMPSON INSISTED ON BEING PRESENT AT MY INTERROGATION AND MADE QUITE CLEAR THAT THE FBI AGENTS, AS WELL AS ALL OF THE OTHER AGENTS AND OFFICERS PRESENT WERE ACTING OUTSIDE OF THE LAW IN THEIR ACTIONS. AFTER PERHAPS 15 MINUTES OF DETENTION WE WERE ALLOWED TO LEAVE, LESS THE PRESS PASSES AND ONE ROLL OF FILM. THE ALLEGATION WAS THAT THE PRESS PASSES WERE FALSIFIED. THE ASKED DURING THE INTERROGATION SEEMED TO REVOLVE AROUND THE FBI'S ASSUMPTION THAT GARY HUNT WAS GOING TO ENTER THE COMPLEX. SUNDAY MORNING I WENT TO THE PRESS CONFERENCE THAT IS PUT ON BY THE FBI EVERY DAY. JUST A FEW DAYS AGO I WAS PULLED ASIDE AT THE SAME CONFERENCE AND MY CREDENTIALS VERIFIED BY THE WACO POLICEWOMAN THAT APPEARS TO BE IN CHARGE OF THE CONFERENCES. HOWEVER ON THIS DAY I WAS DENIED ENTRY WITH THE EXPLANATION THAT IT WAS AT THE REQUEST OF THE FBI. I WAS THERE UNDER AUTHORITY OF MY OUTPOST OF FREEDOM PRESS PASS WHICH IS NOT RELATED TO AEN. SO, TODAY I HAD TO HEAR THE PRESS CONFERENCE ON A CAR RADIO ACROSS THE STREET FROM THE CONFERENCE ITSELF. DURING THE CONFERENCE A QUESTION WAS ASKED AS TO WHETHER I HAD TRIED TO ENTER THE COMPLEX. THE ANSWER WAS A FIRM "I'M NOT AWARE OF THAT." THE AGENT SPEAKING DID MENTION MY NAME. HOWEVER SHORTLY AFTERWORD HE SAID, TWICE, "HUNT?, WHO IS HUNT?" LATER HE INDICATED THAT HE DID NOT KNOW IF THERE WERE ANY CHARGES OR IF WE WERE DETAINED OR ARRESTED. HE SEEMED RATHER IRRITATED BY THE QUESTIONS REGARDING THIS SUBJECT, SO MUCH THAT HE WAS THEN ASKED HOW HE FELT ABOUT BEING ASKED "EMBARRASSING QUESTIONS". TO WHICH HE RESPONDED THAT HE WOULD ANSWER ALL QUESTIONS - IMPLYING THAT THERE WERE NO EMBARRASSING QUESTIONS. HE DID PERSIST IN IMPLYING, ALSO, THAT HE HAD NO KNOWLEDGE OF "HUNT". SO, LET'S PUT THE PIECES TOGETHER. THE COMPLEX IS A SECURED "CRIME SCENE" WHICH INCLUDES THE CHECKPOINT SIX MILES FROM THE COMPLEX. SECURITY IS SO LAX THAT THE GUARDS ALLOW ENTRY OF PEOPLE WITH ALLEGED FALSIFIED PRESS PASSES (NO DIFFICULTY UPON ENTRY). BUT SEE FIT TO DETAIN PEOPLE WITHIN THE CRIME SCENE (DETAINING PEOPLE ON THE SCENE WHO SHOULD NOT BE ON THE SCENE). CONSIDERING THE TURMOIL THAT WAS CREATED AT THE CHECKPOINT IT MIGHT BE UNDERSTANDABLE THAT ENTRY WAS BARRED AT THE PRESS CONFERENCE BY NAME. IT IS, HOWEVER, INCONCEIVABLE THAT THE FBI SPOKESMAN WOULD NOT KNOW WHO GARY HUNT WAS.

2 OF 3

FIDELITY, BRAVERY AND INTEGRITY - SUCH IS THE MOTTO OF THE FBI. IT APPEARS, HOWEVER, THAT THE INTEGRITY IS NON-EXISTENT, AND THAT THE INTELLIGENCE AND COMMUNICATION WITHIN THE FBI HAS BEEN REPLACED WITH FABRICATION.

STRANGELY THE ESTABLISHMENT PRESS SEEMS TO OVERLOOK THE OBVIOUS AND DWELL ON THE INFORMATION THAT THE FBI DIRECTS THEM TO. TRUTH IS NOT A GOAL, AND THEY, ESTABLISHMENT PRESS, HAVE BECOME STENOGRAPHERS FOR THE DECEIT OF OUR GOVERNMENT.

A FINAL NOTE, THESE EVENTS WILL NOT DETER US FROM OUR GOAL. WE WILL BE PRESENT FOR THE HEARING MONDAY, AND WILL BE FILING AN ACTION AGAINST THOSE OFFICERS AND AGENTS WHO SO FREELY FLAUNT THE LAW.

**From: Gary Hunt at the Outpost of Freedom in Waco Texas**

**Date: May 30, 1993      Phone: (817) 756-6029**

Shortly after I left Waco to return to Florida and get my Survey business back on its feet I had the opportunity to be on a radio talk show in Jacksonville, Florida. While on the air we received a call from someone named Linda who claimed to be from the South Side. This Linda rattled off eight or ten rapid fire questions, obviously not intent upon answers, rather, using the forum for a platform for her rantings.

Later that evening I was speaking to a group of people in Jacksonville when the issue came up regarding the call from Linda. I suggested that it reminded me of someone that I had met in Waco and was informed that it was that same person. This was the beginning of a continuing education in flak.

As the weeks went by I was constantly receiving phone calls from all over the country indicating that I was being attacked and accused of being a government agent by the same person. Last week I graduated to big time. I was on a talk show in Baltimore, Maryland. After the conclusion of my forty minutes I was informed by the hostess that there was a person saying that I was a government agent. I stated that I was aware of Linda Thompson's accusations. She then informed me that it was not Linda Thompson.

To this time I had assumed that the proclamations of this self styled patriot would be lost on deaf ears. The work that I had done in Waco, I thought, would speak for itself. It appeared, at that point, that the effort was damaging not only my reputation, but also creating a rift in the Patriot Community.

For the past few days I have resisted going against my ethics and had, as I have for that past many weeks, continued to refuse to get caught up in a slander game. I had seen too much of that performed by the FBI while here in Waco the first time. Numerous phone calls and conversations with friends have convinced me that my obligation is not to myself, and to maintaining my ethical position of refusing to get involved in this type of slanderous, one sided attack and only allowing the discussions to take place with both parties present, leaving the decision to the listeners. They have convinced me that the rift being created within the movement is growing and is becoming a source of creating walls which should be falling down because of government activities in Waco, and around the country.

After I returned to Florida I received many calls running along this line, "I don't care if David Koresh did abuse children, I still don't see the justification for what they (the BATF/FBI) did." Regardless of what Ricks said I have found no reason to believe that ANY child abuse ever occurred in Mt. Carmel Church complex, however the damage was done by the one sided attacks. This points directly to the problem we are having now within the community. All over this country people are hearing what Thompson says, just as they did with Bob Ricks. A [picture is being painted by one side (perhaps a courtroom trick by a BAR attorney) who refuses to go on radio in an open forum.

In Waco, during the siege that resulted in the loss of 92 American lives. the establishment press allowed itself to be used by the FBI and the government. They accepted what Ricks said for the FBI and what Ricks said for David Koresh. Whatever Ricks said was truth. I had been asked by a Florida talk show host how to deal with a similar rift between two patriots, one well known and the other more obscure. My response was that both need to be allowed to debate on the air. Any conclusions should be drawn by the listener, not the host. Media should not take sides when the issue is within the movement, only when it is without the movement. I thought that the patriot media community was above this. I thought that they understood how the establishment press is used by the government to achieve government objectives. Now I see the patriot press succumbing to the same sort of misinformation and one sided reporting.

I suggest that we all need to consider how to deal with evaluations of this sort. I suggest that we all **MUST** make our own decisions, made based upon informed presentations. I suggest that we mend our ways or we will be defeated before we have a chance to defend what we believe.

**Date:** June 13, 1993      **Phone:** (817) 756-6029

From March 8th thru April 20 many people around the country waited anxiously for news from Waco. The generic sort, as reported by the networks, was treated by most as a charade. The FAX machine had provided the only means of daily receipt of truth of the circumstances from Waco. This was a result of the efforts of Ken Vardon of **American Patriot Fax Network**, and Gary Hunt of the **Outpost of Freedom**.

Many have wondered just who Gary Hunt was. Perhaps a brief explanation is in order. I am a veteran of Vietnam ('66-'67) and became involved in the anti-war movement shortly after my return from Vietnam. By 1969 I had married and began a family. This marriage ended in divorce. The next marriage resulted in my fourth child and second divorce.

When I began to settle down, around 1973, I began studying Land Surveying. It was a challenging profession with plenty of rugged outdoor work, challenging in terms of investigation and had a great deal of mathematics. In 1977 I passed the requisite examinations and became a Registered Professional Land Surveyor. By 1981 I had two years in business and 14 people working with me. Being a rather poor businessman I lost about \$46,000 that year to bad clients. The IRS came down on me and began seizing and levying and all the other stuff that they are known for. By 1985 I had learned that there were questions regarding the lawfulness of "income tax", so I stopped filing returns for which I was not obligated. By 1987 I began meeting others around the country who were similarly inclined. I had learned that it was a slow and difficult process, back then, to find support for education and assistance in these matters. For the past couple of years I had thought of beginning a newspaper that would assist others in progressing through these steps at a more rapid pace. This desire culminated in the publication of the *Outpost of Freedom's* first edition on February 3, 1993. The second was out on February 21 and the third was to follow in early March.

On the morning of February 28th I received a phone call from someone I had spoken to occasionally in the past. He was aware of my newspaper which prompted him to call that morning to inform me of the events currently under way in Waco. By March 6th I was determined to come to Waco, as did many others, to see if I could somehow change the outcome of the events that were to follow.

After a short period of time it became apparent that there was little that could be done. I had put out a press release on March 8 and someone had suggested that I FAX it to Ken Vardon. Ken contacted me and asked me to continue providing information, which I did until April 20, 1993, the day after we saw what the government's final solution was.

During the attempts for a peaceful solution I managed to acquire a power of attorney from David Koresh via the Ron Ingleman show in Dallas, Ken Fawcett and a satellite dish at Mt. Carmel. On March 14th I was contacted by telephone by Linda Thompson, a BAR attorney from Indianapolis, Indiana, who had found out about the POA. She suggested that we could work together in utilizing the POA to force the government to allow us entry into Mt. Carmel to see Koresh. She FAXed me a letter the next day to confirm our "handshake" agreement. She arrived a few days later, contrary to the "next day" mentioned in her letter. We then worked together to prepare and file a "Petition for Writ of Mandamus" which was filed on the 19th. On the 20th, after being told she was told that the judge would not respond to the petition for a few days, Linda suggested that she and I sneak into the complex to see Koresh and the others. She then prepared a press release to that affect and asked me to transmit it through APFN to all except the FBI headquarters in Waco. This I did. Then she prepared press credentials for AEN (Associated Electronic News), an entity that I had never heard of before. She stated that she was the founder and that it was legitimate. We then went to the press area that was about 2.8 miles from the complex. On the way to the press area she began suggesting that it might be better if she did not "go in" because if I were arrested, or worse, I would need an attorney on the outside. John Baird, her partner in the law office, was an attorney (who, by the way, also went to the FBI academy for a short period) apparently was not competent enough to handle the job. I told her then that I would consider this option when we arrived at "satellite city". When we arrived Linda began passing out the press releases that she had copied at Kinko's. One fellow, who Linda seemed to know quite well, took one and nearly ran to the motor home used by the DPS officers.

After about 15 minutes I determined that it "did not feel right" to go in. Linda then suggested that we had gone to all of this trouble and that I should go in. After a few minutes of "discussion, I declined and we left. As we arrived at the checkpoint that we had entered so easily before, we were stopped by DPS and BATF until FBI arrived to question us. While we were still in the car a BATF trooper pointed his MP5 at the driver, John Baird, and Linda took a picture. Linda apparently then removed the film from the camera and put it in the glove box of the car. The BATF then came around the car and DPS returned and had us get out. About this time I turned on the tape recorder that I had in my pocket and managed to record a portion of the conversation. The BATF then reached in the back of the car and picked up my camera. He open the camera and began exposing the film to the spotlights around us. I stated that this was the wrong film. This film had pictures of two fellows who had since returned to Colorado, a fellow from Florida who had gone home and many others who I had become close to in the previous weeks. Why Linda subsequently felt that her film of a BATF pointing a gun at her was more important than the film that I had was beyond me. At any rate, I admitted to lying to the BATF rather than allow him to continue searching for more film. We were then interviewed by the FBI, our "false" press credentials taken from us and told to leave. This entire episode lasted, perhaps 30 minutes.

The next day I was denied access to the regular morning press conferences as a result of having false credentials the night before. My credentials from the Outpost of Freedom had been approved, but the actions initiated by Linda Thompson denied me access from that point forward.

I'll not go into further detail of my dealings with Linda. those desiring more information may contact me at the number above.

The good fortune of not being able to attend the press conferences resulted in the need to gather information without the normal channels. I managed, with the help of Ken Fawcett, to make contact with one of the members of Mt. Carmel who was in the Salvation Army half way house. This resource would call nearly every day and comment on what we both witnessed as the press conferences were viewed, in their entirety, on local television. Comments would be made about the fallacies of the remarks of Bob Ricks, and others, as the presented to America the FBI view of the events in Waco. My press releases then began pointing out these discrepancies. I had agreed not to divulge the source of my information, and continued to maintain that obligation until released from it after the fire of April 19th.

I returned to Florida to pick up the pieces of my business. My absence of 46 days had an impact that took five weeks to recover from. In staying in touch with the friends I had acquired in Waco, I decided to return, which I did the last week in May.

I had also learned that there had been numerous allegations that I was a government agent, or snitch, that were being broadcast over the Patriot radio stations and printed media. There was even an article in the July Soldier of Fortune magazine which described the events of March and was written by Linda Thompson.

I had contacted a number of the radio stations that had aired these allegations and asked that those hosts might better serve the Patriot community by not allowing one sided attacks, rather providing a forum in which both sides could be heard. I have been informed by at least one host that Linda had numerous excuses as to why she was unable to go on the air with me. The result of these attacks has been much like that approach taken by Bob Ricks in attempting to discredit David Koresh with one sided attacks. The difference is that the Patriot community has succumbed to a tactic that we have all been made painfully aware of.

So, where do we stand?

I have been unable to find reference to Linda Thompson appearing in the Patriot community prior to mid March, 1993. Perhaps she has been around longer. I would appreciate any information that would demonstrate that she has.

I have been known in the Orlando, Florida area for years as one who spoke against government and studied many issues relevant to the movement. I have been in touch with quite a few patriots over the years, and many more frequently as I began research for my newspaper.

I have reported truth from Waco, and provided the only source of constant and truthful news. I have done my homework to avoid disseminating rumors, lies or un-corroborated information. A review of all of my releases will show only minor errors of fact.

Linda recently had a byline in the May 1, National Educator, which indicated authorship of an article which was written over a month earlier by Eric Lighter and Nancy LaRosa. This article even included some of the false information that was common in some of the Patriot media. There was no six year old girl who had her guts splattered on the walls, nor were there two gun toting grandmothers who killed BATF agents in the nursery.

I would suggest to the Patriot community that the concept of "guess what I know" is a dangerous one. It exposes us to "control" at the hands of the experts in the government intelligence agencies. We must learn that integrity is a necessity if we are to maintain a viable network of communication. We must learn to evaluate disinformation by always insisting on both sides being presented. We must not allow ourselves to become easy prey for the experts on the other side. We must confirm our "facts" so as to avoid rumors that will mislead and befuddle us. We must establish reliable means of communication, as was done in Waco, so that we are constantly aware of the activities of those who would place us under the control of the New World Order.

Many of us should critique our activities and reactions to rumor over the past few months and modify our attitudes to protect our futures. We must learn to be ever vigilant and to place our reliance in communication carefully into the hands of those that prove themselves worthy of that trust. We must cease spreading rumors with the "guess what I know" attitude.

We must begin to recognize that this is not just a pretend game anymore. The lives lost here in Waco are much more tangible than rumors of millions of foreign troops in this country. The enemy has presented itself. It is real and must not be deferred back to some mythical foreign intruder. We must remind ourselves constantly that unless we are careful we may become our own worst enemy by allowing ourselves to drop our guard and allow others to make our decisions for us. And, more than ever, we must realize that the matter has become one of life or death. Those that have not yet come to this conclusion should visit Waco, the Mt. Carmel site and perhaps speak with those who lost their friends and loved ones as a result of the activities of the BATF and the FBI.

Linda Thompson promised to "destroy" me in the Patriot community in a recorded conversation. If she succeeds in this she has also managed to destroy a portion of the Patriot community. Look at what is good, and encourage it. Look at what is bad and discourage it. But most importantly, look closely and learn for yourselves.

Transcription of conversation  
at FM 2491 on March 20, 1993.

This conversation was recorded from within and around the car the evening of March 20, 1993. John Baird was in the driver's seat, Linda Thompson was in the front passenger seat, Gary Hunt in the right rear. We were stopped at the FM 2491 intersection with Loop 340 after leaving Satellite City. While an ATF agent stood guard, and occasionally pointed his MP-5 at John, in the driver's seat, Linda took a flash picture of him. Before the State Police returned to the vehicle I turned my recorder on [GH].

Note: "LEO" indicates all law enforcement officers. There is no way to discern whether they were ATF or State Police (Highway Patrol).

Gary: Sorry I didn't have my recorder on when we got the "bust the camera" deal.  
[referring to a threat by the agent to Linda to bust her camera if she took another picture of him.]

Linda: (unintelligible)  
[long pause]

Gary: Any time you are with a public official, all you have to do is inform him, but you have a right to record the conversation, am I correct?

Linda: Any time you are with a public official, what?

Gary: You have a right to record the conversation, but you have to inform him?

Linda: No, you don't have to inform him. . .

[State Police return]

LEO: Good evening. We're with the Highway Patrol. I need all of you'al to step out of the car, right now, please.

Linda: For what? Excuse me, for what?

LEO: Step out of the car, ma'am.

Linda: (unintelligible)

LEO: Ain't gonna work, partner, come on out of the car. [John Baird had locked his door]

LEO: Okay, step out of the car. Spread your legs for me.

LEO: Where you'al from?

John: (unintelligible)

LEO: Is this a rental car?

Linda: Yes!

LEO: Who is it rented too?

Linda: Me.

LEO: Okay! Do you have the rental papers, please.

Linda: Yes.

LEO: Okay, you'll have to get the papers out, ma'am

Hunt: That's a pocket knife in my front left pocket.

LEO: What?

Gary: A pocket knife in my front left pocket. I'm going to step on that, okay?

LEO: (unintelligible)  
Linda: (unintelligible)  
LEO: (unintelligible) Well, according to the FBI you do.  
Linda: Why? . . . AEN is a legitimate news network service, and I own it.  
LEO: You do?  
Linda: Yeah, I do.  
LEO: Please don't smoke.  
Linda: Pardon?  
LEO: Please, do not smoke.

[long pause]

Linda: (unintelligible)  
LEO: (unintelligible)  
Gary: You're ruining my film.  
LEO: What?  
Gary: You're ruining my film.  
LEO: Too bad. I don't want you taking pictures where you shouldn't.  
Gary: I didn't- It wasn't with that camera, sir.  
LEO: (unintelligible)

[pause]

Gary: We're with the press.  
Linda: (unintelligible) . . . press pass . . .  
LEO: Is this the only two cameras you have in this car?  
Gary: (unintelligible)  
LEO: If that's not the one, where's the, aah, where's  
Linda: (unintelligible) . . . it wasn't  
Gary: It was that one.  
LEO: Was it the camera that I opened at first?  
Gary: Yes.  
Linda: (unintelligible)  
Gary: pocket knife.  
LEO: (unintelligible)

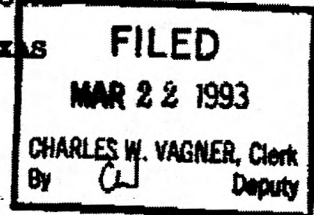

[long pause]

Linda: Are you searching that car?  
LEO: Let me see your tape recorder?

Tape shut off due to search by LEO (law enforcement officer)

CIVIL ACTION NO. W-93-CA-105

ORDER

Linda Thompson ("Thompson") and Gary Hunt ("Hunt") file this application for a writ of mandamus as next friends of David Koresh ("Koresh"), the leader of the Branch Davidian religious organization. Hunt asserts that he has been given power-of-attorney by Koresh to act in his behalf. Thompson asserts that she has been retained as an attorney by Hunt to represent Koresh; however, she indicates that she is not appearing in the present action in her capacity as an attorney. Asserting a number of violations upon the part of Defendant, the Plaintiffs basically seek access to David Koresh.

Prior to an Order being entered by this Court, the Plaintiffs filed a petition for mandamus relief with the Fifth Circuit Court of Appeals, which was immediately denied. As the petition addressed the issues presented to this Court, it would appear that the Plaintiffs' request for relief is now moot. However, in the

TODAY, IN WACO, ABOUT TWO HUNDRED PEOPLE APPEARED AS THE UNARMED MILITIA TO SHOW SUPPORT FOR THE BRANCH DAVIDIANS AND DAVID KORESH. THE INITIALLY ASSEMBLED AT THE 340 LOOP AND FM 2491, WHICH IS THE MAIN CHECKPOINT AND THE ONLY ACCESS TO THE MEDIA CENTER. ABOUT 12:30 PM AN EXODUS TO A DIRT ROAD NEAR ELK, WHICH IS ABOUT 2 MILES EAST OF THE CHURCH COMPLEX, RESULTED IN OVER ONE HUNDRED PEOPLE WHO EVENTUALLY STRUNG THEMSELVES OUT OVER NEARLY A MILE AND CAUSED PERHAPS 60 BATF, FBI, SHERIFF, STATE TROOPER, TEXAS RANGER AND EVEN WACO POLICE TO MAINTAIN A BARRIER OF ARMED MANPOWER AGAINST THE UNARMED PEACE AND JUSTICE SEEKERS. THERE WOULD HAVE BEEN MORE PEACE SEEKERS HAD THE STATE TROOPERS NOT BARRICADED THE ROAD IN TO THE AREA IN WHICH THIS EFFORT WAS MADE. MANY WERE TURNED BACK, BUT THE EVENT WAS, PERHAPS, THE MOST DEMONSTRATIVE OF THE FEELINGS OF MANY THAT WE HAVE SEEN TO DATE.

ATTACHED TO THIS RELEASE IS AN AGREEMENT. I HAD HOPED THAT DAVID KORESH WOULD BE ABLE TO EXECUTE THIS ON HIS OWN BEHALF, HOWEVER THE FBI HAS REFUSED ME ACCESS TO HIM SINCE MARCH 9, WHEN HE FIRST ASSIGNED THE POWER OF ATTORNEY AND REQUESTED THAT I BE ALLOWED TO ENTER THE COMPLEX TO MEET WITH HIM.

THE AGREEMENT IS THE FIRST PART OF A TWO PART SOLUTION TO THE WACO SIEGE. THE FBI CONTINUES TO DENY MY ACCESS TO MR. KORESH. THEREFORE THE SECOND PART TO THE PEACEFUL SOLUTION WILL HAVE TO WAIT UNTIL THE FBI REALIZES THAT UNTIL SOMEBODY WHO UNDERSTANDS LIFE THE WAY DAVID DOES WILL BE ABLE TO COMMUNICATE WITH HIM, AND, THAT THE FBI, IN THEIR DICTATORIAL AND ARBITRARY MANNER WILL NEVER ACCOMPLISH THE TASK BY PEACEFUL MEANS (PERHAPS THEY DON'T WANT THAT).

I HOPE THAT ALL RECIPIENTS OF THE ATTACHED AGREEMENT WILL PROVIDE SUPPORT BY FAX TRANSMISSION TO APFM (702) 369-8101) AS SOON AS POSSIBLE. DAILY RETRANSMISSIONS WILL BE MADE TO APPROPRIATE AUTHORITIES TO INDICATE THE WILL OF THE PEOPLE IN THIS MATTER.

IF THERE ARE ANY THAT FEEL THAT THE AGREEMENT, AS PRESENTED, IS NOT FAIR TO ALL PARTIES, WE WOULD APPRECIATE YOUR COMMENTS VIA THE SAME ROUTE.

THE ATF IS COMING UNDER ATTACK IN WASHINGTON FOR THE ADMINISTRATION OF THIS DEBACLE. PERHAPS THIS ARMED TAX COLLECTION AGENCY HAS CREATED ITS OWN DEMISE. WE CAN ONLY HOPE THAT THIS IS THE BEGINNING OF A REFORMATION TO THE NOBLE EXPERIMENT THAT WAS BEGUN 217 YEARS AGO. WHEN THIS MESS AT WACO IS OVER WE MUST NOT JUST SIT BACK COMPLACENTLY AND ASSUME THAT WE CAN LET OUR GUARD DOWN. THERE IS MORE TO BE DONE, BUT THE TASK IS BEGUN, AND WILL CONTINUE UNTIL THOSE ORIGINAL FREEDOMS AND LIBERTIES ARE AGAIN OUR BIRTHRIGHT.

## WACO: TIME FOR THE MILITIA

Yes, I've put my name on this paper, and I'm proud of it. Who am I? Nobody special, just a dime-a-dozen lawyer. But I know the legal "justice" system and our government are corrupt, worse than you can ever imagine. And I know that we are headed toward martial law in this country, soon, unless we do something about it now.

It doesn't get much worse than U.S. Army tanks circling the front yard of your house, like David Koresh has right now at his home in Waco, Texas, for supposed "crimes" the government won't reveal. It isn't a crime in this country to be a religious "whacko" or to own guns (yet), but 27 days ago, armed federal agents broke in on David Koresh's home, throwing concussion grenades at the door and shooting men, women and children. Ever since, David Koresh and 75 other people have been tortured and deprived of all communication, food, and even legal assistance, as the FBI and BATF, armed with machine guns, and military tanks circle the house. The media is kept 4 miles away. The Waco federal court has denied every application for assistance, sealed the original search warrants, and is even holding arraignments in secret. The only story we hear is the story the media gets that comes straight from an FBI press briefing each day at 10:30 a.m., period. But the government claims all this is okay because he's a "religious nut" and "was stockpiling weapons."

Well, it's not okay -- David Koresh and every other member of the Branch Davidians is a citizen. Even a prisoner of war would deserve to be treated humanely. We simply must take a stand now. There is no other choice, except to be slaves, living in fear of our own government.

My Fellow PATRIOTS;

I have been advised that there has been a Call to Arms sent out by Linda Thompson, of Indianapolis, Indiana, calling for Patriots to come to Waco, Texas, on April 3, to form an armed militia. These past few weeks have been very fruitful for the Patriot Community. The efforts of hundreds of Patriots have resulted in effective compromises on the part of BATF and FBI. The solution being worked toward is of a positive nature, and is a good solution to the problem at hand, as well as the attitude of the American public. The lives of those in the Branch Davidian Church Complex are safer now than at any time since February 28. A PEACEFUL REVOLUTION IS IN PROGRESS!

Myself and many others who have worked for a peaceful solution beseech you not to follow the request for a call to arms.

Those of us working for a peaceful solution have had many setbacks, but we have also had many successes. Linda Thompson, being a BAR attorney, has had one setback and now feels a need to resort to violence. Let's use some good old Common Sense and not undermine what is being successful. This call to arms would, most likely, put the Patriot Movement back many years, or worse, beginning an armed insurrection. This would have a negative affect on every family in America.

If the time comes for such a call, there are many who have worked long and hard for the movement. Rely on those who have put more than just a few months into the movement to judge the severity, or the success, of the efforts to date.

If you come to Waco, come unarmed. If you come armed, turn your weapons in to the Sheriff for safe keeping until you are ready to leave. Peaceful efforts are in order, and their success is becoming apparent. GOD IS ON OUR SIDE!

## CALL TO PEACE

The communications center will be c/o DONT TREAD ON ME! Common Law Service Center, NEW ROAD INN, 4000 Jack Cultjen Parkway (South Loop, Interstate #35, Exit 331), Waco, Texas - Room #223. Phone number (817) 662-2442.

Messages may be left and picked up at the communications center. Only in emergencies will deliveries be attempted.

The assembly area will be designated by 10:00 AM, Sunday morning (March 7, 1993). All participants should be in the assembly area by 11:45 AM. Information will be made available at the communication center, the "media" staging area and any other areas where activity is evident. Flyers will be distributed at these locations in limited quantities.

Upon notification of the assembly area location, it is imperative that everybody assemble as quickly and as orderly as possible. Random searches for drugs and/or weapons will be made. Anyone found with either will have the property turned over to or reported to the Sheriff. Individuals will be barred from participation.

At the designated time movement will begin in the direction of the Branch Davidian compound. Participants should maintain proper decorum for the march, and silence will provide our best protection. We will march ten abreast, and we will march to our objective. The peaceful assembly will be lead by the Gadsden County flag (yellow with rattlesnake and inscription "DONT TREAD ON ME"). There should be no slogans carried by anyone. Organization identification and state identification may be carried. This peaceful assembly is non-aligned. The sole purpose is to demonstrate that there are PATRIOTS in the country, still, who are willing to commit themselves to the protection of those rights, given by God and unalienable, regardless of moral or philosophical differences. The true government of this great nation is interceding to maintain peace, and to present themselves to the administrative agency that has been the focus of attention for the past few days and let them understand that the will of the People, not the desires of the administrative agency, is the "law" to be followed in this land.

Communication with the press should be conducted only by those so designated. Participants are encouraged not to speak for themselves during the assembly. The peaceful assembly must speak for itself to serve it's purpose.

Anticipate a degree of hardship in this effort. Arrangements were made on very short notice. They will continue so as to provide the needs of the peaceful assembly. Food, water and sanitary facilities must be conserved. There is no valid statutory law that can prescribe what is acceptable and what is not to a Freeman, those choices must be made by the individual. Every effort is being made to provide these facilities. Those that are not satisfied with what is available accept responsibility for themselves. Those that will tolerate what is available assume individual responsibility for same.

The actions of the federal "military" forces are unpredictable, which is apparent by the occurrences of the past week, therefor every effort should be exerted to maintain discipline during this activity. The moral of the entire effort is based on the moral of each individual.

Sleeping facilities are non-existent at the compound. Each individual is responsible to himself for same.

No effort should be made to approach the buildings within the compound. The sleeping area, for those that remain through the night, will most likely be located between the BATF command area and the compound. Whether leaving this area after arrival will be restricted by the activities of BATF, or not, is not known at this time.

WE HAVE BEEN TOLD OVER AND OVER HOW NICE THE BATF PEOPLE WERE IN DEALING WITH THE BRANCHDAVIDIANS ON FEBRUARY 28, AND SINCE THEN. SO, LET'S TAKE A LITTLE LOOK AT WHAT WE HAVE SEEN, WHAT WE HAVE BEEN TOLD BY BATF/FBI AND WHAT I HAVE BEEN ABLE TO FIND OUT FROM OTHER SOURCES.

REGARDLESS OF WHO FIRED THE FIRST SHOT, WE HAVE BEEN TOLD THAT THE BATF HAD INSTRUCTIONS TO DISCRIMINATE THEIR TARGETS. THEY WERE SUPPOSED TO BE SURE OF THEIR TARGET BEFORE FIRING. THIS IS CONSISTENT WITH GOVERNMENT POLICY WHICH IS TO FIRE ONLY AT TARGETS THAT POSE A THREAT TO THE SAFETY OF THE OFFICERS/AGENTS AT THE SCENE. IT HAS BECOME CLEAR THAT THOSE TARGETS WERE NOT NECESSARILY IDENTIFIED DURING THE FIREFIGHT. I HAVE SPOKEN TO WITNESSES WHO HAVE CONFIRMED THAT WHAT WE HAVE SEEN AND HEARD ON VIDEO PORTIONS TO BE TRUE. WHEN WE SEE THE OFFICERS BEHIND VEHICLES, AND SPORADICALLY BEGIN FIRING, IF WE LISTEN CLOSELY WE HEAR THE WORD "WINDOW" SHOUTED BY ONE OF THE OFFICERS. IT HAS BEEN CONFIRMED THAT WHEN ANYBODY, MAN, WOMAN OR CHILD, GOT NEAR A WINDOW INSIDE OF THE COMPLEX THAT THEY WOULD IMMEDIATELY HEAR SOMEONE YELL "WINDOW" AND THE WINDOW WOULD BEGIN RECEIVING MASSIVE AMOUNTS OF FIRE FROM OUTSIDE.

WE ALSO KNOW THAT A CEASE FIRE WAS CALLED. I HAVE BEEN TOLD THAT SOME OF THOSE INSIDE, AT FIRST, CONTINUED TO FIRE WHEN THEY SAW AGENTS BECAUSE THE FLASH-BANGS HAD AFFECTED THEIR HEARING. EVENTUALLY WORD GOT AROUND AND THE CEASE FIRE BECAME REALITY. I AM NOT SURE ABOUT CAPTIVES BEING RELEASED, HOWEVER I HAVE BEEN TOLD THAT A NUMBER OF AGENTS WERE "TRAPPED" IN CERTAIN LOCATIONS AROUND THE COMPLEX. THAT WHEN THE CEASE FIRE BEGAN SOME WERE RELUCTANT TO LEAVE THEIR COVER. THEY WERE TOLD THAT THEY COULD LEAVE, THEN THEY RESPONDED, "HOW CAN I TRUST YOU?" THEY WERE THEN TOLD, "TRUST US, GET OUT OF HERE". WE HAVE AGAIN SEEN THAT THE BRANCH DAVIDIANS WERE THOUGHTFUL ENOUGH TO LET THOSE "BRAVE" AGENTS GO IN AND RECOVER THE DEAD AND WOUNDED. NOT SO FOR THE DAVIDIANS. PETER GENT REMAINED ON TOP OF THE WATER TOWER FOR SIX OR SEVEN DAYS, EXPOSED TO THE WEATHER, UNTIL THE BATF/FBI ALLOWED, UNDER CAREFUL WATCH OF A SNIPER, THE BRANCH DAVIDIANS TO CLIMB THE TOWER TO RECOVER AND BURY THE BODY.

WE ARE TOLD BY FBI HOW CRUEL THE BRANCH DAVIDIANS WERE TO "FORCE" OLDER AND FEMALE MEMBERS TO BURY THE BODY. WE ARE NOT TOLD THAT THE OLDER AND FEMALE MEMBERS COULD NOT POSSIBLY CLIMB THE TOWER TO REMOVE THE BODY ON THEIR SHOULDERS. THIS APPEARS TO BE VERY CONSISTENT WITH THE OTHER EFFORTS OF THE FBI TO PAINT A TAINTED PICTURE OF THE CHURCH MEMBERS. REMEMBER, THESE WERE THE PEOPLE THAT ALLOWED THE BATF TO COME WELL WITHIN RIFLE RANGE TO RECOVER THEIR DEAD AND WOUNDED.

I HAVE ALSO BEEN TOLD THAT THOSE INSIDE THE COMPLEX CAN SEE THE SNIPER WHO CONSTANTLY LAY IN WAIT. THEY HAVE CONFIRMED THAT THERE IS ONE BEHIND SANDBAGS BY THE BARN THAT THEY CAN LOOK RIGHT DOWN ON. OBVIOUSLY THE BRANCH DAVIDIANS ARE NOT THE EVIL VILLAINS THAT WE ARE LED TO BELIEVE THEY ARE.

PERHAPS THEY ARE HOLDING THE CHILDREN UP AS SHIELDS TO PROTECT THEM FROM THOSE THAT KEEP RIFLES TRAINED ON THEM DAY AND NIGHT. THEY, HOWEVER, DO NOT KEEP RIFLES TRAINED ON THE AGENTS OUTSIDE.

LET'S JUST FOLLOW ALONG AS WE GO ALONG WITH THE BATE/FBI VERSION OF THE HAPPENINGS OF FEBRUARY 28, 1993 AT THE BRANCH DAVIDIAN CHURCH COMPLEX IN WACO, TEXAS.

IT IS SUNDAY MORNING, THE DAY AFTER THE SABBATH. ALL ARE RELAXED, BUT THERE IS APPREHENSION IN THE AIR. WE ALL KNOW THAT THERE ARE AUTOMATIC WEAPONS MADE UNDER THE AUTHORITY OF PAUL PATTA'S PFL, CLASS III LICENSE, BUT THERE IS REASON TO BELIEVE THAT ROBERT GONZALES AND HIS SIX ROOMMATES ARE OTHER THAN STUDENTS AT TEXAS STATE TECHNICAL INSTITUTE. THEY ARE LIVING TOGETHER IN A TWO BEDROOM HOUSE, BUT ARE DRIVING VERY EXPENSIVE CARS. WE HAVE WONDERED, FOR QUITE SOME TIME, IF THEY ARE HERE INVESTIGATING US. WE KNOW THAT WE HAVE DONE NOTHING WRONG, BUT THE FEAR STILL EXISTS.

ROBERT LEAVES AND WE HEAR THE ALARM IN HIS CAR GO OFF. AS HE DRIVES DOWN THE DRIVEWAY HE TOOTS HIS HORN FOUR TIMES, A SIGNAL PERHAPS. DON BUND, WHO HAD BEEN HERE FOR SOME TIME, AND HAS FAMILY THAT WERE MEMBERS IN THE PAST, HAS LEFT IN A VERY SECRETIVE MANNER PRIOR TO ROBERT DRIVING AWAY.

THE SOUND OF VEHICLES DRIVING UP THE DRIVEWAY BRINGS A FEW TO THE WINDOWS. THEY NOTICE THAT ROBERT AND HIS FRIENDS HAVE MOVED THEIR CARS FURTHER AWAY, OVER BY MARK AND MARY'S HOUSE. THE VEHICLES COMING UP THE DRIVE INCLUDE TWO TRUCKS PULLING CATTLE TRAILERS.

SUDDENLY BLACK UNIFORMED PEOPLE JUMP OUT IN MASS. SOME ARE CARRYING LADDERS, OTHERS RIOT SHIELDS MARKED 'ATF POLICE'. WE NOTICE THAT SOME ARE CARRYING RIFLES AND ALL ARE ARMED. THEY APPROACH THE FRONT DOOR AND YELL, "POLICE, WARRANT". WITHIN SECONDS GUNFIRE BREAKS OUT. EXPLOSIONS ARE HEARD AND THE GUNFIRE HAS REACHED SUCH A RATE THAT LITTLE ELSE CAN BE HEARD. THEN THE THUMPING OF HELICOPTER BLADES IS HEARD OVER THE GUNFIRE, WHAT HAVE WE DONE TO DESERVE WHAT APPEARS TO BE A FULL SCALE MILITARY ASSAULT?

THE REACTION OF THOSE INSIDE, WHETHER THEY WERE AWARE OF THE ARREST WARRANT, OR NOT, WAS ABSOLUTELY OF SELF DEFENSE. THE QUESTION ARISES IS IT RIGHT, OR WRONG, FOR US TO DEFEND OURSELVES AGAINST THIS MASSIVE FORCE THAT CAME TO OUR CHURCH, ARMED AND OBVIOUSLY WITH MALICE IN MIND.

PERHAPS NOW IS THE TIME TO ASK YOU, THE READER, WHAT YOU WOULD DO IN SIMILAR CIRCUMSTANCES. WOULD YOU HAVE DEFENDED YOURSELVES? WOULD YOU HAVE THROWN YOUR HANDS UP AND HOPE THAT THIS ARMED ARMY IN BLACK WOULD RESPECT YOUR SAFETY? WOULD YOU EVEN CONSIDER WHAT RIGHTS YOU HAD UNDER THE LAW?

PERHAPS OUR ELECTED REPRESENTATIVES OF THE PAST HAD MORE UNDERSTANDING OF THE PROPER ROLL OF LAW ENFORCEMENT THAN WE GIVE THEM CREDIT FOR. PERHAPS THEY KNEW THAT THERE HAD BEEN, AND WOULD BE ABUSES OF AUTHORITY WHEN THEY WROTE §9.31 OF THE PENAL CODE.

§9.31 (C) The use of force to resist an arrest or search is justified:

- (1) if, before the actor offers any resistance, the peace officer (or person acting at his direction) uses or attempts to use greater force than necessary to make the arrest or search; and
- (2) when and to the degree the actor reasonably believes the force is immediately necessary to protect himself against the peace officer's (or other person's) use or attempted use of greater force than necessary.

Read this carefully, is what happened on February 28 exactly what They had in mind?

"Civil liberty, in all countries, hath been promoted by a free discussion of public measures, and the conduct of public men. The FREEDOM OF THE PRESS hath, in consequence thereof, been esteemed one of its safe guards. That freedom gives the right, at all times, to every citizen to lay his sentiments, in a decent manner, before the people. If he will take the trouble upon himself, whether they are in point or not, his countrymen are obliged to him for so doing: for, at least, they lead to an examination of the subject upon which he writes."

"John DeWitt", Essay III, November 5, 1787

I HAD COME TO WACO REPRESENTING MY NEWSPAPER, "OUTPOST OF FREEDOM". SHORTLY AFTERWARD I HAD BECOME A PART OF THE STORY THAT WAS UNFOLDING HERE. LATER I WAS REFUSED ADMITTANCE TO THE DAILY PRESS CONFERENCES BY SPECIAL AGENTS RANDY PARSONS AND CARLOS FERNANDEZ, ALLEGING THAT I WAS NOT "LEGITIMATE PRESS". SINCE THAT TIME I HAVE BEEN DENIED ACCESS TO THE CONFERENCES, WHICH MAKES THE TASK OF REPORTING WHAT IS GOING ON HERE IN WACO A LITTLE MORE DIFFICULT.

I AM NOW, ALONG WITH MY OWN NEWSPAPER, REPORTING FOR "THE HOUR OF THE TIME" UNDER THE AUTHORITY OF CITIZENS AGENCY JOINT INTELLIGENCE (CAJI). THE CAJI NEWSLETTER IS READ BY 48,000 AND "THE HOUR OF THE TIME" IS HEARD BY OVER 10 MILLION WORLDWIDE. I AM ALSO PUBLISHED DAILY BY "AMERICAN PATRIOT FAX NETWORK" TO THOUSANDS. PERHAPS I MIGHT BE CONSIDERED LEGITIMATE, NOW.

SOME MIGHT QUESTION THE FACT THAT I HAVE BECOME A PART OF THE STORY THAT I AM REPORTING. I HAVE YET TO FIND ANY AUTHORITY WHICH MIGHT DENY A MEMBER OF THE PRESS THOSE SAME RIGHTS ENJOYED BY ANY CITIZEN OF THIS COUNTRY. IN FACT, IF WE LOOK BACK THROUGH OUR HISTORY, WE WILL FIND THAT MANY WHO HAVE REPORTED, OR WRITTEN, THE NEWS HAVE ALSO BEEN A SIGNIFICANT PART OF WHAT THEY WROTE. TO NAME JUST A FEW, BENJAMIN FRANKLIN, THOMAS JEFFERSON, ALEXANDER HAMILTON AND JAMES MONROE. JUST THINK OF THE LOSS TO THIS GREAT NATION IF THIS RIGHT COULD BE DENIED.

TOMORROW MORNING, MONDAY, APRIL 12, 1993, I WILL AGAIN ATTEND THE MORNING PRESS CONFERENCE AT THE CONVENTION CENTER IN WACO. I WILL BE ACCOMPANIED BY OTHER MEMBERS OF THE PRESS, AND WILL HAVE IN MY POSSESSION CREDENTIALS FROM THE AGENCIES IDENTIFIED ABOVE. FOR THE SAKE OF MY READERS, AND LISTENERS, I WILL BEGIN ATTENDING THE CONFERENCES ON A DAILY BASIS. THE FACT THAT I MAY NOT BE REPORTING THE EVENTS OF THE CONFERENCE AS THE BATF AND THE FBI MIGHT PREFER IS OF NO CONSEQUENCE TO EITHER THEY, OR I. IT IS OF CONSEQUENCE ONLY TO THOSE TO WHOM I REPORT THE NEWS.

THE SUPPRESSION OF THOSE WHO MIGHT NOT USE THE WORDS DICTATED BY THE FEDERAL AGENCIES IS A VERY SERIOUS CONSEQUENCE TO THE FREEDOMS THESE SAME AGENCIES PROVESS TO PROTECT.

FOR THE SAKE OF APPEARANCE OF SOME SEMBLANCE OF SANITY IN THE CONTINUING SAGA OF THE SIEGE AT WACO, I HOPE, SINCERELY, THAT THE FBI AND THE CITY OF WACO WILL BE TOLERANT OF PRESS THAT REPORTS A TRUTH DIFFERENT THAN THEY MIGHT PREFER.

## FOR IMMEDIATE REDISTRIBUTION

This Wednesday, June 2, a number of Branch Davidians will be standing before Judge Walter S. Smith, Jr., for a determination as to whether they will be allowed to live with family or friends until the trials in July and August. These people are not charged with a crime, they are Material Witnesses detained because they may have been witness to certain crimes. They are detained without any of the rights we take for granted on a daily bases.

This alone warrants our concern, but there is one case in particular that warrants out concern, and out action, **RIGHT NOW!**

Misty Ferguson came out of the fire on April 19. She was burned severely and, as a result of those burns, has had parts of all of her fingers amputated. Her burns were so severe that she has been moved from Parkland Hospital, in Dallas, to the Shriner's Hospital in Cincinnati, Ohio for treatment. While she was in Dallas, her mother, Rita Riddle, who is being held as a material witness, was allowed to visit her for 15 minutes. The judge had authorized a one hour visit, but the escort that took her from McLennan County to Dallas had some personal business that reduced the amount of time mother and daughter had together. That was the only time since the fire that they have been together.

The mother will be before the Judge this Wednesday to see if she will be allowed to leave the Salvation Army Half Way House to live with friends or relatives until she is called as a witness. The Pre-Trial Division of the Federal District Court is trying to have her released only to her parents who live in North Carolina. Misty will be with her father in Florida. The Prosecuting Attorney is trying to deny the mother access to her daughter in Florida by not allowing the mother to be released to her ex-husband and Misty's father.

The mother, **Rita Riddle**, is asking your help. Please write, Fax or Call Judge Smith or Felipe Reyna in Pre-Trial Services and ask for their humanitarian consideration of the right of a mother to be with her daughter through the long healing process ahead. They can be reached at the numbers and addresses below:

### A.P.F.N. GETS VISIT FROM BUREAU OF ALCOHOL TOBACCO & FIREARMS

by Kenneth L. Vardon

After giving this some thought, I figured that Special Agent "Richard E. Smith" and/or Special Agent "Terry Clark" would be writing a report about our visit, so it's OK for me to write a report about our visit, too.

This morning, July 8, 1993 about 10:45 a.m., my buzzer rang three times with the ring I give my friends . . . . I asked on my intercom who was there, "U.S. Department of Treasury" came the reply, **WOW!!**

I went to my outer door. As Mr. Smith showed me his "BADGE" and said he wanted to talk with me about Gary Hunt I said, "What do you want to know?" He asked if they could come in and visit. I said, "We can talk here on the patio", which we did. [Mr. Smith (SURE) and Mr. Clark (SURE).] After asking Mr. Smith for a business card, I said, "I don't have a gun." He said, "We didn't come breaking your door down." Mr. Smith did most of the talking. Mr. Clark asked as couple of questions here and there, like, "Do you know anyone with a GUN".

I know that Mr. Smith or Mr. Clark are writing a profile report on me, so I feel I need to write a profile report on them.

I explained to them that "YES" I faxed reports that Gary Hunt sent me from Waco during the 51-day Siege, that I had not met Gary, but he was referred to me by a friend and that Gary published the "Outpost of Freedom". I told them I had not heard from Gary in a few weeks. I know he was home for a while, but my understanding is that he is traveling on a story for a friend, that he had passed through Las Vegas, but that I had not met with him. I asked what specifically had Gary done? Mr. Smith showed me one of my earlier FAXes that I had sent out for Gary about his power of attorney for David Korosh. Mr. Smith kind of smirked and shrugged it off. He asked me about the phone number on the FAX and I said "yes that was my number. I have been faxing friends about WACO and the Weaver/Harris trial. (And oh, by the way, Weaver and Harris were found NOT GUILTY.)" I just received the information as you were ringing my buzzer." They had not received this information. I could tell their reaction was disappointment or small deflection of SHOCK. I explained, "except that Randy is still charged on the gun charge and failing to show up for court charges." I told them that if they wanted to talk with Gary Hunt, I am sure he would return their call.

At this time they started asking me what I did, do I work? I told them that I had been in telecommunications for 30 years which included 14 years in the Navy as a Crypto technician, that I had dealt in many different communications and knew networks. They said they had pulled a SHEET on me and they know I am not a criminal. So we chatted about different things, the Constitution, Federal Reserve and the money system being upside down and that the system appears to be broken. They indicated agreement. They would sneak in questions about me or A.P.F.N., like do I get money for this? I said people send me a little money here and there for the phone bill. Mr. Smith did finally say that they just wanted an "eyeball to

EXHIBIT Y-1

eyeball" to see what I was like. Mr. Smith said "you're just what I expected". I didn't quite know what that meant.

Now I got my licks in like: "I am outraged that Paul Fatta is in jail." Mr. Smith tried to defend this by saying that Paul's charges were brought before the Siege. I told him flatly that was false. Paul was in Waco with Kalani until the sixth of March trying to help with the situation, anyway the TRUTH will come out about that. Mr. Smith said "Kalani knows me, you can use my name." I told him that I had visited with Kalani here and that he is a very informed, bright young man. I told them that the friends on my network would be happy to hear about their visiting me. Mr. Smith said immediately, "we are only interested in firearms". I said again, "I don't have a gun." I think his point is that he preferred I didn't communicate about their visit. I am not sure.

Mr. Smith and Mr. Clark were very nice and respectful. Some place in this area of the visit I stated "Randy Weaver was not a gun dealer. When you diminish the religion of one person you diminish the religion of everybody." I told them I was born and raised Catholic and believe now that any man should have his own choice as to his GOD. Both Mr. Smith and Mr. Clark indicated an agreement. I am glad I had my visit with Mr. Smith and Mr. Clark, I came away with a better feeling and understanding of these fellow Americans. My better judgement tells me maybe I've been "HAD" a little, but naaw, not my government! I wonder, is there a way to get a copy of Mr. Smith's or Mr. Clark's government profile report on our visit this afternoon?

I said, "When I joined the Navy, I swore to uphold the Constitution and I still feel that way." I told them they don't swear to the Constitution, that they swear to a U.N. oath as agents of the A.T.F. Mr. Smith said "I swore to the Constitution when I joined the Army." I said yes, but you compromised that when you became a B.A.T.F. agent. They both looked at me and said NO! I said I have proof and to check it out. I told them they were paid by the I.M.F. We got off this quick and just let it go, but it was said and from C.F.A. reports and other inputs, I can hardly believe these two gentlemen had not been exposed to the large amounts of research in this area. In fact, I know they have to know because I have FAXed the B.A.T.F. / F.B.I. communications compound in WACO Texas during the siege. All of these government workers have friends and associates that must have discussed these subjects with these Americans. What am I missing?

By the time the visit was ending, I have to admit I liked these guys and was happy not being cuffed. They are Americans just like I am, and we said so to each other. I was happy to FAX them the A.P.F.N. welcome message that says, "Don't buy a Gun, buy a FAX". I hope Patriots across the country will visit with your B.A.T.F. officers and discuss each other's concerns.

I wish they would make an appointment next time they come calling. I enjoy living alone. I do not want to live in fear of communicating with friends. I have a great deal of respect for the men and women in this country in law enforcement. I disagree with law enforcement "management and leadership". I think law enforcement should be protecting all of us as citizens. We should not have to live in fear of those whose purpose it is to protect us. The day-to-day law enforcement Americans need to be fully informed, just as the Harris/Weaver jury was fully informed. The message is NO MORE!

Having a wonderful lunch with a friend shortly after my visit with the B.A.T.F. agents, his remarks were "sure they wanted to terrify and intimidate you". I don't feel that and I am glad we had a little "eyeball to eyeball", that's when I do my best work.

By chance, Gary Hunt touched base later in the afternoon. I relayed the message that I thought Mr. Smith would like to speak with him. I gave Gary Mr. Smith's number (702) 388-6584 and Fax: (702) 388-6460. Gary said, "It'll be in contact straight up".

On Thursday, July 8, I received a message from a friend in Florida who advised me that Ken Vardon had been contacted by the Bureau of Alcohol, Tobacco and Firearms (BATF). I then contacted Ken Vardon with American Patriot Fax Network (APFN) and he explained that the BATF had questioned him both about APFN, and it's roll in Patriots communicating, and myself. It seemed that they were only concerned with where I was. Ken gave me the name and number of one of the agents and I assured Ken that I would be in contact with him.

On Friday I was unable to reach Special Agent Richard Smith of the BATF. It seems that shortly after noon he was gone for the day. I tried again on Monday, July 12 and spoke to agent Smith. Smith apologized for the way he was speaking. He explained that he had a mouth full of novocaine (I guess BATF agents are human, too) and was having difficulty speaking. He then explained that there had been an investigation into allegations that I had "illegal firearms". I assured him that I did not. He advised me that the investigation was over and there was no concern on their part. We said good-bye and I made a few checks. I can find no other person besides Ken Vardon who had been contacted by the BATF, and am at a loss to understand why any answers Ken could give them would result in the closing of the investigation. Further, I am still wondering what initiated the investigation in the first place.

Today, Tuesday, I contacted Smith again. His tooth is better, however he is unable to answer any more questions than he was able to answer yesterday. The questions posed were: Who made the allegation that I had illegal firearms? Who was contacted regarding this matter? What caused the investigation to be terminated? It seems that all of these questions fall in the forbidden zone.

He did answer my final question, which was, What must I do to see my file? He gave me the number of the BATF Disclosure Branch, (202) 927-8480, and explained that they handle all Freedom of Information Act (FOIA) and Privacy Act requests, and that I would get reports but that all sources would be blacked out. So much for the right to confront your accuser (*Article VI, Bill of Rights*).

So, as I sit here writing this post a few thoughts come to mind: Will the BATF find out where I am? Will they assume that I have illegal firearms? Are the people I am staying with at risk? Am I at risk? Will they even have a warrant if they come? Why is a foreign agent (*See Public Law 94-564, Bretton Woods Agreements Act, 1976*) investigating an American? Can you really feel secure today in the United States?

So, if any of you have been contacted by the BATF regarding either Ken Vardon or Gary Hunt, Please contact Ken at (702) 369-9841. And, if the BATF is reading this, please ignore the phone number at the top of this post! Thank You!

A Friend read me a FAX he had received from someone on a computer bulletin board. It referred to an event that occurred on, I think, April 6. The event was a number of people who had come from Dallas and from San Antonio to show their support for Justice in Waco. The event began with a number of people gathering at checkpoint, at FM 2491, manned by BATF, State Troopers and McLennan County Sheriff Deputies, expressing their sentiments and just plain talking with the people on the other side (of the barricades). Richard Donaldson, from Dallas area, suggested that what had originally been planned for March 7, when I first arrived in Waco, might be appropriate now. What had been planned was an effort to intervene between the Mt. Carmel Center and the BATF, which, when facing rifles when you are unarmed, didn't seem to fit just right back in March.

Flyers that had been left over from March were used to provide instructions in the event the individuals gathered chose to enter the property. The fact that the flyers were being handed out at the barricades indicated that we knew that the BATF was aware of our plans, however it was felt that it would be a good show to cause all of the uniformed types to scramble over nearly ten miles to "fortify" the position on Frasier Lane. Frasier line is a dirt road a couple of miles East of the center, and is fed only two ways. By the time there were maybe 80 or 100 people, both sides, the State Troopers managed to barricade both entries into the area. BATF had stationed themselves about 50 yards inside of the fence that separated some rolling pastureland with clusters of trees from the Justice Seekers congregated upon a fairly small portion of the dirt road which was about a mile from an intersection where one of the original barricades to the Branch Davidian property was. There were also Sheriff Deputies and State Troopers along the roadway. It was determined to be rather risky to attempt entry, so the participants began, in a very organized manner, to string themselves out over nearly a mile of road, forcing the BATF into braking their three man units into singles that were stretched nearly 100 yards apart. Troopers and Sheriffs jumped the fence to "fortify" the perimeter.

And, generally, a good time was had by all. Many engaged in conversation with BATF, Troopers and Sheriffs as the assemblies broke up. Problem is that at the time I didn't realize I was leading many into a trap, as mentioned in the FAX that I have referred to.

It seems that some rifts have begun to develop amongst the patriot around the country. They are busy deciding who is right, and who is wrong! Sometimes it seems that more time is spent in these efforts than in dealing with the problems we know to exist. Almost as if we were puppets on a string, being controlled by government, with the intention of detracting from our chosen purpose, drawing us from our design.

Something has happened in this country lately. There is a spirit coming back around after probably two hundred years that is beginning to understand that the promises of "government of the people" and the Constitution and Republic, for which it stands, that is growing every day. The indictment of government that has been so well displayed in the courtrooms of Idaho, and the knowledge that is coming out constantly about the actions of government in Waco, is causing many to understand that government has not been able to manage itself, therefore, must be managed by us.

We are facing an awesome task in restoring what never should have been lost in the first place. Will we be able to accomplish this when we allow individuals to make accusations about fellow patriots when there is no substantiation to the claims? Can we allow a single person to cause foment in the movement to be more destructive than anything the enemy has done? We all know the enemy is the Money Merchant and the objective is the reestablishment of the Constitutional Republic bequeathed to us by the Founding Fathers. Follow the course of those you choose to follow, but let us not get in to criticizing the course of others when they are not consistent with ours. All courses lead to the same goal, and until we are in a position to establish a means to judge false these claims, we must not make a habit of judging them.

## STATEMENT

*Statement by Linda C. Lyon, transcribed from a phone conversation on February 24, 1994.*

It has come to my attention that a woman named Linda Thompson, of the American Justice Federation, who presents herself as a patriot and defender of justice, has, since the tragedy in Waco, been making herself available to radio and TV talk shows, to intentionally destroy the character of well known patriot community leaders, particularly Gary Hunt. I consider my very good friend, Gary, who is also good friend to my husband, George Sibley, to have been unusually patient in dealing with the slanderous comments made by Ms. Thompson against him. But, now, as if destroying people she has met, and thinks she knows, is not enough, she has begun defiling the characters of people she has never met, and I have, apparently, become her latest victim.

In a recent publication she has stated that Gary Hunt and I have been traveling the country together since early October, and that we were seen together in a restaurant in Waco. The implication here is that Gary and I have a more than friend relationship.

Ms. Thompson has proven herself to be totally unreliable in her statements, for I have been in Alabama, since late September, with my husband and son. To imply that my friend, Gary, and I are having an improper relationship has proven Ms. Thompson to be the vilest of rumor mongers, a slanderer, an outright liar and proven herself incompetent in researching her own work. She has defiled my good name by presuming I would dishonor my husband, whom I love totally. She has defiled Gary Hunt's good name by presuming he is capable of stealing a friend's wife. But, beyond that, her lies have hurt thousands of patriots who know and respect Gary, my husband, George, and me. Ms. Thompson has gone too far. If she does not print a retraction and an apology for this libel she will find herself facing serious legal trouble. But, more importantly, the patriot community must stop listening to such people as Ms. Thompson, who are working diligently to divide the patriot community and destroy any effectiveness we have against the massive corruption in government.

God help America, and protect her against enemies like Ms. Thompson.

Many newspaper, radio and television articles tend to represent the Paugeesukq tribe as a single entity. Chief Moonface Bear has been associated with an "illegal land grab" via the courts. Chief Moonface Bear is not a party to any "illegal land grabs". He has expressed to me that if the tribe were to attempt to expand their Reservation property they would do so by purchase, and then incorporate the land into the reservation status.

The Chiefs brother, Quiet Hawk, who has executed a contract with Impression Delivery Corp., through it's unit, Native American Game Productions, Inc., has initiated the land grab without tribal authority. Quiet Hawk has no support for his venture from any other tribal members than his father, Big Eagle.

From "Felix S. Cohen's Handbook of Federal Indian Law", 1982 Edition, we find that tribal policy is "consensus oriented" and decisions are "open to all adults." This position, and the authority under Federal Law are well established.

Chief Moonface Bear is supported by other tribal members in his activities to raise revenues by honest retail sales. He intends to expand the economic development program in the future, perhaps with bingo and other enterprises common to other native American reservations.

In a letter written to the Mayors of Orange and Shelton, Connecticut, Three members of the tribal council expressed their position that the Paugeesukq tribe was not party to the lawsuits that were initiated by Quiet Hawk with the help of Impression Delivery Corp.

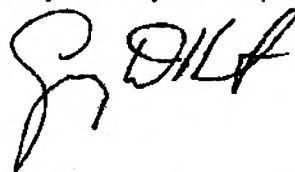

So, to clarify the status of the Paugeesukq Indian tribe, the tribe has not resorted to "illegal land grabs", as has been implied by many of the media. Their enterprise is one of integrity. The lawsuit has been brought by individuals claiming authority which is not recognized by Federal Law, and should not be recognized by State Law.

If opinions regarding the situation here in Golden Hill Paugeesukq Reservation in Colchester, Connecticut are based upon an association with the "illegal land grabs", then reconsideration should be made based upon the information presented here.

A further thought - If Federal Law establishes the legitimacy of the Golden Hill Paugeesukq as governed by virtue of the law, then the "illegal land grab" currently going on in State court would be quashed by the simple acknowledgement of the true authority of the Paugeesukq. The hardships suffered by hundreds of land owners as a result of the suit would become non-existent if the State and Federal authorities would recognize the Laws of the land.

Is there a reason for the denial of Chief Moonface Bear as the lawful leader of a sovereign nation? Citizens of Connecticut, and other interested parties, if you feel that the governor is serving himself rather than the best interest of the state, why don't you drop him a fax and express your sentiments?

Today there was a battle. It was not the kind that you might expect under the circumstances, it was an unexpected battle that was begun by the State Police, and was won by all.

Today there was a rally. Some of the fine supporters from the community had felt that a show of support for the Indians was in order. They planned the event, and the press was also in attendance.

I had been talking with Sgt. Terenzi (#130) who appeared to be in charge of the State Police contingent assigned to the entrance to the Reservation. Dan Charging Horse was helping his wife, Tina prepare for a Fire Spirit Dance, as is traditional. One of the officers on duty across the street from the entrance had decided that "peeping" at Dan helping Tina dress was the thing to do. He probably felt that since he was using binoculars in an "official" capacity he could do anything that he wanted - above the law, so to speak. However, he was observed and Spirit chose to confront the officer, who would not affirm or deny the allegations. I missed this event, however had returned to speak, again, with Sgt. Terenzi when Spirit came up, accompanied by Tina to explain that the other officers' activities had dishonored her and her husband, in the tradition of the Indians. The Sgt. attempted to evade the issue, and the officer responsible smiled smugly, assuming that his position protected him from the law, and human decency.

No apologies were forthcoming from any of the officers, so Tina and Spirit returned to the Reservation, while I continued speaking with Terenzi. I suggested that there was no justice when law enforcement types acted with impunity while any other peeping tom would be arrested for his activities. I mentioned other situations where officers were treated differently than people which seemed to cause a defense position with regard to the United States justice system. Their lack of concern for the people, as opposed to officers, was enough to irritate me to the point that I had to return to the Reservation myself. I was afraid of the anger that was building up in me.

About ten minutes later Spirit and I decided that the story must be told, so he returned to the officers to get the name of the offending officer. When he returned he told me that the offending officer had been removed from the line, and would not be returning. We thought this a desirable situation and were pleased with the small degree of success in the matter. A battle won? Perhaps!

Later Tina and Spirit returned to the officers whereupon Sgt. Terenzi offered his very sincere apologies, and understanding more of the traditions of the Indians, even offered a cigarette of tobacco with the apology. Tina returned to the Reservation and offered the tobacco, through the sacred fire, to the spirits.

The battle was finally over - the winners were counted on both sides. Tina and Dan excused the one officer his misdeeds as a result of the humanity of the other (Sgt. Terenzi). Sgt. Terenzi won a battle over the conditioning imposed upon him by the system that has turned the servants against the masters. He has, you could say, become a human and is willing to treat others with dignity and respect their beliefs. Those others within the Reservation see that good things can happen even when the circumstances themselves lack any sense of justice. The true Americans around the country win with the knowledge that those in law enforcement are capable of change, and Lowell Weicker, Governor of Connecticut, if he chooses, has won by understanding that talking can resolve problems far better than guns.

Not the first battle (of other than combatative nature, in this war, but a significant Victory for all involved. A chance for the fulfillment of many who have hope for peace in this matter, and a reversal of the practice of domination currently practiced by government.

I've been thinking about things that I have learned in studying the history of the country these past few days. Not the early history, but the recent history, say back in the thirties. Occasionally articles appear reminiscing of the times, and books are available that give accounts of such matters.

Of course if you were charged with a capital, or otherwise serious offense, exception might be made, but those charged with lesser offenses, some verging almost on civil in nature, were served with a Notice to Appear, unless, of course, you were a vagrant and more likely to move on than to stand before justice.

So, what has happened that warrants the state insisting upon the incarceration of any person charged with a crime? Perhaps it is justified as a means of creating a demand for more jails. Perhaps it is necessary to get all criminals, even those whose crime are without victim, behind bars for the protection of the public. They may be more reasons, however I have chosen to speculate that the real reason is to create an appearance of guilt prior to trial.

We have all read, recently, of prosecuting attorneys who fabricate, and/or withhold, evidence. Even with these little tricks of the trade they are pursuing even greater conviction rates. Obviously pictures of those charged being "apprehended, handcuffed and carried of to jail would be very significant in creating a pre-judgement in the minds of those that might be called to jury duty to determine "justice" in the matter.

So, I decided to put the issue to a test. I asked War Chief, Moonface Bear if he would appear, as ordered, if the arrest warrant were dismissed and a Notice to Appear were issued for him to stand before a jury of his peers to have justice served. His answer, "That would be a blessing from God."

Chief Moonface Bear has been a member of this community for quite some time. He is established, and respected, in the community, has family and friends, and would have no reason at all to refuse to appear.

So, the challenge is to Governor Lowell Weicker to consider if justice, by any means, is more important than fairness in the pursuit of justice. If the desire of all, as they profess, is to make a judicial determination, rather than an executive decision, as to the existence of a crime, let the court, not the Police, make that determination.

*"For it is a truth, which the experience of ages has attested, that the people are commonly most in danger when the means of injuring their rights are in the possession of those whom they entertain the least suspicion."*

Back in 1918 the American Bar Association incorporated. The ABA is a subsidiary of the Lawyers Guild of England. The format in legal matters prior to this time had been "Accuser" verses "Accused". Since then they have been known as "Plaintiff" and "Defendant".

Just think about it, in the past you were accused, and the burden of proof was on the accuser, which was consistent with the wording in the 6th amendment to the Constitution for the United States of America. Now you have, if accused, become the "Defendant". The first step is to secure a BAR attorney (member of the ABA) who says that he will need substantial funds to prepare "your defense". Now, isn't there a presumption of guilt when you must "Defend" yourself? Has this subtle change in wording had a significant effect on the administration of justice in this country? Do we assume that the Defendant is guilty and must then prove his innocence?

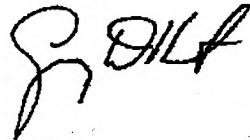

Chief Moonface Bear has been "accused" of violating state law by failing to acquire a franchise from the state, and for failure to collect a tax as the franchisee. The system is not willing to accept that he is merely accused of a crime, from which the burden, in the courts, is upon the state to show that the laws actually apply to the individual and the location (jurisdiction) and then the prove that the person did, in fact, violate the laws.

So, the gallant governor of Connecticut, Lowell Weicker, has determined that there is jurisdiction, even though there are acknowledge grey areas in the laws of Connecticut, and that Chief Moonface Bear did, in fact, violate those laws. Proof of the pre-judgement exists in the fact that an arrest warrant has been issued that would incarcerate Moonface until such time as the judicial process plods into this case to make the determination of innocence, or guilt.

If, after that time, there is a determination of innocence, what provision in the law will make "just" the days lost by Moonface. There will have been "punishment" prior to judgement because the executive, who is a member of the ABA, has chosen to make the Chief a "Defendant" rather than the accused. There is no blatant and outright crime, such as a bank robbery or murder involved with this issue. There is a very grey area in the law, which, when addressed by the Task Force on Indian Affairs, was determined to be one that must be resolved between the executive and the Indian tribe, not by the judiciary.

If Moonface Bear were accused, rather than defending, would there be more room for the executive and the accused to comply with the recommendation of the Task Force, rather than one, only, being treated like a common criminal?

James Madison said it well in Federalist Paper #51 when he said that, "*Justice is the end of government. It is the end of civil society. It ever has been and ever will be pursued until it be obtained, or until liberty be lost in the pursuit.*" If the liberty of any man is lost in the alleged pursuit of justice, then perhaps liberty has been lost as well.

Thanks to Carl.

Today's news reported that there are two factions of Golden Hill Paugeesukq Indians. Quiet Hawk proclaims himself Chief and has filed the Land Claims against significant portions of land in Connecticut, which was the object of a recent 20/20 program. On the other hand we have Moonface Bear, War Chief of the Golden Hill Paugeesukq Tribe. This is all a result of the failure of the press to verify news releases prior to dissemination to the public.

To determine who represents the Tribe we must look to Connecticut LAND AND LAND TITLES, Title 47, Chapter 824, which, in § 47-59(b), which states; "*The state of Connecticut further recognizes that the indigenous tribes, . . . Golden Hills Paugussett are self-governing entities possessing powers and duties over tribal members and reservations. Such powers and duties include the power to: . . . (5) determine tribal leadership in accordance with tribal practice and usage.*" Now, we have established that there is authority within the laws of Connecticut, how do we determine what method is used establish authority under the "self-governing" clause?

We can start by looking at "Felix S. Cohen's Handbook of Federal Indian Law", 1982 Edition. There we find that tribal policy is "*consensus oriented*" and decisions are "*open to all adults.*" We don't look to television and movies to some abstract application but rather to what the Tribe determines through their council.

Now that we have the means, let us put some pieces together and see if we can come to any conclusions. First we have a document passing the authority of Clan Mother to Belinda T. Smith, dated May 28, 1993 and signed by Ruth Morning Star Piper Maxwell, who transferred her hereditary rights to the position to Belinda Smith. Next we have a document dated June 9, 1993, in which Clan Mother Belinda Smith affirms the appointment of Moonface Bear as Warrior Chief, and transfers all authority away from Chief Quiet Hawk and Chief Big Eagle until such time as they display their willingness to work with the Tribal Government Committee. Then, we have a tribal Action Summary from the Golden Hill Paugeesukq Nation, Tribal Government Committee, reporting on the meeting of August 8, 1993, in which the Committee reaffirms the leadership of the Tribe by Moonface Bear, Warren E. Farrar and R. Mike Smith, who shall continue to represent the interests of the Tribe, and, which also reaffirms Moonface Bear as War Chief and full tribal member.

Even prior to the above the issue had come up and the then Attorney General, Clarine Nardi Riddle, indicated that the state could not become involved in the issue of proper authority of the Tribe. She deferred the decision to the tribal council. So, there is no question as to who the leadership of the Golden Hill Paugeesukq Nation is.

### GOLDEN HILL PAUGEESUKQ UPDATE

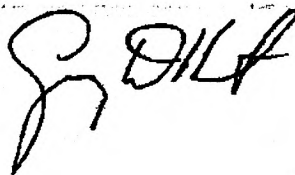

On November 8, 1993 Chief Moonface Bear of the Golden Hill Paugeesukq Indians turned himself over to a lone State Trooper, was taken to the Troop "K" barracks, arraigned, posted bail and then released.

On August 21, I reported to you about a Trooper, Sgt. Terenzi, who, unlike the others stationed around the Reservation, had begun to see that the Indians were human, that they had pride and were worthy of respect. Moonface chose to call Terenzi to make the "arrest". The Chief, and Spirit, another Indian who was very helpful in getting me oriented to the Reservation, and the ways of the Indians, accompanied the Chief, who was taken without handcuffs, to the arraignment. After the paperwork was completed, Spirit and the Chief stopped at Family Pizza, much to the surprise of many who knew that he was a "wanted man." This was the Chiefs first legal relief from reservation life since last July when the warrant was issued. He is now a frequent visitor off reservation, and has become extremely difficult, and easy task just recently, to reach by telephone.

Some wonder why the Chief was willing to turn himself in after all this time. The answer will show that victory can be had by patriots, or Indians, working against a corrupt system, with the willingness to fight the battle with whatever resources are available, and necessary.

The October 30th Outpost of Freedom indicated where the state stood in the issuance of the warrant. It was issued for the arrest of Moonface Bear as an individual, because the state did not recognize him as the leader of the Tribe. They chose, instead, to support the contention that Quiet Hawk was the leader, therefore Moonface could not be working under authority from the Tribal Council, a bad decision on their part. On October 28th we reported that the Superior Court had dismissed the "illegal land claim" because they recognized Moonface as the leader of the Golden Hill Paugeesukq Tribe. Governor Weicker and State Attorney Satti were in error in their assumption. The Superior Court has spoken, and I'm sure left a little red on the faces of those state executives who "took the law into their own hands." The hoopla and flag waving they had anticipated, after spending \$465,000 in attempting to arrest Moonface was wasted, as we have suggested all along. The tables are turned, and when Moonface appears in court he will not have to establish the fact that he speaks for, and represents, the Golden Hill Paugeesukq. Now the issue will be dealing with the legitimacy of the state's claim that the Tribe is not sovereign, and has no right to act as such, and whether the Governor can be bound to comply with the 1990 enactment that requires a Trust Agreement to deal with these issues.

This current circumstance was able to occur only because the Indians chose defiance, peacefully, unless provoked, to assert themselves and their cause. Patriots should take a lesson that the willingness to fight, and to die, if necessary, when a position must be held, is an effective means of forcing the confrontation into mediation. The failure of the government to win by intimidation has caused reason to prevail. Justice was not served at the point of a gun, rather, by the point of a gun!

The Mohawk Warriors have made an appeal to the International Community regarding the situation here at Golden Hill Paugeesukq Reservation. The appeal refers to a pre-European agreement between the tribes of the Six Nations wherein the Paugeesukq tribe came under the responsibility of the Mohawk for protection. This agreement has never been abrogated in any way, shape or form, nor was it challenged by the United States when they signed treaties with the Six Nations. Although the agreement is older than the occupation of North America by white man, it has stood the test of time, and is a matter of sacred honor to all Indians bound by the agreement.

How does this, then, fall in context with the current situation? To understand the legitimacy of the proposed assistance we need simply refer to Canandaigua Treaty 7, Statute 44, Article VII, which states;

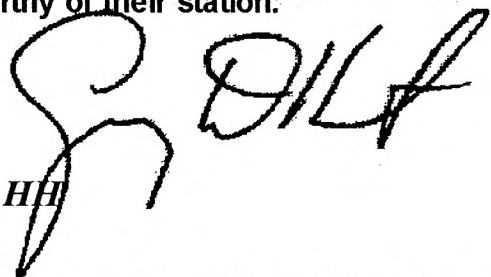

"Lest the firm peace and friendship now established be interrupted by the misconduct of individuals, the United States and Six Nations agree, that for injuries done by individuals on either side, no private revenge or retaliation shall take place; but, instead thereof, complaint shall be made by the party injured, to the other: By the Six Nations or any of them, to the President of the United States, or the Superintendent by him appointed: and by the Superintendent, or other person appointed by the President, to the principal chiefs of the Six Nations, or of the nation to which the offender belongs: and such prudent measures shall then be pursued as shall be necessary to preserve our peace and friendship unbroken; until the legislature (or great council) of the United States shall make other equitable provision for the purpose.

This treaty also confirms the relationship of the unnamed tribes with the Six Nations when it states, *"the Six Nations and of their Indian friends united with them as aforesaid, as do or shall reside within the boundaries of the United States: For the United States do not interfere with nations, tribes or families, of Indians elsewhere resident."*

Yesterday we sent out a copy of a letter, dated August 25, 1993, that was sent to Bill Clinton, President of the United States from Moonface Bear, War Chief, Golden Hill Paugeesukq Nation. This letter satisfies the requirements of the "complaint" as mentioned in 7 Stat 44. If the United States is still willing to acknowledge the Constitution as the supreme Law of the land, then it must also recognize the demands set forth in the complaint as supreme Law in accordance with Article VI, clause 2 of the Constitution for the United States of America.

**We here on the Golden Hill Paugeesukq Reservation wait, patiently, for a response from the executive whose job it is to enforce the Constitution. A true test of whether the honor of the United States is worthy of the respect of its people is its willingness to abide by its contract (Constitution). I hope that every eye in America is watching this test of that honor to see if those whom we elect to represent us are worthy of their station.**

Tonight there was a meeting between Neighborhood homeowners and the Paugeesukq (tribal spelling, which we shall use from now on). The residents have been concerned about the standoff, the many and frequent State Police patrols and the armed Indians. The meeting was an effort on the part of the Indians to alleviate the concerns of their neighbors.

During the meeting Chief Moonface Bear provided copies of Connecticut LAND AND LAND TITLES, Title 47, Chapter 824, which, in § 47-59(b), which states; "The state of Connecticut further recognizes that the indigenous tribes, . . . Golden Hills Paugussett are self-governing entities possessing powers and duties over tribal members and reservations. Such powers and duties include the power to: . . . (3) regulate trade and commerce on the reservation; . . ." Later, in the same Title under definition of "Indian" there is included "Golden Hills Paugussett tribe, and, under "reservation", are mentioned both the Trumbull and Colchester reservations.

The state alleges that if there is no specific law granting the Indians the right to sell cigarettes on the reservation, to non-Indian people, there is no right conveyed by the above mentioned Title. They state that the grant must be specific and cannot be implied under the "trade and commerce" provision, this in a letter from C. Robert Satti, Sr., State's Attorney, dated June 2, 1993.

Chief Moonface Bear has sought, since April, 1993, to cause the state to negotiate a "trust agreement" in accordance with the provisions of a "Report to General Assembly, Legislative Task Force On Indian Affairs, dated February 1990. The state has failed to enter into negotiations with the Indians in order to establish the trust agreement. The Chief has used the sale of cigarettes to force the issue so that his tribe can develop self-sufficiency, which cannot be accomplished until the trust agreement is in place.

The bottom line appears to be that the Indians have been willing to negotiate since April. The state has not expressed its willingness to negotiate the trust agreement, and appears to be intent upon arbitrary settlement of any issue arising from the activities of the tribe.

Many have come to the aid of the Indians by supporting their efforts, providing food and provisions for the force that is holding and protecting the tribal lands, and offering encouragement in many ways. One of the attendees at the meeting this evening, after hearing all that was offered, stated, "I don't think you are the problem. They are the problem." obviously referring to the Governor, the State's Attorney and the State Police.

Many have called me since I arrived at Golden Hills and asked how they could help. I would suggest that those of you who can see that government has once again taken an arbitrary position that is not necessarily in the best interest of the people of the state might find that your fax machine is a swift and capable means of directing your sentiments in this matter to Governor Lowell Weicker, Governor of the state of Connecticut. His fax number is **(203) 566-4677**. I'm sure that the Governor would be glad to hear what others across this great nation feel about his relationship to the people, all people, of his state and the nation.

"CONGRESS SHALL MAKE NO LAW RESPECTING AN ESTABLISHMENT OF RELIGION, OR PROHIBITING THE FREE EXERCISE THEREOF; OR ABRIDGING THE FREEDOM OF SPEECH, OR OF THE PRESS; OR THE RIGHT OF THE PEOPLE PEACEABLY TO ASSEMBLE, AND TO PETITION THE GOVERNMENT FOR A REDRESS OF GRIEVANCES", READS THE FIRST AMENDMENT TO THE CONSTITUTION. THIS AMENDMENT BEING FIRST WAS NOT AN ACCIDENT, THE FUNDAMENTAL RIGHTS PROTECTED BY THE FIRST ARE CONSIDERED THE MOST SACRED FOR THEY DEAL WITH EVERYDAY CIRCUMSTANCES THAT AFFECT VIRTUALLY ALL AMERICANS.

WELCOME TO WACO, TEXAS, WHERE PEACEABLE ASSEMBLY HAS BEEN DISTURBED BY GLARING LIGHTS AND LOUD MUSIC, MUSIC WHICH IN SOME CASES HAS A THEME RELIGIOUSLY CONTRARY TO THOSE TO WHOM IT IS DIRECTED. THESE PEOPLE ARE ALSO BEING DENIED THE FUNDAMENTAL RIGHT OF SPEECH. THEY ARE UNABLE TO SEND OUT COMMUNICATIONS, RADIO STATIONS HAVE BEEN THREATENED FOR ATTEMPTING TO GET MESSAGES OUT FROM THE COMPLEX. THE ONLY WORD THAT DOES GET OUT IS FILTERED BY THAT VERY DIRTY FILTER KNOWN AS THE FBI MORNING PRESS CONFERENCE.

WHAT OF THIS PRESS THAT IS REPORTING THE NEWS FROM THE MORNING CONFERENCES? THUS FAR AT LEAST TWO PEOPLE HAVE BEEN BARRED FROM THE CONFERENCES. THE FIRST WAS LEVIS BEAM, FORMER KKK MEMBER, WHO, UNDER CREDENTIALS FROM A RELIGIOUS NEWSPAPER, POSED A QUESTION THAT MAY HAVE BEEN A BIT EMBARRASSING. THE QUESTION WAS WHETHER THE GESTAPO TYPE TACTICS USED IN THE INITIAL ASSAULT WERE INDICATIVE OF THE IMPOSITION OF A POLICE STATE IN AMERICA. MR. BEAM WAS ESCORTED FROM THE CONFERENCE NEVER TO RETURN.

I HAD BEEN ATTENDING THE CONFERENCES FOR A FEW DAYS WHEN I WAS BARRED, TAKEN ASIDE AND QUESTIONED AS TO THE LEGITIMACY OF MY CREDENTIALS. I ANSWERED QUESTIONS ABOUT MY NEWSPAPER, "OUTPOST OF FREEDOM", AND WAS FINALLY ALLOWED TO ENTER THE CONFERENCE. I WAS TOLD THAT THE QUESTIONING WAS A RESULT OF A DISTURBANCE THAT HAD OCCURRED AT THE FEDERAL COURTHOUSE A FEW DAYS BEFORE. THAT DISTURBANCE WAS THE RESULT OF THE FBI DETAINING ME WHILE I WAS IN THE CLERK OF THE COURT'S OFFICE. I DID NOT START THE DISTURBANCE, BUT DID PARTICIPATE SINCE I WAS BEING DETAINED WHEN THE FBI AGREED THAT I HAD BROKEN NO LAWS. IT DID, HOWEVER, APPEAR THAT

THERE WAS A DETERMINATION THAT MY CREDENTIALS WERE LEGITIMATE AND THAT I WOULD BE ALLOWED ACCESS TO THE CONFERENCES IN THE FUTURE.

SATURDAY I DID NOT ATTEND THE CONFERENCE, HOWEVER THERE WAS ANOTHER DISTURBANCE THAT EVENING WHEN I WENT TO THE PRESS SITE NEAR THE CHURCH COMPLEX. I WAS WITH TWO MEMBERS OF THE ASSOCIATED EEELECTRONIC NEWS OF INDIANAPOLIS, INDIANA, AND WAS USING A PRESS PASS ISSUED BY THEM. WE HAD NO TROUBLE ENTERING THE AREA, HOWEVER UPON LEAVING THE AREA WE WERE DETAINED, AT GUNPOINT, BY BATF AND STATE TROOPERS UNTIL THE FBI ARRIVED AND INTERROGATED EACH OF US. THEY THEN RETAINED OUR "FALSIFIED" PRESS CREDENTIALS, WHATEVER THAT IS, AND LET US OUT OF WHERE WE SHOULD NEVER HAVE BEEN IN.

SUNDAY, WHEN I ATTEMPTED TO ENTER THE PRESS CONFERENCE, I WAS AGAIN BARRED FROM ENTRY. I ASKED TO SPEAK TO THE PERSON WHO HAD MADE THIS DECISION AND WAS GIVEN THE PHONE NUMBER OF THE FBI IN WASHINGTON, D.C. ON MONDAY I CONTACTED THE D.C. OFFICE AND WAS DIRECTED TO THE SAN ANTONIO OFFICE. MR. JOE HANLEY, OF THE SAN ANTONIO OFFICE, UPON HEARING THE STORY INDICATED THAT I SHOULD NOT BE BARRED FROM THE CONFERENCES. HE SAID THAT HE WOULD CONTACT THE WACO PEOPLE AND WOULD GET BACK TO ME. I HAVE YET TO HEAR FROM MR. HANLEY.

ON TUESDAY, I WAS ACCOMPANIED BY MR. DICK REAVIS OF THE DALLAS OBSERVER. AT THE CONFERENCE I WAS AGAIN DENIED ACCESS. MR. REAVIS WAS ALMOST DENIED ACCESS AS A RESULT OF THE FBI ASSOCIATING HIM WITH ME. HE WAS ABLE TO REPORT, AFTER THE CONFERENCE, THAT HE HAD BEEN UNABLE TO FIND ANY OTHER MEMBER OF THE PRESS THAT CARED WHETHER ANOTHER MEMBER, MYSELF, WAS BEING DENIED ACCESS. PERHAPS THEY ARE PART OF AN ELITE CLASS SUCH AS THOSE THAT RULE THIS COUNTRY, AND LOOK DOWN UPON THE REST OF US AS A SORT OF SCUM THAT MUST BE TOLERATED. INTERESTINGLY, THESE ARE THE SAME PEOPLE THAT APPEAR TO BE STENOGRAPHERS FOR THE GOVERNMENT. REGARDLESS OF THE NATURE OF THE QUESTIONS POSED BY SMALLER, OR FOREIGN, PRESS, THEY TEND TO FOLLOW THE LEAD OF THE FBI AND ASSURE US THAT WE WILL KNOW WHAT COLOR THE CAR WAS THAT REMOVED CHURCH MEMBERS FROM THE COMPLEX.

YESTERDAY I WAS FINALLY ABLE TO MEET A PERSON CLOSE TO THOSE THAT HAVE MADE THE DECISION TO BAR ME. PREVIOUSLY, I HAD DEALT WITH MELISSA SIMMS, OF THE WACO POLICE DEPARTMENT.

WHO HAD BEEN ABLE TO TELL ME NOTHING MORE THAN THAT I COULD NOT GO IN CAUSE THE FBI SAID SO. BOTH RANDY D. PARSONS AND CARLOS HERNANDES, SUPERVISORY SPECIAL AGENTS, WHATEVER THAT IS, POSED A NUMBER OF QUESTIONS. I WAS ASKED IF I WAS LEGITIMATE PRESS, TO WHICH I RESPONDED, WHAT IS LEGITIMATE PRESS. I WAS ASKED WHERE I GOT MY PASS AND EXPLAINED THAT I GOT MINE THE SAME PLACE THAT NBC GOT THEIRS, I MADE IT. THEY ASKED IF I WOULD BE ON THEIR LIST (PRESUMABLY A NATIONAL PRESS ASSOCIATION) AND I EXPLAINED THAT I HAD NOT JOINED ANY PRESS ORGANIZATIONS, THEN ASKED IF IT WAS REQUIRED TO BE LEGITIMATE PRESS. THEY ANSWERED NO, IT WAS NOT NECESSARY. IT APPEARED THAT THEY WERE ATTEMPTING TO FIND SOME MEANS OF REJECTING ME AS NOT LEGITIMATE PRESS. SO, WHAT AM I GETTING AT?

THROUGH THE HISTORY OF OUR COUNTRY THE PRESS HAS ALWAYS DEFENDED THE RIGHT TO GATHER NEWS WITHOUT GOVERNMENT INTERVENTION OR LICENSING. IT HAS BEEN HELD THAT THE FIRST AMENDMENT HAS PROVIDED THAT NO LAW (LAW ENFORCEMENT AGENCY) MAY BE MADE THAT WOULD ABRIDGE THAT RIGHT. IT ALSO APPEARS THAT, HERE IN WACO, THIS FUNDAMENTAL RIGHT IS GOING TO BE TRASHED, AS HAVE SO MANY OTHERS THESE PAST FEW WEEKS.

WE WILL SEE, THE TWO FBI AGENTS WERE SUPPOSED TO GET BACK WITH ME YESTERDAY, HOWEVER FROM MY EXPERIENCE I WILL HAVE TO FIND THEM TO SEE IF THEY HAVE FOUND ANOTHER MEANS OF BARRING ME FROM THE CONFERENCES. SO MUCH FOR REDRESS OF GRIEVANCES!

URGENT - UPDATE - URGENT

Time permitting, I will; be posting another Fax this evening - However, It seems important, at this moment, to bring you some information about the occurrences today here in sunny Connecticut.

At about 3:30 this afternoon a helicopter (HU-1D) which appeared to have State Police markings, flew around the Reservation at various altitudes. The helicopter had camera apparatus attached to the rear. The passes were obviously reconnaissance in nature. This is the first time that an obvious aerial recon has been observed since the encirclement began. Other movements appeared to be a bit different than the normal routine, however ground activity was less, apparently, menacing than previous activity.

So, we are having a picnic and all are invited!! Those of you that may live in the vicinity and want to take a few days of and bask in the hospitality of the Paugussett Indians are welcome to come on by. Bring your shootin' iron and just maybe there will be some target practice. Bring plenty of bullets so you can go for the big prize.

Now, we are pretty sure that we are going to have this picnic, but would not yet recommend that you go searching for a new line of work unless you are just plain dissatisfied with your old job. But, if you have the time, please come, and come prepared for what you may have been expecting.

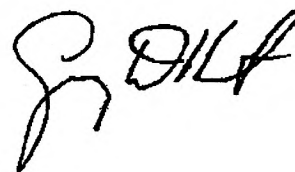

If the party turns out to be a sure thing, I will post as many invitations as time allows. If you receive one of the special invitations, please pass on a copy to as many as possible, as quickly as possible, and come prepared for the big gala.

By the way, we have found "bouncers" at previous events. They have been harmless, to date - but, this is no guarantee that they will continue to be so.

Directions are: North or South on Interstate 91 to Meriden; Exit at Meriden - East (you will be on Main Street); to Highway 66, East on 66 to Middletown; Left on Main Street in Middletown (you are still on 66) to Route 16; Right on 16 to East Hampton then on to Colchester to 85 South (right); Then Left on 354 to Stanavage; Left on Stanavage (this is where we may encounter bouncers) less than a mile to the reservation on the Left.

Visitors Welcome - URGENTLY!!!

The incidents that occurred on, and over, the sovereign tribal lands of the Golden Hills Paugussett Indians last night will have a lasting image upon me. There is no doubt that a lot of tension was created when one helicopter made two trips consisting of many passes over the reservation, and a second chopper made one trip with the same objective. Both choppers were completely void of any of the required (by FAA) nighttime safety lighting of beacons, strobes and markers. The affect, initially, was to generate concern as well as arouse many of the neighbors who called police to report the flights. I contacted the FAA in Windsor Park and reported the violation (confirmed to be a serious offense by the FAA). The incident was reported to local press by both the Indians and the neighbors. One television station was even able to capture, on video, footage of the helicopters flying without safety lighting. The Indians intend to pursue the matter until the proper persons are appropriately disciplined for their actions. Laws are for everybody, aren't they?

Ultimately Governor Lowell Weicker is responsible for the activities of his subordinates in all actions involved with the enforcement of his edict to deny the Indians their sovereign status, as declared in numerous treaties and federal statutes. This gross violation of the law for the purpose of intimidation is indicative of an emperor gone mad!

Two of the many supporters from the local community left the reservation at about 11:30 last evening. These two ladies were followed by two State Trooper vehicles all the way home. I suppose who could consider this the first effort at protecting, as in "to serve and protect", since the fifties when it, apparently, became unfashionable for law enforcement (was Peace Officers) to become involved in "service and protection". Just think, these two ladies have received a privilege denied to most nowadays. But, back to the point - while driving through Colchester these two ladies observed an estimated 45-50 law enforcement vehicles parked at the old high school. They stopped, still under escort, and called the reservation to inform of this matter. The Buffalo Horse received the message and chose to reduce the number to, perhaps, thirty vehicles, assuming a bit of exaggerating. A while later one of the local TV stations called to inform the Indians that there were approximately **50** vehicles parked at the old high school and that the helicopters had been taking off, and landing, at a nearby helipad. They were one of those that has confirmed the "lightless" helicopters flying in the vicinity.

The most impressive actions during the entire insane display of power by the representatives of state government was the calm of the 32 Indians currently defending their tribal lands. Those in secured sleeping quarters were informed of the increase in caution predicated by these acts, and calmly return to sleep to await their shift on guard, or patrol, duty. I suppose that they have become used to these "games", however their calm in dealing with these efforts by government to invoke life threatening fears seems to have just about no effect on the Indians, save slight increases in security.

*Open invitation to the picnic. No reservations necessary!*

## **FREETHINKING**

I had a rather interesting experience this past Saturday. I had attended a talk in Winter Park, Florida, my home town of over twenty years. The speaker was someone I had met in Waco, and have since wondered what I had done to be the recipient of a call from her last March.

It began on March 13 when I received a call. I had acquired the Power of Attorney from David Koresh as a result of the efforts of two fine Americans from Dallas. Ron Engleman hosted a talk show on station KGBS, and Ken Fawcett, who we referred to as "the video man" until I finally met him face to face, collector of satellite tv footage feeds from day one of the now famous siege. Ken observed the rotation of the satellite dish while Ron asked the questions. I still work with Ron and Ken as all three of us are seeking to expose the truth of what really occurred February 28 through April 19, 1993.

There was an event which occurred on March 20 that began painting a picture of what was to come. Linda Thompson, a Bar attorney from Indianapolis, had convinced me that she and I should enter the Mt. Carmel Center on the authority of the Power of Attorney, as well as the two I executed, at her request, from myself and David Koresh to her. *{NOTE: Linda has asserted variations of the scenario where I attempted to contact her and then begged to be added to the Petition for Writ of Mandamus that we filed.}* We went to Kinko's, which had become my office away from home, to prepare the Powers of Attorney from Koresh and myself to Linda Thompson, as she had requested. While John Baird, her partner and ex-FBI candidate, prepared the POA's she typed out a press release announcing that we were going into the Center that evening. She then asked me to run the release out on APFN, without copies to government officials, which I did. She had, unbeknownst to me, rewritten the release to include only me as the one "going in." We then got in her rental car and travelled toward the checkpoint at FM 2491. On the way Linda began suggesting that she should not go in with me because if I were to get arrested she would handle the legal work outside. John suggested that he might handle it, but Linda (who we have found became a member of the Indiana Bar on June 12, 1992) insisted that he did not have the experience necessary. When she finally stated that she wasn't going in, I said that I was also having second thoughts, but agreed to go to Satellite City and see how it felt before making my final decision. When we arrived at the checkpoint we presented our AEN (Linda's computer network) press credentials, which were honored. While there Linda got some good pictures of the agents, State Troopers and their dog. Then on to Satellite City where Linda began, immediately, passing out the press releases. One of the eager young reporters, who also knew Linda and spoke with her in a very friendly manner, ran, with the release, to the State Troopers who guarded access to Mt. Carmel. Within a few minutes three new Troopers arrived and they continued to stare at a piece of paper, and us, the rest of our stay. My senses indicated that I should not enter Mt. Carmel that night. I imagined Mike Schroeder's body hanging over a fence for days, and chose then not to enter. Linda's anger at my decision was obvious. As we began driving back toward the checkpoint I told John and Linda that we would be stopped on the way out. It had become obvious why we were there. We were stopped and an ATF agent appeared to unlock the safety of his MP-5 and point it very nearly at John Baird's head (John was driving, I was in the back seat). Linda, courageously, took a picture of this event. The agent then moved to the right side of the car and told us to get out. After Linda resisted we emerged and stood where directed. The agent then picked up my camera and began to open the back. I said that he had the wrong camera and film. This reaction was an attempt to retain the pictures I had taken over the past week, or so. After he had ruined my film and began to rummage in the car I told

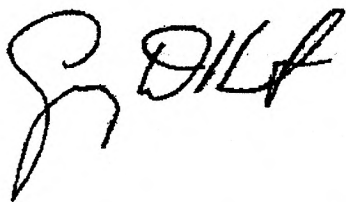

him he had what he wanted. He said that I had told him it was the wrong film. I responded that I was trying to keep him from exposing the film. Proof exists that I was not trying to get Linda's pictures taken away. If that were my purpose she surely would not have gotten away with the film. {NOTE: Linda claims that this was her first evidence that I was a government agent. I feel that my film was as important to me as hers was to her.} While at the checkpoint, we were detained by FBI agents and questioned. Linda acted as my representative, or council, during the questioning of me. The press credentials were seized as falsified and retained by the FBI. My press credentials, Outpost of Freedom, which were not used that evening, had been recognized by the FBI when I was challenged at a press conference a few days earlier. We then left the checkpoint.

This addresses one of many claims as to who I am, all made by Linda Thompson, a Bar attorney. Now, I know that many will say that being a Bar attorney does not make one bad. I agree, however for the past few years most patriots have said that they would be very cautious when listening to a Bar attorney. What has happened to that caution? Now we have a Bar attorney going around the country saying that she knows everything that went on in Waco, however she spent less than ten days in Waco during the siege. She has come out accusing virtually everyone who doesn't agree with her as being a government agent. She makes many claims that I know to be false, and most of which can be easily disproved. Yet the waiting audience listens intently to her speak and response in frenzy to her remarks. Those remarks led to calling for a lynching of me, because Linda claims I am a government agent. Nobody asked for proof of her allegations, they simply responded to someone telling them what they wanted to hear, and such has been the nature of the problem that has caused this country to slide into the abyss from which we are trying to remove ourselves. Dan Rather has nothing on Linda Thompson as those who respond to her cry for blood have anything over Joe Sixpack.

We have got to learn NOT to follow leaders. We have been conditioned to look to someone else (generally government, Bar, AMA, or other acronyms) to answer our questions for ourselves. We have learned to assume that others have mastered areas of our lives better than ourselves. We have learned not to think for ourselves, but rather to find someone who we are convinced is capable of telling us what truth is. We have lost the ability to seek truth for ourselves, for this requires that we look at all sides prior to making a judgement. We have decided, rather, to look for a person who makes judgements, whether they be true or false, consistent with what we would prefer the judgement to be. Then, when that "mentor" gets into areas where we have little knowledge we allow them to "evaluate" the information available and then respond with strong emotional response to the thoughts of that mentor. We have allowed others to lead us down whatever course we wish them to take us. We don't even allow that more than one might better serve us with conscientious decisions, we have become slaves to the very concepts that have led us into slavery.

Freethinking is probably best defined as thinking for ones self rather than relying upon others to do your thinking for you. Perhaps a goal we should all seek during the struggle to regain our Constitution.

February 26, 1973

[Received February 27, 1973 - Intelligence Division, Los Angeles, California, Internal Revenue Service]

To: Participants on Conference on Tax Rebellion Movement

From: Regional Commissioner, Western Region

Subject: Tax Rebellion in California

I am sending you the minutes of our meeting on February 9, 1973, on the Tax rebellion Movement. These minutes enumerate action items for the Los Angeles and San Francisco District Directors, and for regional office officials. I appreciate your past attention to this serious matter and feel confident that all of us working together can successfully overcome this challenge our tax system.

Homer O. Croasmun, Regional Commissioner

Mr. Schwartz, Regional Commissioner

Mr. Rowe, Regional Director

Mr. Kingman, District Director, San Francisco

Mr. Schmidt, District Director, Los Angeles

Mr. McCart, Acting Assistant Regional Commissioner, Intelligence

Mr. Hansen, Chief, Los Angeles

Mr. Howard, Chief, San Francisco

Mr. Monzon, Chief, Enforcement, Regional Office, BATF

[others listed, above is partial]

Mr. Croasmun opened the conference with a review of the history of the Tax Rebellion Movement. He stated we should set up our metes and bounds to achieve our goals. That we do not have unlimited manpower, so **we must focus on the total program and concentrate on the leaders of the movement attacking IRS**. Mr. Croasmun pointed out that several months ago we changed our direction on tax rebellion cases from a defensive posture and now **seized the initiative by infiltration of their organizations**. So we now know in advance of their plans before they execute them. This is vital and we must continue to stay aggressive if we are to enforce the revenue laws and to protect the Service from attack by tax rebellion militants. Mr. Croasmun stated that we **are not limiting ourselves to the sanctions in the Revenue Code, but are using all the available law enforcement machinery, whether it be federal, state or local laws**. For example, if a tax rebel leader is violating a state law by carrying a concealed weapon, we should **use state enforcement to prosecute him**. And, **if there is a firearms violation, ATF agents should be alerted**. Mr. Howard advised that he had been advised by the Detroit District that since [name deleted] spok on the radio in Cleveland there had been a flood of General Motors employees submitting false forms (W-4). Mr. Busalacchi stated he had a report that named the leader who had been active in Albuquerque. Mr. Hansen advised that a [name deleted], of Ventura County had intended to file false forms (W-4) but he now leading the Marinosa group of militants organized by [name deleted], [name deleted] and [name deleted]. Mr. Vargoseak said the Sheriff of Mariposa County had been checking the activities of [name deleted] since May, 1972, when the [name deleted] bought the Mariposa property from [name deleted]. That [name deleted] is a close personal friend of [name deleted], that [name deleted] has a criminal record. That he has 3 or 4 firearms and that the BATF has a case on [name deleted]. Mr. Schmidt pointed out that there are varying degrees of militancy in the various tax rebellion groups. That in the Los Angeles District, Tax Anonymous, led by [name deleted] and [name deleted] is the most militant, **that we keep this in mind in deciding our targets**. Mr. Monzon gave a summary of the laws enforced by the BATF which could be used on tax rebel cases. He pointed out that anyone can carry a gun unless the person has a felony record, that an automatic pistol is not an automatic gun under the definition of BATF unless one pull of the trigger will discharge multiple shots. That explosives are a federal violation, and likewise, silencers are a federal violation. He said he wanted more information about a report that tax rebels are able to buy silencers in Phoenix, as this would be a clear violation. [end]

The Ready Response Team is a nation wide communications network to relay news of importance to the patriot community. This network will be vital in the upcoming months. To become a member of the Ready Response Team you must pledge allegiance to the Constitution of the United States of America, and realize the penalty for the knowing or intentional violation is death. This is not intended to be a game or a hobby, you must be serious. Your life, and ours, may depend upon the communications that we establish for the upcoming months. You must be able to reliably communicate news to at least five other members of the patriot community by either telephone, fax, computer, ham radio, television or AM-FM radio. If you choose telephone or fax as your method of communication you must be aware that many of these calls will involve long distance calls and you will have to pay the cost of these calls. People who choose to sign up for the Ready Response Team will be contacted by the national coordinator within the week. If you do not wish to become a member of the Ready Response Team, press 1, now. On April 27, 1993, I received a message from a fellow named David Treibs that said, "You might be interested to know Gary Hunt gave us a box of the book from Kirby Ferris titled 'A Mountain of Lies, the apprehension and arrest of Idaho's Randy Weaver.'"

To which I responded that the box of books had been sent two months earlier to Gary Hunt who had promised Kirby Ferris that he would distribute them to the News Media at Waco.

Before receiving that message the week of March 19, 1993, I had spoken to Kirby Ferris and he had mentioned to me that he was really puzzled why his books had not been distributed to the news media. Hunt hadn't distributed the books to the media during the Waco siege. Instead, by the message above, we learned that after the Branch Davidians were burned to the ground and the media had long left Waco, Hunt had simply delivered all the books, in one lump, to David Treibs.

Well, I have several first-hand experiences with Gary Hunt and it is my sincere belief that he is a paid government informant, an "agent provocateur." The job of an agent provocateur is to infiltrate "patriot" organizations, gather information about the membership, and to generally cause division and confusion, and discredit the leaders or the group itself. Hunt is an excellent study and object lesson in these techniques, primarily because he is inept enough that he exposes what he does.

I have nothing to gain by discrediting him, other than hopefully to keep others from getting into trouble by associating with him, so I hope you will trust my motivations. In the light of whether my opinion is "sour grapes," consider that, to my knowledge, Hunt has never done anything productive and has made his name solely by either copying what others do, bootlegging others' works, or going on the radio to denounce those poor saps who have been suckered in by his claims of being a "patriot." Know a tree by its fruits.

His pattern, in Waco, was to associate with any and every group and try to get as much information about them as possible, then copy this information as his own, releasing it through the "patriot fax network," to gain credibility. Later, he would then release totally bogus information as one of the groups' members to make the group look really stupid, or, having established an inroad with a particular group, he would try to lead them into trouble with the police. He always had "very" inside information that proved to be true -- too true, because no one else could get that information, such as the number to the BATF inside compound headquarters at Waco, FBI inside compound headquarters at Waco, the fax numbers to both, etc., as well as knowing a "back road" into the compound.

Most astonishingly, on the day of the Waco fire, he told Greg Sali at the Constitutional Foundation

Association (CFA) in Waco, that the night before, the BATF had gone in and shot some of the people. Now, weeks later, the autopsies are showing that many of the Branch Davidians were shot.

He was the first and only person outside of Indians who I met who had heard of the "CDR" (Council on Domestic Relations) which I believe, through other information and contacts with that group, to be a government information-gathering service. His association with it and "pushing" it only further confirms my suspicions.

Miscellaneous background: His paper, "Outpost of Freedom" has only had two editions, ever, both in late 1992. In those, he published stories from one Mark Phillips, who patriots here have consistently informed me is a government agent and I have now obtained documentation linking Phillips with British Secret Service and the CIA. When I learned Phillips could be an agent and that Hunt was working with him, I asked him what he knew of Mark Phillips and he responded that he was a great guy, he worked with him a lot, etc. When I mentioned that patriots had said Phillips was an agent, Gary then back-pedaled in a big way, trying to act like he hardly knew the guy and that he didn't vouch for his stories in his paper.

An observation made by a radio personality is that Hunt seems to like to publish all the names and addresses of patriot groups in his newspaper, too.

A radio personality in New Orleans, Louisiana, told me that Gary Hunt bed-mouthed Bo Gritz and was asked to be on a show to back up his contentions and didn't show up. (I believe this was solely to cause controversy which would have the effect of promoting Gritz, actually. I am not a Bo Gritz fan, either, but more on that in another letter). He was on a radio show in Florida the 1st in May, 1993, and I pointedly accused him of being an agent, citing many of the things that follow in this article, and he didn't deny it, not once. Since then, he's had time to come up with a cover story and now apparently contacts radio stations, trying to get on them to "debate" me. I have no intention of giving him any glory or allowing him to obtain any more publicity at the expense of patriots by giving him a public forum.

Now, in the meantime, my PERSONAL experiences with Hunt have led me to conclude that he is an operative.

In March, 1993, my law partner and I had decided to go to Waco and file a petition for David Koresh, called a Petition for Writ of Mandamus, which is a court paper that asks the Court to order someone to do something they are, by law, supposed to do. At the time, the Court had denied attorneys access to David Koresh, and the FBI was refusing to allow anyone to have contact with

the Branch Davidians. We were asking the Court to order the FBI to observe David Koresh's legal rights and to allow an attorney in to see him. Anyone can file such a petition on behalf of someone else as their "next friend" and that is what we had written and were intending to file.

Before we left Indianapolis for Waco, I got a call from Larry Cozzi who said that Cy Minute (formerly associated with the Bo Gritz campaign) had said to get in touch with Gary Hunt, that he was a patriot staying in Waco and he would help us when we were down there. I called Hunt and he related a story about how he had Koresh's "power of attorney."

[A "power of attorney" has nothing to do with being an attorney in the sense of the word "lawyer". A "power of attorney" is a piece of paper that anyone can give to anyone else that, legally, allows the second person to be recognized by law as BEING the first person. In other words, if you give your "power of attorney" to someone else, that person becomes you, to do anything you could usually do and anything they do, you have to honor. If they take out a loan in your name, you have to pay it, for instance. It does not, however, make the person "an attorney". It would give the person the right to HIRE an attorney for you, though.]

Hunt said he got this authority when he called into Ron Ingelman's radio show, KGBS, in Waco, Texas, the morning that KGBS was talking to the Branch Davidians and the Branch Davidians were answering questions by signalling with their satellite antenna, moving it for "yes" and not moving it for "no." He said that he called into the program and asked if he could have David Koresh's "power of attorney" and that the satellite signalled "yes." That's pretty iffy, but irrelevant to this matter.

We have recently learned that the government had blocked and jammed all broadcasts into the Branch Davidian house and the radio station could not have been broadcasting to the Branch Davidians. Branch Davidians also have told me they were never moving the satellite as a signal, either. Ron Ingelman got his job with KGBS radio right before Waco and made a name as a "patriot" by having people on his show who were sympathetic to the Branch Davidians. He claimed to have "lost" his job right after Waco, but has spent his time since then attacking efforts to expose the government's corruption in Waco, while appearing on radio claiming to be a patriot. While we were in Waco, I saw a fellow I went to law school with who was a "broadcaster" for NBC. The FBI requires that its employees be law school graduates. Hmmm. Looks like we had a few other "advance team" members in Waco to me.

Hunt wanted to be on the petition for David Koresh, so we added him to it. We did not file it acting as his employees or attorneys, as he now claims, because we were not filing in the capacity of attorneys, nor did we ever work for him or have any contract with him whatsoever. I filed as "next friend" to David Koresh which is a legal standing that lets someone file a petition for someone else who is unable to do so.

When we got to Waco, we learned that Hunt was living at the New Road Inn and continued to live there, to the tune of \$40 a day, and spending about \$20 a day at the Kinko's copy center, putting out faxes on a network that only he and another person were members of, and money

for meals, with no visible means of support and with no job track record, either. He claimed to be "in construction" in Florida before coming to Waco, but also claimed to have no money. He also claimed to publish a paper, "The Outpost of Freedom" which I learned had only been published twice ever, and made him no money whatsoever. In other words, he had no "following" or "supporters" to provide support, yet he was able to live \$1 days and churn out a lot of documents during the 51 days he stayed there.

#### PATRIOT FAX NETWORK - GOVERNMENT PLANTED DISINFORMATION

Hunt claimed to have a "fax network" which I learned at the time (March 19, 1993), consisted of faxing things to one place in Florida, another in Nevada, and later, apparently to my office, too. In other words, the fax network was an advance set up by the feds to monitor patriot activity that was established by Hunt, along with Ken Varden out of Las Vegas, to monitor "patriot" activity during Waco.

Hunt claimed to have no car, however, he was seen driving a white Ford truck with a camper top a few times and I believe the "no car" routine was mainly to claim a need to bum rides so as to always be tagging along with a patriot somewhere. In the meantime, since Waco, he has been in several cities in Florida, doing radio programs live, and last said he was going to Montana (where C.U.T. is believed to be the next target).

Anyway, when we got to Waco, we filed the petition on a Friday and from that point on, Hunt wanted us to take him with us everywhere or, alternatively, to give him rides to various meetings. When we didn't oblige, he would be very insistent, then sulky about it. On Saturday, my partner, Hunt, and I went out to dinner. We discussed why the Press had not filed a 1st Amendment challenge to being kept 3 miles away from the Mt. Carmel Center. I wanted to file a challenge to it. Since we have AEN news, John and I were legitimate AEN reporters, so I said I would go to the 3 mile press line, cross the line, get arrested, then we could file a challenge in court on it. John and Hunt both said it would be better if we had someone who wasn't an attorney waiting on the court to rule on a petition to do it and then Hunt volunteered. The plan was to go down to the press area, hand out press releases of what we were doing, Gary would cross the inside 3 mile roadblock line, get arrested, we'd bail him out, then we'd file a challenge of freedom of the press in Court, challenging his arrest. So we took our press passes and cameras and went down to the first roadblock. (There were two sets of roadblocks, one at 5 miles for ordinary citizens and one inside at 3 miles for the press.)

We had made up some press releases to hand out down in the press area when we got there, telling what we were going to do. Unbeknownst to us, though, when we made these up at Kinko's, Gary had sent faxes out to his "buddies" before we left. The press releases said what we would be doing. We discovered later that he had sent these faxes to the ATF command post, as well as the FBI command post headquarters. [This was CLUE 1].

We had no problems getting through the first 5 mile roadblock. The police even posed for pictures and trotted out the BATF "bomb dog" to pose for a few of the pictures.

We got down to the press 3-mile roadblock, handed out a few press releases, and realized that the roadblock was suddenly being reinforced by a lot of police arriving in two police cars. Hunt announced he wouldn't cross the line, so we got in the car to go back to our hotels. Since we had handed out press releases we looked pretty stupid at that point. [This was CLUE 2].

On the way out of the 5 mile roadblock, we got stopped by the roadblock police, who demanded to see our press passes, taking them and our driver's licenses and my rent-a-car paperwork and told us to wait in the car while they ran our names through NCIC (the police computer with criminal information in it - the National Crime Information Center). As we waited, a camouflage-wearing ATF agent, holding an MPK5 sub-machine gun, with his finger on the trigger, pointed his machine gun at my partner's head, then at mine, then at my partner's head, then at mine, back and forth, for 20 minutes or more - but never at Gary. [This was CLUE 3]. I managed to take a picture of the ATF agent pointing the gun at us and when I did, he rushed around the car to my side to open the door, but I had locked it and rolled up the window. About that time, the State Trooper was back and the ATF agent backed off. I hid the film behind the glove box, inside the dashboard, by opening the glove box and throwing the film inside behind the glove box, then slamming the glove box shut on it. We were ordered out of the car.

The ATF agent opened my car door immediately, even though I was saying "You do NOT have permission to search my car," loudly and repeatedly. He said he didn't NEED my consent. He took my purse and dumped it on the car seat and went through it, then he saw Gary Hunt's camera in the back seat and took it out and immediately took the film out. Gary Hunt, who was standing next to me at the back of the car, yelled to the BATF agent, "That's the WRONG CAMERA, that's the WRONG FILM, you've got the WRONG CAMERA." [This was CLUE 4].

The ATF agent found my camera but it didn't have any film in it when he opened it and Hunt didn't know where I had hidden the film, so when the ATF agent said "Where's the film?" I just lied and said there never was any film. He then rooted through the car under the seats, and even opening the glove box, but he never saw the film behind the glove box (and I have a nice, enlarged, framed picture of him pointing the machine gun at us hanging in my office, small copies available on request).

We had to wait on the FBI to get there to "question us" and then they let us go when we didn't cooperate much with their illegal "questioning" (seeing as how two of us were attorneys. . . J. But they refused to return our press passes. [This story, along with the picture of the ATF agent pointing the machine gun recently appeared in the July issue of Soldier of Fortune Magazine entitled "Intimidation at the Barrel of a Gun," story and photo by yours truly.]

Sunday, the next day, Hunt wanted to tag along with us again, so we asked him, instead, to stay at our hotel (not the same one as his, but so he could use a phone there and charge it to us) and call people and set up a press conference. The FBI, CNN, and other press had been releasing stories saying that my partner and I had been "arrested and jailed for having false credentials" and we wanted to set the story straight. John (my partner) and I then went to do some reconnaissance and take photographs

of various things of interest in the area. When we got back, Hunt hadn't set up any press conference, claiming he didn't know how. [That was, in retrospect, Clue #5].

Monday, John and I called the Court and learned the judge hadn't so much as "looked" at the petition (which had been filed as an emergency petition, which ordinarily would get heard within 2 hours anywhere/time else). I decided to file a petition for writ of mandamus against the Judge with the Court of Appeals (which, for that circuit, is located in Louisiana), asking the Appeals Court to force the Judge to rule or else to order the FBI to obey the law, etc. John and I filed that (by fax) with the Appeals Court. The beauty of it is that we then had to serve a copy on the judge in Waco, so we went over to the Courthouse to serve it on the judge and then to sit around the rest of the day, nagging the clerk to nag the judge or whatever it took to get him to rule.

We ran into Hunt at the Courthouse. He said he had "just got a check for \$500 and was going to contribute some money to our organization." [This was Clue #6 - operatives "always" want to give you money to stay in good with you, plus Gary wouldn't reveal the source of this "check", nor how, when he claimed to be a sovereign citizen, he would be able to cash it at a bank].

When we told him we had filed with the Court of Appeals in Louisiana, instead of being glad that we were trying to get the Court to do something, he went BALLISTIC. He cursed me up one side and down the other, ranting and raving - my impression was that his reaction was as if we had taken the case out of "his" (read: the government's) control and he was freaked. Whatever, his reaction was TRULY weird for someone who claimed to want to get Karash raised. [This was Clue #7]. We didn't associate with him, period, after that.

That afternoon, though, Hunt, the person who "didn't know how to call a press conference" the day before, called a press conference to denounce John and I in the entire media assembled at Waco. [This was Clue #8].

It gets worse.

Two weeks later, my husband, Al, and I went to Waco for the Milla Assembly. There were about 45 people from our assembly having lunch at the Dairy Queen when a "late arrival" to our assembly arrived in camouflage fatigues and wanted to "sign up." We let him sign up and kept eating lunch. In the meantime Hunt has also arrived, accompanied by a guy in civilian clothes we recognized as a BATF agent. [This was Clue #9].

Hunt comes over to my table like he's my long lost brother, sits down and sticks out his hand to shake hands, and says he wants me and "my group" to go with him and "his group" on a march into the compound, saying, "You know, by way of that 'secret back door' into it I told you about." "His group" consisted of some of the bolder members of people I knew were actually people from the Libertarian Party, CPA, and some other groups that had volunteers working in Waco, about 20 people in all, all of whom, except Hunt and the BATF agent, I believe are patriotic and hardworking folks. I replied that if it were anyone but him asking, I'd do it in a heartbeat, but I was certain he was leading them into a BATF ambush.

I walked off and didn't talk to him anymore. The

ATF agent in civilian clothes tried several times to talk me into going with them and I blew him off. A guy wearing a JPFO (Jews for the Preservation of Firearms Ownership) hat came in behind him. I talked to him for a few minutes and he said he was "COR". Yippee. We had a fed infestation at that point. [These circumstances, collectively, were CLUE #10]. None of the people from the Militia went with Hunt.

I warned three people from the other groups who had come by in the meantime not to go with Hunt and told them why, but some went anyway. The next day, talking to one of the leaders of the Texas Libertarian party, Katherine Megarty, who had been one of the people I had warned not to go with Hunt, she told me that she had gone anyway and that when they got to the "back road" into the compound, two black helicopters landed immediately and SATF agents, pointing machine guns, jumped out and surrounded them. They let everyone go, but they were detained a long time first. In other words, an ambush. [This was Clue #11]. She also said that the guy who had come in with Hunt, the "late comer" to our assembly had been one of the ATF agents who jumped out of the helicopter. I checked the guy's registration card and sure enough, he had provided only a pager phone number and a phoney address. [This was Clue #12]. As a result of this escapade several groups were trashed in the media (people whose members had gone with Hunt).

Hunt claimed that he had "gotten in good" with Rita Riddle, a Branch Davidian, whose sister-in-law and daughter escaped the fire. Hunt claimed to be pumping information from Riddle. Rita told Ken Fawcett that she was constantly threatened by government agents that her sister-in-law would be arrested if she didn't shut up [Rita had been appearing on radio programs at the time]. Sure enough, Ruth Riddle, Rita's sister-in-law, was later charged with conspiracy and murder. When Rita turned in a claim for her car to her insurance company (the car was destroyed by tanks at Mt. Carmel), Hunt tried to get her to endorse the insurance check to him.

Interestingly, on the 9-1-1 tapes, recorded when the Branch Davidians called the Waco Police Department the day of the raid (the phone hook-up included Mt. Carmel, the Waco Police Department and the ATF undercover house across the street from Mt. Carmel), a government agent, identified only as "Dino" is talking on the phone from the undercover ATF house and says, "Let me put my partner, Starlyne Riddle, on the phone" and a woman named Starlyne Riddle comes on the line and talks to Lt. Lynch, who is on the line, too. "Starlyne Riddle" sounds remarkably like Rita Riddle. And Rita Riddle voluntarily flew from Texas to North Carolina, meeting up with Hunt, in January of this year, as the other Branch Davidians were on trial. Rita has been free to travel and has made several trips.

In May, when I was in Waco, I received a telephone call at the Britney hotel, and the caller asked me to pass on a message to one of the Branch Davidians in jail. I passed the message by phone, to the Branch Davidian when he called the hotel a few minutes later. Not a half-hour later, Gary Hunt knew about the conversation and its contents - I learned this because Hunt relayed it to a third party who knows me and who told me about it immediately - but Hunt had not been at the jail nor talked to the Branch Davidian and could only have learned of the conversation by being privy to jail surveillance and

recording.

Hunt also has spent a great deal of time trying to get media coverage for himself by claiming to be an "expert" on Waco, though he did absolutely no research of his own whatsoever, stealing his information from patriot groups, and has made his name solely by using my coat-tails, calling stations claiming that he "knew me" in Waco and thus is competent to denounce me on radio - same old tactics: Diversion, confusion, and deceit.

The Patriot Fax network, which Hunt started, put out a message that was obviously intended to make Hunt appear credible after he was exposed as the traitor that he is, just before the Patriot Fax network claimed to be "going down" because it couldn't pay its \$3000 a month bill. The message was written by (surprise) Ken Varden and said that Hunt was being chased by the ATF. The message also said the ATF weren't such bad guys after all. Well, I immediately called ATF and asked whether Hunt was wanted or not and was told that he wasn't wanted by ATF at all. But he apparently wants everyone to think so to "prove" he isn't an operative.

Hunt is still travelling around, now with a woman companion named Linda Lyons, neither of whom have any visible means of support or money. I saw them eating together at the Elita Cafe in Waco, Texas, in October, 1993, where the bill would run no less than \$35.00 for a meal.

Shortly afterwards, Hunt appeared at what he claims is the Paugussett (pronounced "Faw-GEE-set") Indian reservation in Connecticut in Colchester, Connecticut.

My information says that two brothers in Connecticut, whose mother was Indian and whose father was black, a few years ago changed their names to Indian names and declared their property a "Paugussett Indian Reservation." They also sued the State of Connecticut to declare the land belongs to the Paugussett Indians and by the suit, have tied up property all around Colchester, Connecticut.

In the meantime they began selling cigarettes from their house, and they claimed that they were not required to pay state sales tax on the cigarette sales based on federal law that says Indians on Indian reservations are exempt from paying sales tax.

The "Paugussett Indian Reservation" was never recognized by the federal government as a reservation. Additionally, the same group that had recently established a very profitable gambling casino on an Indiana Reservation (exempt from state and federal taxes), was attempting to do the same thing with the "Paugussett Indian Reservation."

The two brothers were repeatedly requested to pay the state tax on their cigarette sales and the state sent them notices; finally, in the fall, the State police arrived at the property to collect the state tax owed on the cigarettes. There was, until now, no federal involvement.

But Hunt is an advance man for the feds. And he did the same things when he arrived in Connecticut that he did in Waco - he set up a "fax network" and tried to weasel into the confidences of honest and hardworking people. He copied one woman's writings and faxed them

out under his own name, using her name on his letterhead — both to discredit her and to enhance his credibility. Again, stealing what other people write to claim he is doing "research."

In one fax he sent out, he says "they asked me for my I.d. and I showed them my infamous press pass from Kinkos in Waco." He's referring to the press pass he used the night he was with us in Waco, related above. But if you read closely, you'll notice those press passes were seized by the FBI. John's pass and my pass were not returned to us, but Hunt has his press pass back.

Hunt also asked for and received press identification as a member of the Citizens Allied for Joint Intelligence CAJJI, famous author of the book "Behold a Pale Horse" and radio personality, Bill Cooper's group. Hunt refused to return the credentials when Bill Cooper learned his identity and demanded the return of the credentials. Cooper has offered a \$50 reward for the return of the stolen credentials.)

Shortly after Hunt arrived at the "Paugussett Indian Reservation," black helicopters arrived for the first time, including a Huey, which indicates Army involvement, as well as FEMA (Federal Emergency Management Agency) and OCDETF (Department of the Treasury (just like ATF) - Organized Crime/Drug Enforcement Task Force).

Hunt then put out a fax calling for people to come to a "pionio" and bring their guns -- a transparent "call to arms."

Interestingly the "Paugussett Indian Reservation" is one of several "cults" that are mentioned in the ATF final report of Waco as groups the ATF is "watching." Hunt arrived at the Paugussett Indian Reservation before the State Police arrived there and before the ATF report was published. So how did he know they were targets?

Patriots, the feds are looking for an opportunity to provoke a riot and declare Martial law. They are creating this opportunity before our eyes, and "Chief Moon Face Bear" and his people, while they may have no legitimate claim to a "reservation" are nothing but pawns that will be sacrificed to accomplish this goal.

#### Recent updates:

In January, 1994, I spoke to a group of about 150 people in Orlando, Florida, at a meeting sponsored by Operation Freedom and Charlie Sprees.

At that meeting, Hunt showed up with four buddies. We spotted them immediately and assumed they were there to provoke a confrontation while I was speaking. They didn't disappoint. One of the group began shouting loudly at me. I called a "break" and the fellow was told to ask for a refund and leave quietly (he was complaining loudly that we showed one of the new Waco tapes, "Forgive Us, We didn't Know," instead of "Waco, the Big Lie." They had come there to attack the film, "Waco, the Big Lie," using a tape forgery that we have exposed in "Waco II, the Big Lie Continues."

During the break, members of the audience came up to tell me that people in a grey truck were driving through the parking lot photographing license plates. This sort of harassment tactic had never occurred anywhere

before that I have spoken (at this point, more than 100 places), except where we had previously seen Hunt (at the militia assembly for instance).

After the break, I thought I would talk to the audience about government informants, "agent provocateurs," and I relayed a lot of the information that is contained in this file that you are reading now, except that I didn't point Hunt out and I didn't name him by name.

As I was talking about these things, I did say "And that fellow is here tonight and he is here to provoke a confrontation." At which point, several people called out, "Point him out."

I didn't get a chance to point him out or name him by name — Hunt STOOD UP. And he then pointed a finger at one of the people in the audience and called him an "asshole" Guess he forgot about the other four fingers pointing back at himself.
